The McArdle Case

By the Atlantic Cable. LONDON, March 2.—The Cabinet changes still form the chief topic of conversation here. The Times of this morning has an editorial article on the subject. It is confident that the

changes are given: Earl Derby, First Lord of the Treasury, to be succeeded by the Right Hon. Benjamin

new ministry is now complete. The following

Lord Chelmsford, Lord Chancellor, to be succeeded by Sir Hugh Cairns. The Right Hon. Spencer H. Walpole, Chancel lor of the Exchequer, to be succeeded by G. W

Hunt, late Under Secretary. QUEENSTOWN, March 2d .- Arrived, steamship City of Baltimore, from New York.

London, March 2d, Evening .- Consols 933/ for money and account. Five-twentles 711/6 71%. Others unchanged. FRANKFORT, March 2d. - Five-twenties are

strong at 74%@75. Inverpool, March 2, Evening.—Cotton, Breadstuffs and Provisions closed unchanged. Sugar and Petroleum closed quiet.

ANTWERP, March 2, Evening .- Petroleum heavy

Proposed Additional Impeachment Article.
(Special Despatch to the Philadelphia Evening Bulletin.)

WASHINGTON, March 2 .- It is the intention of Gen. Butler to prepare this afternoon an additional article of impeachment based upon the President's speech at Washington, on the 18th of August, 1866, and at Cleveland, September 3, 1866, and at St. Louis, on the 18th of September, 1866, charging upon him that he attempted to bring into disgrace, ridicule, hatred, contempt and reproach the Congress of the United States, and the several branches thereof, to destroy the regard and respect of all good people of the United States for Congress and the legislative power thereof, and to excite the odium and resentment of all good people of the odium and resentment of all good people of the United States against Congress and the laws by it duly and constitutionally enacted. This article Gen. Butler supports with various specifications, giving the language of the President upon which this article is based. The feeling in Congress is entirely too strong to admit of this article being adopted, and therefore it will fail. The Senate has discussed nearly all day the rules to conduct the trial, and has passed all up to the ninetcenth, and is now discussing the twentieth. After this is passed the romainder will be speedily disposed of. An amendment has been offered to the 20th rule which bids fair to be adopted. As amended, it which bids fair to be adopted. As amended, it reads as follows: All preliminary or interlocutory questions, and all motions, shall be argued not exceeding two hours on each side, unless the Court shall, by order, extend the time before the

The McArdle Case.

(Special Despatch to the Philada, Evening Bulletin.)
WASHINGTON, March 2.—The McArdle case came up in the Supreme Court to-day. Hon. Jerry Black made an hour's speech in support of his side, and at the end of that time, upon his own side, and at the end of that time, upon also wan motion, further argument was postponed until to-morrow. It is expected then that he will occupy the attention of the Court the entire day. The impeachment trial will probably cause a postponement of this case, as it is thought the argument will hardly be finished by the time Chief Justice Chase is called upon to preside over the Senate.

The Impeachment Articles. **Bpecial Despatch to the Philadelphia Evening Bulletin. WASHINGTON, March 2.—At three o'clock the

time for making fifteen minute speeches closed. Mr. Boutwell, on behalf of the Impeachment Committee, proposed several verbal amendments to the articles of impeachment; also, to strike out the seventh article.

XLth Congress-Second Session. (House-Continued from Fourth Edition.)
Mr. Butler offered the following as an additional as

Mr. Butler offered the following as an additional article:
That the said Andrew Johnson, President of the United States, unmindful of the high duties of his office, and the dignity and proprieties thereof, and of the harmony and courteeies which ought to exist and be maintained botween the executive and legislative branches of the government of the United States, designing and intending to set aside the rightful authority and powers of Congress, dide-stempt to bring into disgrace, ridicule-haired and centeupt and proproach the Congress of the United States and the several branches thereof, to impair and destroy the regard and respect of all the good people of the United States for the Congress and legislative power thereof, which all officers of the Government ought involably to preserve and maintain, and to excite the odium and resentment of all good people of the United States against Congress and the laws by it duly and constitutionally enacted. And in pursuance of his said designs and intent, openly and publicly, and before divers assemblages of cittzens of the inited States, convened in divers parts thereof to meet and receive said Andrew Johnson as the chief magistrate of the United States, did, on the 18th day of August, in the year of our Lord one thousand eight hundred and sixty-six, and on divers other days and timestwell before and afterward, make and deliver, with a loud voice certain intemperate, infianmatory and acandatous harrangues, and did therein utter loud threats and bitter menaces as well against Congress as the laws of the United States.

CITY BULLETIN.

THE SALE OF PICTURES collected by James 8. Earle & Sons was concluded on Saturday evening, in the Foyer of the Academy of Music, where there was a large attendance of lovers of art. The evening's sale amounted to over seventeen thousand dollars, and the proceeds of the two evenings were over twenty-nine thousand dollars. We sub-join a list of the most important pictures with

No. 120. Old Birds are not Caught with Cambridge M. Webb.
No. 120. The Threatened Exposure, Emilie Schultz.

No. 143. Moonlight near Durseldorf, S. Jacobsen.

200

No. 111. Savoyard & Dog, E. Bosch.

300

The remaining pictures brought prices below three hundred dollars. The whole number sold on the two evenings was one hundred and seventy. The prices were good considering the times, but the pictures were generally very fine.

The auctioneer was Mr. E. Scott, Jr.

A FEW FACTS ABOUT QUININE. - In the BULLE-YIN of Saturday, some statements were made in reference to the discovery and manufacture of quin-ine. This useful article was discovered by a fa-mous French chemist. Pelletier, living in Paris, and he published the full account of his method of manufacture in 1820-21. The discovery was considered of so much importance to the scienti-tic world that the French Academy wave it the

fullest publicity, and the French Government refullest publicity, and the French Government rewarded the inventor so as to put him far above the necessity of making a secret of his discovery. Immediately the process of manufacturing quinine was published to the world, it was begun here by Mr. Farr, whose business is carried on by Messrs. Powers & Weightman, and by Mr. G. D. Rosengarten, of the present firm of Rosengarten & Sons.

There was, therefore, the Magnetil chart in

Asong men, of the present of "secret" about its manufacture, and, of course, no treachery to Mr. Farr's injury, or the benefit of any other manufacturer. There have been at different times, eight or ten establishments in this city, in Baltimore and in New York, engaged in the manufacture of quinine, and the article produced was equal in nearly all respects. The two largest houses engaged in the business now, Powers & Weightman, and Rosengarten & Sons, have never yet succeeded in supplying the American market, although their quinine is better than any that is imported.

PHILADELPHIA CATTLE MARKET, March 2d .-The Cattle market was dull this week, but prices were without any material change; about 1,400 head arrived and sold at the Avenue Drove Yard

Hogs were also in fair demand at an advance; 4,000 head sold at the different yards at \$12 50@ \$13 25 per 100 lbs. nett.

Sheep were 1/3c. per lb. higher; 6,000 head sold at 5/4@8c. per lb. gross, as to condition.

THE LATE JOHN B. BUDD .- The following official communication to the widow of the late John B. Budd has been sent from the Academy of Natural Sciences, of Philadelphia

of Natural Sciences, of Philadelphia:

Hall OF THE Addingly of NATURAL Sciences of Philadelphia Fobruary 25th, 1868—The Board of Trustees of the building fund of the Academy of Natural Sciences of Philadelphia has instructed its chairman to communicate to the family of the late John B. Budd an expression of its sense of loss experienced in his doath. Actuated by a spirit of general benevolence and an earnest disposition to foster every enterprise designed to contribute to the progress of science or art, Mr. Budd, through his personal influence and example, largely aided the Academy in its effort to obtain the means to erect a new edifice.

Academy in its effort to obtain the means to effect a new edifice.

He was a much-esteemed member of this Board. His colleagues will miss his judicious counsel. In the removal of Mr. Budd to a higher world, they sustain the loss of an estimable associate and personal friend, and they are sensible that the Academy of Natural Sciences has lost one of its most officient supporters.

I beg leave to offer this brief, record as a token of the appreciation of the character of Mr. Budd by his fellownembers in this board, and as an assurance of its sympathy with his family and friends in their becavement.

I have the honor to be, very respectfully, your obeddent servant.

Chairms a of the Board of Trustees of the Budding Fund.

Mrs. John B. Budd. Philadelphia.

POLICE ARRESTS DURING FEBRUARY .- The police of the city made 1,973 arrests during the month of February. This was a decrease of 822 from the same month in 1867. The prisoners were divided among the several districts as fol-

12th101	
ARRESTED.—John Burns was arrested at twelve	

o'clock on Saturday night, by Reserve Policeman Hill, upon the charge of having been concerned in the assault and battery upon Geo. Brotherton. In a forgery case, before the Court of Quarter Bessions some time ago, Brotherton was a wit-ness, and, after giving his testimony, he went to the Continental Hotel, in the bar-room of which he was assaulted by two men. The affair was at once brought to the attention of the judge, and a bench-warrant for the arrest of the assailants was issued. One of them was captured a day or two after the assault, and was held in \$5,000 bail by the Court. Burns, who is alleged to have been the other one, was captured, as above stated, on Saturday night. He was locked up at the Central Station, and will be taken into court for

BISHOP STEVENS .- The accounts from Wilkesbarre continue to indicate the the gradual im provement and the eventual recovery of Bishop Stevens, who was so soriously injured by a re-Stevens, who was so sorlougly injured by a recent railroad accident. As he will be disabled from active service for a considerable length of time, the Bishop has authorized the Standing Committee of his Diocese to procure the temporary assistance of some of the other Bishops. The Standing Committee, through its President, the Rev. H. J. Morton, D. D., is making the necessary appropriate of the Bishop's appoint. essary arrangements to fill the Bishop's appoint ments, during the present month, and it is expected that the Episcopal duties of the Diocese will be performed by Bishops Randall, of Colorado; Lee, of Delaware, and others.

THE GAS WORKS .- The first day of March was the time fixed upon by City Councils for taking possession of the Philadelphia Gas Works. Last week, it will be remembered, the Trustees of the Gas Works filed a bill in the Supreme Court to restrain the city authorities from carrying into effect the ordinance upon the subject. A writ was served upon the Mayor as the Executive officer of the City, and after a consultation with the City Solicitor it was agreed to take no action in the matter until the case is settled by the Supreme Court, the 7th inst. having been fixed for the hearing. Mayor McMichael, therefore, did not take ossession of the Gas Works this morning, as it was expected he would.

A STORMY BEGINNING .- Spring is generally recognized as the most delightful season of the year, but this year it did not open very favorably. The first of March was about as cold, stormy The first of March was about as cold, stormy and disagreeable as any day during the past three months. At nine o'clock yesterday morning the thermometer marked 24 degrees, the wind was northeast, and the weather cloudy. In the afternoon snow commenced falling, and the storm continued, interspersed with rain and hail during the afternoon and evening, and almost the entire night. To-day the streets have an addition of a couple of inches of snow to that which had already nearly blocked them up.

LODGERS IN POLICE STATIONS.—The stormy veather of last month and the scarcity of emweather of last month and the scarcity of employment had the effect of largely increasing the number of persons who nightly apply for lodgings at the various police station-houses. The number accommodated with lodgings during February exceeds that of any month, at any time, before known. At Southwark Hall 986 persons were provided with lodgings; at Spring Garden Hall 561, and at Germantown Hall 521. The other police stations in the dity were constant. The other police stations in the city were occu-pled in about the same proportion.

ROBERY.-The dwelling of Ferdinand Hefling on Physic lane, in the Twenty-second Ward. was entered last week and was robbed of \$100 in silver coin and United States notes. The en-trance was effected by a second-story back window, the sash of which was broken out. The window, the sash of which was broken out. The thief evidently cut himself severely, as there was blood upon the floor, and the doors and walls bore bloody imprints of fingers made by a person groping his way about in the dark.

TARCENT OF A HORSE .- A young man named Thomas Paxson was committed by Ald. Gibson, on Saturday, to answer the charge of the larceny of a horse. He was employed to ride the horse from Manayunk to Norristown, to be sold. The animal was not sold, and was ridden back to Mana-yunk by Paxson, who, it is alleged, did not take the horse to the proper place, and refused to give

LARCENY OF CLOTHING. John Toner and John McNeill were arrested yesterday upon the charge of having been concerned in the larceny of clothing from the store of John Spadel, at Sixteenth and Market streets. A portion of the stolen goods were recovered, and Toner had on a coat which was identified as the property of Mr. Spadel. The accused were committed by Alderman Morton.

THE FIRST VIOTIM.—The new Police Stationhouse in the Seventeenth District was inaugurated on Saturday, and the first occupant of the cells, os a prisoner, was a woman, who was picked up drunk, on Passayunk road, near Federal street, and was taken to the Station-house in a push

New Buildings .- During the month of February, 90 permits were issued by the Building Inspectors for the erection of new buildings. Of that number 23 were for three-story dwellings and 12 were for two story dwellings; boller-house, 1; office, 1; shops, 2; stables, 4; store-house, 1. There were also 46 permits issued for alterations and additions.

FIRES .- A stable belonging to John Campion, located on Evelina street below Third, was partly destroyed by fire about three o'clock yeserday afternoon. The alarm of fire about half-past 2ve o'clock this morning was caused by the partial burning of a small brick stable on Hubbell street, below

Fitzwater. The damage done was not serious. ENTERED UPON THEIR DUTIES .- Mablon H. Dickinson, Esq., Chief Commissioner of Highways, and Hiram Horter and James Works, Assistants, entered upon the discharge of their duties this morning.

STEALING A POCKET-BOOK.—Ann Maddocks has been committed by Ald. Swift to answer the charge of stealing a pocket-book containing \$8, from a man whom she met and engaged in conversation in Locust street.

How to Make Money .- I will pay \$25 to any established manufacturer of patent medicine who will open his office to the public and offer to cure, at any price, or remove pain within five minutes, or who will offer to have his remedy tested immediately on the spot, for the removal of pain, in public. I will pay \$100 more if, with his or their remedy, it proves to give immediate relief to ten persons in one hundred who apply. I will pay \$1,000 more if they will produce a remedy that will remove and permanently cure all pain as quick, or remove inflammation as fast 88 PAIN PAINT, that contains no chloroform, epium, or any narcotic drug, is as harmless, and causes no pain in its application. Some of the manufacturers of patent medicine are losing customers, in consequence of the introduction of PAIN PAINT. They struggle and die hard; but folks of common sense know that a remedy that never fails of romoving pain can be tested in public, and in the face of the whole world, with the utmost confidence, and unless such remedy be harmless and positively certain in its application and future results, it would most emphatically be its own ruin. Physicians every day are present, and if a single failure should happen it would be most damaging. All can come and prove Pain Paint, even its greatest enemies, at no expense; and if they snarl and growl because all can test it, and because everybody purchases PAIN PAINT, it only goes to show that their own business is declining, because a better remedy takes the place of pills and cayenne pepper, or turpentine liniments. R. L. Wolcott, 179 Chatham square, New York, and 622 Arch street, Philadelphia, in the Drug Store.

A FRIEND who has traveled in Germany reports the following incident, for which he vouches: During the summer Dr. J. C. Ayer spent some weeks at Dresden, in conference with the chemists of Central Europe, where he was heralded as the inventor of the world-renowned medicines that bear his name, and considered one of the American celebritics. While riding, one day, his open carriage fell in with the cortege of the King of Saxony, on a drive from the review. The Doctor soon became the chief attraction and received the Saxony, on a drive from the review. The Doctor soon became the chief attraction and received the marked attention of the people, who were even more demonstrative in their courtesies to him than to the King himself whom they see so constantly. King John, observing this, wrapped his military cloak around him and reclined upon his seat, while our great American medicine man did the honors for the royal retinue, graciously bow-ing, hat in hand, on every side, until wearled by his excessive condescension to this old monarch's people.

CITY NOTICES.

"A woman with a child in her arms was a few

"A woman with a child in her arms was a low days since soliciting charity from door to door in Bridgeport, Connecticut. She wanted, if possible, to raise money enough to get her child's photograph taken."
This is not unlike the man bringing suit against a railroad company that cut off his legs, and among the damages included the ngly tear the cowcatcher made in his pantaloons. If he had bought them at Charles Stokes & Co.'s, under the Continental, he could not have more highly prized them. 834 CHESTNUT Street, 836. Chas. Oakford & Sons' Great Hat and Cap Bazaar.

WE OFFER FOR SALE

FIRST MORTGAGE BONDS

CENTRAL PACIFIC R. R. CO. At Par, and Back Interest.

There is a very large European demand for these Bonds, which, added to very large home demand, will soon absorb all the bonds the Company can issue. The above Bonds pay Six Per Cent. Interest in Gold, and are a First Mortgage on a road costing about three times their amount, with very large and constantly increasing net revenue.
