Passion WREE .- "Passion" or "Holy Week" commenced yesterday in the services of the Rocommenced yesterday in the services of the Roman Catholic and Episcopal churches, with the celebration of Palm Sunday. This week is intended especially to commemorate the most important epoch in our Saviour's life—His passion, death, and burial. In the Roman Catholic Churches, on "Holy Thursday," (we hosts are consecrated, one of which is placed in a repository, generally situated in some part of the church distant from the altar, and pious Gatholics spend the day in visiting the repositories of various churches, and offering up their prayers before the consecrated elements. These repositories are generally fitted up by the ladies of the congregations, and are adorned with diamonds, precious stones, flowers, lights, and everything that wealth can bestow on the occasion. In each church, also, is kept up what is known as the "perpetual adoration," the priests and acolytes relieving each other throughout the whole night, remaining on bended knees before the consecrated host. After the infoning of the Gloria in excessis on Holy Thursday, all instrumental music ceases in the choir, and the services thenceforth on this day, on Good Friday, and until after the Kyric Eleison has been pronounced by the celebrant of the mass on Holy Saturday (when the Gloria is again intoned), are carried on with vocal music alone. Good Friday is commemorative of the crucifixion, the special service of that day being the aderation of the cross by both priests and people—the former of whom prostrate themselves before the crucified image and remain for some minutes in man Catholic and Episcopal churches, with the mer of whom prostrate themselves before the crucified image and remain for some minutes in silent, adoration of the Great Redeemer whom it silent, adoration of the Great Redeemer whom it stypfies. No mass is celebrated on this day (the only one in the year on which it is omitted), but the officiating priest consumes the elements that were consecrated on Holy Thursday, and which have been in the repository until removed therefrom by him. Holy Saturday is commenorative of the entombnent of our Saviour, and Easter Sünday of his triumphant resurrection from the dead. On Good Friday the altar is stripped of all its adornments and looks bare and deadlate, the door of the tabernacle is left open, typifying the absence of the Holy Eucharist. No organ peals; no belt is rung; no joyous anthem ascends from choir or chancel—everywhere appear indices of a spirit of mourning and lamentation. But on Easter Sunday all is changed. Music, lights, flowers, everything that can indicate feelings of joy and a firm faith in the great miracle of the Resurrection is observable throughout the church. In the Episcopal churches special services are

In the Episcopal churches special services are held during this week, generally including the Holy Communion on Thursday night. The Easter services are peculiarly grand, the music on the occasion being always made a special feature of the religious exercises. With Holy Saturday the season of Lent is closed.

Henry Clemens died at the Pennsylvania Hospital this morning. He was admitted on the afternoon of the 3d inst. At the time he stated that on the previous night he was attacked on Walnut street, near Eighth. He was knocked down and stamped upon, and robbed of his watch. He was suffering greatly from internal injuries, but there were no external bruises visible. The post morten examination this morning showed that a blood-vessel in the abdomen had been ruptured, and death had resulted from the loss of blood caused thereby. The bursting of the blood vessel, the physicians say, might have been caused by a beating or

stamping.

Coroner Daniels was notified of the death

HEAVY STORE ROBBERY. -The store of E. Weyl, at the northeast corner of Eighth and Arch streets, was entered at an early hour yesterday morning through the door on Arch street, which was probably opened by means of false keys. Silks, velvets, ribbons, &c., valued at \$2,500, were carried off. The robbery must have been committed in a very short space of time. At \$6\frac{1}{2}\$ o'clock A. PARADE OF MILITARY CADETS.—The cadets from the Pennsylvania Military Academy at Chester, Delaware county (Col. Theo. Hvatt, Superintendent), came to the city this afternoon and made a parade through a number of our streets, accompanied by a fine band of music. The marching of the juvenile soldiers was excellent; and gave evidence of the therough instruction given by their teachers. In front of Indevindent Marchine III. pendence Hall the various movements incident to dress parade were gone through with, and the precision with which all the manœuvres were executed was the subject of much admiration from the spectators.

The Terrible Mine Accident.

The particulars of the fearful accident which occurred on Tuesday morning at the Delaware, Lackawanea and Western Railroad Company's Diamond Mines, Hyde Park, are published by the Diamond Mines, Hyde Park, are published by the Scranton Republican. The accident occurred at 7.05 o'clock in the morning, as the first 'carriage' load of miners was on the point of descending into the "F" shaft leading to the "E" and "F" veins. On the carriage, which weighs from 3,500 to 4,000 pounds, fifteen men and two boys had placed themselves. The signal was given to the engineer to put his machinery in motion to raise the carriage, which is generally

At this time the driving boss, Mr. Patrick ("Patsey") Barrett, said to a son of Mr. Rees T. Evans, the boss miner, "Get off, I want to go down this time." As he thus spoke, the boy jumped off, and Mr. Barrett removed the lever which throws back the "fans" and jumped on. As he did so, the carriage started with the rawhich throws oack the "hans" and jumped on. As he did so, the carriage started with the rapidity of lightning, falling to the bottom of the shaft—a distance of 185 feet. The broken link was picked up at the bottom . the shaft, and was found to be straightened comthe shaft, and was found to be straightened com-pletely, with the exception of a slight turn at each end. This straightening out showed the tenacity of the iron, as only a slight crack was made in it on the inside of the unbroken end. The other end shows the reason of breaking to have been the imperfect welding of the iron. The

link was made of three-quarter-inch iron, and that less than half way round the rod, was per-lectly welded. That portion is purely white, and sectly welded. That portion is purely white, and all the rest is blackened, showing that for some leason the weld did not take. When together, the surface evidently seemed perfectly joined at the lap. The wonder is that it held together so long while drawing up tone of weight every day. It is said by experts that sometimes welds do not take on account of unusually sulphurous coal being used in welding, and possibly it was the case with the weld in question. Bituminous coal is considered better for such operations.

One of the employes who stood by at the time of the accident, says that just after the carriage was raised, and as it was on the point of descending, he happened to look up and saw that the

Consequently, when the fans were thrown off, the link was probably suddenly jerked into an upright position, and the sudden jerk and strain caused the link to part at

# THE COURTS.

QUARTER SESSIONS—Judge Brewster.—The April term of this Court commenced this morning. Danlel E. Thompson, Esq., was appointed foreman of the Grand Jury.—Judge Brewster, in instructing the Jury as to their duties, said:

Gentlemen of the Grand Jury:—There is no case upon the calender which calls for any special instruction; but as it exhibits 145 commitments, and there are probably three times as many bail cases, we are admonsished, at the outset of our labors, of the necessity of strict attention to and an earnest despatch of the public business. the public business.

Where you are satisfied upon a statement of a

single witness that the case is proper for investi-

gation by a petit jury, you need not waste time by hearing more, but may at once return a true bill. Where all the witnesses fail to make out a case you will endorse the indictment "ignoranus;" and if it charge a misdemeanor you must decide whether the county or the prosecutor naming him—shall pay the costs. In all cases naming him—shall pay the costs. In all cases the return must be signed by your foreman. the return must be signed by your foreman. You can save the county a large expenditure, and parties and the petit jury a great consumption of valuable time, by ignoring petty cases in which the public have no interest and which have been sent to court to make costs.

at would hardly be believed that the criminal law is resorted to every day, in hundreds of cases, without justification. Yet this is literally true. Of these, less than one-tenth were convicted. It would seem, therefore, that of all the persons arrested only about one in every seventy-six is guilty, and that of all the bills of indictment subuffited to the Grand Jury only one in every ten result in a conviction. Whilst you cannot with safety reject bills for whilet you cannot with safety reject bins for harceny, forgery, arson, homicides and offences of a serious grade, you can on the other hand serve the public treasury by ignoring nine out of ten of the assaults and batteries and minor

Another subject demands your attention. We profess to be a civilized community, and to treat our criminals according to law. Unfortunately this is only profession. We practice that which is a disgrace to civilization and a violation of our statutes. Our Eastern Pentiontiary and County statutes. Our Eastern Penitentiary and County Prison are so overcrowded that the Inspectors hestate whether they shall violate the law by refusing or by receiving more prisoners. In the male convict department of the county prison, 425 convicts profess to be undergoing solitary confinement in 195 cells. By a report of the clerk of the Board, enclosed to me by Mr. James A. Freeman, one of the Inspectors, it appears that eighty-nine cells are each occupied by 2 convicts; 63 cells are each occupied by 3 convicts, and 3 cells are each occupied by 3 convicts. This condition of affairs is daily growing worse, and is a palpable, though unavoidable violation of the law requiring separate imprisonment. There is over-crowding in the other wards of that prison and in the Eastern Penitentiary.

At my request one of these cells was measured, and it is reported to me that it con-tains but 935 cubic feet. From this is of course to be deducted the space occupied by the bodies of prisoners and the beas and furniture of the cubis. The revisibility to result from the breakof prisoners and the octs and furnities of the cells. The cyils likely to result from the breaking out of a pestilence in such an establishment may easily be conjectured. A. R. TAKLOR'S GENERET.—There is a pleasing variety and popular character in the selections of this entertainment which will make it very acceptable to a unipority of amateury. Miss Soliday is regarded as having a natural tone of unmand quality, and sings with nuch expression and inteligence, and many now familiar with her singup, in sacred nucle, will be curious to hear her in operatic selections. Mr. Taylor is so well well-known that he needs no further mention. Miss Young and Mr. Graff make up this sine quartette, unequalled certainly in any of our churches. Mr. Wolfschn, the univent planist, contributes a couple of his own brilliant compositions. Mr. Stoll, our excellent young violinist, performs De Besiets beautiful Tremola, and Mr. Wood, the well-known blind organist at St. Stephen's Church, presides at the plane as accompanist. Many friends of Mr. Taylor are exerting themselves to make this a fitting testimonial to his necit.
