The Philadelphia Grain Elevator.—By invitation of Mr. John C. Foering, Superintendent of the Philadelphia Grain Elevator, at the foot of Washington street, that structure was visited by a large number of ladies and gentlemen yesterday afternoon to witness the operations. A general examination of the premises was made and every part of the building claimed attention. Several business men from New York and other cities were among the vicitors.

That our readers may see the vast extent of the Elevator, and what it is designed for, the following description is published:
