[Correspondence of the Philadelphia Evening Bulletin. ATLANTIC CITY, March 25, 1868 .- A winter at the seaside has its pleasures and enjoyments, as well as its disadvantages. The deep, eternal bass of the rolling surf, blending with the shricking northeast winds, the driving storms of rain and snow, sometimes illumined by lightning flashes, make a sublime impression on the mind of the thoughtful philosopher:

"For do but stand upon the foaming shore, The chiding billows seem to belt the clouds; The wind-shak'd surge, with high and monstrous

Seems to cast water on the burning bear, And quench the guards of the ever-fixed pole." Scenes like these are truly grand and attractive, and although frequently attended with disasters and although frequently attended with disasters on the sea and destruction on the shore, there is scarcely a person to be found who does not love to see a violent storm along the coast.

Emerging from the effects of the coldest and most disagreeable winter experienced here since this pleasant summer resort was incorporated as leave our recoule present a more cheerful coun-

a city, our people present a more cheerful coun-tenance and exhibit greater vivacity of spirits for "Flushed by the spirit of the genial year,
Now from the virgin's check a fresher bloom
Shoots, less and less, the live commotion round;

Her lips blush deeper sweets; she breathes of youth;
The shining moisture swells into her eyes,
In brighter flow; her wishing bosom heaves
With palpitations wild; kind tumults seize
Her voins, and all her yielding soul is love."

While the intense cold weather prevailed, the While the intense cold weather prevailed, the winds whistled, and rain and snow storms descended, but little out-door business could be attended to, and every day and evening found our grocery stores and such of the hotels as are open, thronged with citizens discussing the merits of the weather, the prospects of the coming season, the political situation, or whether Andrew Johnson should be convicted of high crimes and misdemeanors. Among these convivial gatherings true human character is disvivial gatherings true human character is discovered. Here nature in all its simplicity is exhibited, in the outgushing sentiments of the exhibited, in the outgushing sentiments of the heart, the unpolished use of language, the crudeness of ideas, and the generally correct conclusions arrived at. Every one seems to take a deep interest in his neighbor's welfare, and nearly all meet upon a common platform of sociality and friendliness. The only line of separation is in politics, and this is as strongly marked as in large cities—the Republicans being uncompromis-ingly Union, and the opposition as stubbornly the

reverse.

"Dull rogues who affect the politician's part,
And learn to nod and smile, and shrug with art;
Who nothing has to lose, the war bewalls;
And he who nothing pays, at taxes rails."

Politically, Atlantic City is truly Republican in every sense of the word. Three years ago they could boast of only two majority. Last fall their ticket was elected by an average majority of forty-two. This wholesome increase has been accomplished by the active exertions and influence of the Union League, which has labored zealously in the work. The members are all live and influential gentlemen, comprising seven-eighths of the enterprising and business men of the city. They give life and character to the place, and their able debates, essays, public readings and declamations, attract to their rooms every saturday evening the general public, to whom the doors of the League room are thrown

whom the doors of the League room are thrown treety open. This organization has thus afforded the citizens not only pleasant amusements, but also literary entertainments of a high order.

But now, as Spring opens and the snows are disappearing, improvements have been commenced, and everywhere the carpenter's saw and hammer are heard. Those who have been idle all winter have enough to do, some in hauling bricks, others lumber to their various destinations—some in filling low lots, others carting away superabundant sand from the bluffs. Now cottages, boarding houses and other convenient buildings are going forward with rapidity, and others will are going forward with rapidity, and others will soon be commenced, all of which, according to contract, must be completed by the time the summer opens. The present will be a season characterized by the erection of many large and important improvements here, and the general impression is that it will be a profitable one in a pecuniary point of view to those who keep pub

lic houses of entertainment.

A series of highly interesting lectures are now in progress in the public schools of this city, on subjects connected with the interests of educa-tion, and designed to advance the pupils in their various branches of study. Under the able super-vision of Prot. 8. R. Morse, Atlantic City can bonst of as good a public school as can be found anywhere in West Jersey. At the present time it contains about three hundred registered pupils, of all conditions and classes.

"Long may it be ere luxury teach the shame
To starve the mind, and bloat the unwieldy

We have been very active here in getting signers to a petition to Congress asking that body to make an appropriation for building a defence along the inlet front of the island, in order to protect that part of the beach from washing away. About 7,000 names have been forwarded, and the petitions were referred to the Committee on Commerce, and there they rest. Some 1,500 feet of the island at that point have washed away within a year, and certainly some protection is needed.

THE SCHUYLKILL WATER SUPPLY. Petition to the Legislature.

To the Senate and House of Representatives of the State of Pennsylvania:

At a large meeting of manufacturers held at Manayunk the 13th day of February, 1868, in relation to the bill introduced in the House by Mr. Adaire, respecting the use of the Schuylkill river, from the Norristown Dam to the Fairmount Dam, a Committee on Statistics was appointed, who made a report at an adjourned meeting, on the 20th February, which was ununimously approved and adopted, and directed to be sent to the Legislature, as a protest against the passage of said bill
The report of said Committee is as follows:

Your Committee, immediately after their appointment, sent printed circulars with interroga tories to the manufacturers who will be affected by the passage of said bill, the answers to which have enabled us to present the following reliable tabular statement:

LIST OF MANUFACTURERS BETWEEN FAIRMOUNT DAM AND NORRISTOWN DAM.

No. of Manu Hands Factories, factures, Employed Families, 9 Paper Manufactures 688 380 2 Chemical Works 127 115 1 Print Works 119 78 1,650,000

12.120.972 3 Flour. 23 9 12 Iron. 1,816 968 5,365,000 40,000 6 60 205,000 Total..... 9 362 4,957 \$23,335,972

Seven establishments having neglected to furnish the deelered information, your committee are obliged to estimate, and their operations we believe will swell the number of hands employed to 10,000 persons, of dependent families to 5,000, and the aggregate value of productions to twenty-four millons of dollars per annum.

Trom statistics considered reliable, it is generated. ally conceded that for every million dollars of annual production one and a half million dollars are required to be permanently invested in mills, machinery, dwellings, &c., &c., which would give about thirty-six million dollars as the value

of the property now in danger of being seriously affected by the proposed bill.

Thus you will observe that Ten thousand hands are now threatened with loss of employment, and. Thirty thousand persons dependent thereon would be decrived of their present means of support, thirty-six millions of dollars worth of property cutick destroyed or westly decreciated in perty entirely destroyed or vastly depreciated in value, and the annual product of twenty-four millions of dollars be diverted to other sections millions of dollars be diverted to other sections of the country. to the serious disadvantage both of our State and city. Your Committee base their estimate of Thirty thousand persons dependent for their support upon the business now threatened with destruction, upon the usual data, that is, for every member of a family employed, there are three who are dependent upon one employed. Hence besides the Tenthousand hands employed. Thirty thousand others, making a grand total of Forty thousand, would be deprived of their means of support, be driven from their homes and pursuits, and forced to seek employment elsewhere.

We can hardly estimate the effect upon the wi-

jacent agricultural districts, of thus depriving the farmers of Montgomery, Chester and Bucks counties of this great market for their products, becoming annually a source of increasing wealth to all the farmers in that region. Nor can we estimate the effect upon the business interests of the city of Philadelphia, of this threatened destruction of a large amount of taxable property, and the diversion to other markets of products and the diversion to other markets of products now particularly controlled in our city, and an

important element of its prosperity.
Your Committee are fully persuaded there is no other river in the world, one hundred miles in length, that drains a country so supplied as the Schuylkill Valley with all the resources essential to the development of a great manufacturing district. Its water privileges, railroads and canals, bringing unlimited supplies of coal, iron, lime, lumber and stone, its rich Valloys of Lebanon and Chester, the very garden of our State, capable of supplying most abundantly all the wants of the great industrial population, would, if undisturbed, make the Schuylkill Valley eccond to none in the Union, in wealth and pros-

We have ascertained and shown from actual statistics, that the vast sum of thirty-six millions of dollars is directly invested in manufacturing, in the first sixteen miles of the Schuylkill Yalley, and that a population of Forty thousand depend for their means of livelihood, upon it pursuit. We leave you to judge of the vast extent of collateral interests, both in the country and city, which are to be affected most fatally by the proposed legislation.

present nincteen twentieths (95 per cent.) of all the impurities thrown into the river from sewers and factories are from sources below the Flat Rock Dam. While the river forms the natural drain, it is proposed to substitute for it a costly and extensive sewerage, of very doubtful success. Whilst on the other hand, it has been suggested to severa for the nea of the Fairsuccess. Whilst on the other hand, it has been suggested, to secure for the use of the Fairmount Water Works, an ample supply of unquestionably pure water for supplying the pumps and basins, by laying a large Iron Main Pipe from the Flat Rock Dam' to Fairmount, and using the river only to drive the wheels, which force pure water into the reservoirs.

This latter plan would entirely and perfectly overcome all objections as to the purity of our Fairmount water, for many years; it is simple and effective, and as its cost can be accurately

and effective, and as its cost can be accurately estimated, it could easily be made ample and secure, leaving undisturbed the great manufacturing

interests.

The Committee leave the question of an increased supply of water to be determined as the necessities and development of the city may require, without detriment to the industry of the Schuylkill Valley, which is as essential to the growth and prosperity of the city, as the supply f pure water to the health of its inhabitants. The great importance of the interests involved and the practicability of achieving the desired

result with greater certainty and at less expense, demand the exercise of extreme care, that the greatest good may be attained with the least in-jury to the large population, which are depend-ant upon the Schuylkill Valley.

Your Committee assert without hesitation, that

no artificial drainage can ever be efficiently substituted for the natural bed of the Schuylkill river, and that from the sewers of Manayunk, from the towpains and roads along the shores, from the drainage of the vast cemeteries on its banks, from the gutters of city streets and the canal boats constantly passing along the river, there is a vasily greater amount of fifthy animal matter thrown into the river, than from all the operations of manufacturing catabilial matter. rom the towpaths and roads along the shores,

operations of manufacturing establishments.
Your Committee, therefore, recommend that an earnest appeal be made to the Legislature to protect us in the pursuit of our avocations, and forbid any interference therewith, on any doubt-ful experiments to purify the Schuylkill river, histend of securing a supply of pure water free from the possibility of contamination. All of which is respectfully submitted.

WM. SIMPSON. A. CAMPBELL, MARTIN NIXON, E. S. TOMLINSON, ROBERT KERSHAW.

CITY BULLETIN.

AN ATTEMPT TO SWINDLE .- Yesterday a gentleman residing in this city received a package, addressed to him, and marked "Per American Express. Fully Insured." This package contained a check and receipt, and a letter. The letter read as follows:
"New York, March 23, 1868.—Mr. —

"New York, March 23, 1868.—Mr. ——, enclosed you will find my check drawn to your own personal order amtg to \$1200, Payable at the Banking House of Jay Cooke & Co on Presentation in Person only. The Insurance or the amt of the check is to be paid by you on the Reciplant on delivery which is \$7 45.

"Yours truly Thos. H. Corbett.

"P. S. This Debt you never expected from mc. Thos. H. C." The check was on the Browery National Bank. It called for "twelve hundred dollars," and was signed by "Thos. H. Corbett."

As the recipient of the package knows nothing about Corbett, it is evident that an attempt has been made to get \$745 out of him.

CAUGHT IN THE ACT .- A negro, named John Johnson, was before Alderman Thomas, yesterday, charged with attempted robbery. About six o'clock yesterday morning he entered the house of Thomas Garrett, on Mill street, German-town, which is now undergoing repairs, and while in the act of carrying off some clothing, belonging to plasterers, was detected by Michael Clifford, who is employed on the premises as gardener. A scuille ensued, and Johason struck Clifford on the head with a billy, causing a wound, from which the blood flowed freely. Clifford held on to the man, however, and took im to the Police Station. Johnson was committed, in default of \$1,400 bail. He has only cen out of prison about a month, having served or one year for sneaking into a house on Green and stealing all the clothing belonging to be gardener and his family.

SUPPOSED THIEF CAPTURED .- Yesterday afternoon a man entered Heft's liquor store, on Third street, below Vine, and asked to try some sam-While thus engaged another man, appa rently a stranger, made his appearance. Mr. Heft was suspicious and watched both. After they left he followed them to the door and found that the men joined each other at the corner, and finally went together into a cigar store. Mr. Heft went into the store, accused them of being thieves, and threatened them with arrest. Thereupon both ran out and started in opposite directions. One was pursued by Mr. Heft, who was finally aired by Palleman Revers and the furtitive was joined by Policeman Reever, and the fugitive was inally arrested. During the chase he threw away some skeleton keys and other things generally used by thieves. The prisoner gave his name as George Johnson. He will have a hearing at the Central Station this afternoon.

Suicide.-This morning about half-past one o'clock Policeman Ingram, of the Sixteenth District, found the body of a man lying on the pavement on Darby road, below Market street. The deceased had a pistol shot wound in the temple By his side was found a single barrel pistol with out a load, and in his pockets were powder and bullets and a box of caps. There was nothing upon the person of the man to show his name or address or what led to the commission of the act of self-destruction. The suicide was about 55 years of age, had a sandy goatee, and was respect-gbly dressed in dark clothing. The Coroner took charge of the body.

STEALING HARNESS .- William Dougherty and James Murphy were arrested yesterday and taken before Alderman Toland upon the charge of hav-ing entered the stable attached to Campbell's Hotel, on Second street, above Race, and stolen therefrom a lot of harness. They were sammitted

BOLD THEFT. - A man named Geo! Robinson went into a cigar store at Eighth and Walnut streets, yesterday, and helped himself to a box of cigars and left. He was captured by Policeman Bianford, and after a hearing before Ald. Swift, was held in \$800 bail for trial.

LARCENY OF WET CLOTHING.-John Bowman was committed yesterday by Ald. Toland to answer the charge of the larceny of some wet shirts and sheets, which were found in his possession when he was arrested on Dillwyn street, below Buttonwood.

A Swindling Beogan.—An individual named Michael Hayes was arrested yesterday, at Front and Washington streets. He was begging, stating that he wanted money to bury a child, who, as is alleged, was falsely represented to

CARRLESSNESS.—This morning about eleven o'clock car No. 43, on the Second and Third Streets Railway, was driven down the hill on Third etreet, between Callowhill and Willow streets, at a very rapid rate. At the time a train of cool cars was being drawn up Willow street, and the passenger car was driven into one of the coal cars. Fortunately the only damage done was the breaking of the tongue of the former. The horses were not injured, although they made a very narrow escape. The passengers were considerably frightened, and several of them jumped out of the cars when they saw that a collision was inevitable. About two months ago, through

the same kind of carelessness, a horse was killed

at this place. Robbers Folled .- A man went into Mullin's iquor store at Nineteenth and Christian streets, yesterday, and after getting a drink asked to be shown into the yard. While there he unfastened the back gate. In the meantime another man entered. The latter was soon discovered in the entry, about to go up stairs. Upon being observed he ran into the yard, and escaped through the gate, dropping in his flight a lot of burglarious implements. The other man was secured. He gave his name as James Cummings. taken before Alderman Mink and was held in \$1,000 ball to answer at Court.

ROBBING A DRUNKEN MAN .- Jos. Brown was before Alderman Holme yesterday upon the charge of robbery. On Monday night, in company with a man named Betz, who was drunk, he ntered a tavern on Unity street, Frankford While there Betz went to sleep, and Brown took from his pocket a wallet containing \$90. When arrested yesterday he threw away a package containing \$10. Brown was committed in default of \$2,500 bail for trial.

ROBBERY AT FRANKFORD .- The dwelling of Joseph W. Graham, on Orthodox street, near Hedge, in Frankford, was entered by forcing open a back shutter, during the temporary absence of the family. Two silver watches and chains, and wearing apparel valued at \$150, were carried off by the burglars.

A DANGEROUS FELLOW .- A German named Marcus Oberg, residing in Manayunk, was arrested yesterday, upon the charge of assault and battery upon his wife. It is alleged that he attempted to stab her with a long sword, and also had two knives which he threatened to use upon her. He was committed by Alderman Ramsdell.

VIOLENT ASSAULT.—John Jacoby, aged sixteen years, and Henry Still, fifteen years of age, were arrested yesterday on Thirteenth street, above Poplar, upon the charge of having attacked and badly beaten a small negro girl who was passing along the street. Alderman Massey committed

ACCIDENT .- This morning about ten o'clock Philip Hess, residing at No. 1007 Belgrade street, had a leg broken by a load of lumber falling upon him at Mr. Lincoln's sash factory, Berks street, above Fourth. He was taden to the Pennsyl-FIRE.—The alarm of fire about noon to-day

was caused by the burning of a frame shed at No. 1214 South Twenty-seventh street. The fire was caused by children playing with matches. The Union Paper Collar Company.

NEW YORK, March 26.—The Union Paper Collar Company state that a despatch sent hence to-day gives an incorrect statement of the facts to-day gives an incorrect statement of the facts in regard to recent law suits, and say that in 1866 they granted licenses to twenty different parties to manufacture goods under their patent. Recently two of these licensees refused further payment of the royalty, and the Union Company, they focus brought and for recovery against the ment of the royalty, and the Onion Company, therefore, brought suit for recovery, against the Metropolitan Company, of New York, and obtained an injunction restraining them from manufacturing or selling paper collars until the prescribed royalty was paid. Subsequently the Metropolitan Company gave bonds in the sum of the transfer of the court, with any order of the court.

Metropolitan Company gave bonds in the sum of \$5,000, to comply with any order of the court, and were allowed to proceed.

The other delinquents, Goldsmith, Hoffman & Co., fearing that a similar suit would be brought against them, applied to the Superior Court of New York for an injunction restraining the Union Company from bringing an action against them. No notice was given to the defendants. No defence was therefore made, and hence the potition was allowed. This decision in no way on which are now pending in the United States

Dear Sir:--In regard to the question asked me as to my opinion about Buonu, I would say that I have used and sold the article in various forms for the past thirty years I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such inedicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgment, is warranted by the facts.

I have seen and used, as before stated, every form of BUOHU-the powdered leaves, the simple decoction, tine ture fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience ought. I think, to give me the right to judge of its merits, and without prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bledder and kidneys than I have ever seen cured with any other Buchu, or any other proprietory compound of whatever name. GEO. H. REYSER, M. D.,
