MEDICAL. IF YOU WISH TO BE BEAUTIFUL. Use Oscella de Persia, or Victoria Regia, fer Beautifying the Complexion and Preserving the Skin. This invaluable toilet article was discovered by a colorated chemist in France, and it is to him that the Ladies of the Courts of Europe owe their beauty. With all its simplicity and purity there is no article that will compare with it as a beautifier of the complexion and preserver of with it as a beautifier of the complexion and preserver of the skin.

M. C. McClusky purchased the receipt of him some tea years ago; he has since that time given it a perfect trial among his personal friends and the aristocratic Greles of Philadelphia, New York, Baltimore Boston, New Orleans, St. Logis, Savannah, Charleston, Wilminton, N. C. &c. They have used it with unqualified admiration, and would consider the totilet imperfect without this delighting and purely harmless preparation. Victoria Regia and Occella do Persia has given such entire satisfaction in every instance, that he is now compelled to offer it to the public. This article is entirely different from anything of the kind ever attempted, and is warranted. FREE FROM ALL POISUNOUS SUBSTANCES. After using Oscella de Persia and Victoria Regia for a short time, the akin will have a soft, satin like texture; it imparts a freshness, smoothness and softness to, the akin that can only be produced by using this valuable article. It presents no vulgar liquid or other compounds, and tix use cannot possibly be detected by the closest observer. FOR REMOVING TAN, FRECKLER, SUNBURN AND CUTANEOUS DIBEASES FROM THE SKIN.

IT IS INVALUABLE.

M. C. McCluskey has every confidence in recommending his Victoria Regia and M. C. McCluskey has every confidence in recommending his Victoria. was \$4 per ton, and gas \$2 50 per thousand feet, and in Philadelphia coal was \$8 per ton and gas \$2 70 per thousand feet. Taking these figures as a basis, gas was supplied cheaper in Philadelphia than in any of the other places. The reason why the Trustees had reduced the rate was because last year their profits were \$209,000, and their saving on coal was \$170,000.

Mr. Ford (Allegheny) explained why gas, was cheap in Pittsburgh. It was because the charter of the company prohibited any higher rate than \$1 60 per thousand feet. The city had originally owned the works, and on parting with them had made certain concessions, by which the company had agreed to maintain the low rate. In Allegheny City, just across the river from Pittsburgh, the price was \$2 20. price was \$2 20.
