Row at a Danck.-Last night a room over lager beer saloon on Vine street, below Fourta. was rented to a party for the purpose of having a-dance. Everything went on smoothly unti-about twelve o'clock, when a row commenced a dance. Everything went on smoothly untiabout twelve o'clock, when a row commenced.
The disturbance, it is said, originated about the
suffice of two rival fire companies. The proprictor of the house, with his assistants, went up
stains to quiet the tunnut. This only note
matters worse, however. The second party
were looked upon as intruders, and they were the
mediately attacked in a furious manner. Two
of the landlord's squad were very roughly
handled. One had his face greatly disfigured by
blows, and the other was hadly cut to the head
with a black-jack. One of these men detected
an attempt to rob him. His pocket book wataken from his pocket. He got hold of it, however, and a severe struggle ensued. One-half of
the wallet, with \$15 in money finally got into the
power of a fellow, not the owner. The police
made—their appearance, when the participants in the affair scattered and many made
their escape by a back window. John W. Wire,
Wm. Mead, Henry Wilson. Wm. Watts, John
O'Neill, Chas. Simons and Fannie Hart, were arrested and taken before Ald. Godbou. The
men were held in \$1,000 bail for riot and the
woman was held the keep the peace.

Railroad Travel.—The different railroads

RAILROAD TRAVEL. - The different railroads rupning to and from the city are now preparing for the spring and summer travel, and will publish in a few days their time-tables. It is intimated that an increased number of trains will be placed on the Camden and Amboy Railroad, and that there will be some abatement from the rates of force that the same abatement from the rates of there will be some abatement from the rates of fare that prevailed during the war times. The way travel between Philadelphia and Borden-town during the past three years has increased at an unprecedented rate, and warrants the belief at an unprecedented rate, and warrants the benthat the day is not far distant when hourly trains will be run over this route. A large number of houses are in course of erection along the New Jersey banks of the Delaware, and the travel over this route during the coming season will exceed that of any former period. The number of passengers carried over the Mount' Holly and West Lersey rough exceeds the most sangnine expecta-Jersey roads exceeds the most sangnine expectations of the projetors of these roads.

THUNDER STORM .- This morning, between two and three o'clock, a severe thunder storm passed over the city. The rain came down in torrents for some time, and much of the snow on the streets was carried off. The thunder was not in short and sharp claps, but was long and heavy. and resembled very much a railroad train passing over a wooden bridge at a pretty good speed.

NEW JERSEY MATTERS.

THE LATE STORM .- The severest snow storm of the season set in along the Jersey coast on Friday afternoon, and was accompanied with a strong north wind, which blew almost a hurristrong north wind, which blew almost a hurricane. In Atlantic City the enow drifted in places a depth of some four feet. Trees were pressed down by the heavy weight, and considerable damage was sustained by property. The Saturday morning train of cars could not leave, and no communication was had with the shore. About eight e clock on Saturday night the Philadelphia train arrived with two locomotives attached, and in some places encountered snow drifts six and eight feet deep. Fortunately the winds blew the tides out, thus causing vessels to keep at sea, and although it is thought much suffering from cold has been experienced on shipboard, no wrecks lave thus far been reported in Atlantic City. A large force of workmen was in Atlantic City. A large force of workmen wa-at once sent along the road to clear the track, and the trains are now running again regularly.

NEW JERSEY ANNUAL CONFERENCE.-The annual Conference of the Methodist Church of New Jersey, now in session in Lambertville, is one of the most important assemblages to the interests of the church ever held in the State. The re-ports generally presented indicate the growth and prosperity of the charges in the various detricts composing the Conference. The Superintendents of the Sunday School Union report that during the past year the Union contained 15,292 schools, 171,695 officers and teachers, 1,083,525 scholars, and there are 2,737,734 books in the lischolars, and there are 2,787,734 books in the libraries. The number of conversions during the year was 31.270. The expenditures for the same period were \$21,898, while the income from all sources amounted to \$23,197. The printing for the department amounted to 574,227,000 pages. The Tract Society alone printed and circulated 5,232,000 tracts, while the whole number of pages issued from that department reached 24,132,000. Grants were made to 1,253 applicants in 59 conferences, besides its liberal contributions to the work in foreign countries. \$1,200 in gold had been sent to China for the purpose of printing and circulating reading matter there. During the snucreonating resaming matter there. During the past year the Union had received \$15,102, a sun \$1,472 less than that received last year. The present Conference will be signalized by some important measures in the church in reference to educational matters throughout the State.

REFUSED.—The proposition to repeal the school law which was passed by the Ropublicans last winter, and which has just fairly got into working order, has been lost in the Lower House by a vote of 26 to 18. The law, as a general thing, appears to give satisfaction, although some slight changes might be made for the

An examination was made, when it was found that during Saturday night or Sunday an entrance had been gained in front by the use of false keys, and the thieves having some to the wants, under the sidewalk, had removed the bricks between the safes and carried away bonds to the aggregate value of \$40,000.

About \$20 in currency was also taken. The thieves then returned to the main floor and made an unsuccessful attempt to break into the large s.f. by drilling, but the metal proved too hard for them, and they desisted.
