DEATH OF A CLERGYMAN. -On Taursday evening last the Rev. I. Newton Brown, D. D., a very prominent minister of the Gospel, of the Baptist persuasion, died at his late residence in German-town, after a short though severe illness. The deceased had been in poor health for a number of Dr. Brown was the author of a number years. Dr. Brown was the author of a future of religious works, which have been extensively read. He was particularly calebrated as the author of the "Encyclopedia of Religious Knowledge." He was for many years the editor of the publications of the American Baptist Publications Society, and compiled the Articles of Faith known as the "New Hampshire Articles." His funeral will take place on Monday afternoon.

LARGE TEMPERANCE MEETING .- A large meeting of the friends of temperance took place last ing of the friends of temperance took pince last evening at Rev. Dr. Shepperd's Church. Speeches were made by Hiram Ward. T. M. Coleman, Geo. Roberts, Rev. Dr. Shepperd and others. Those have been among the most successful meetings of the kind ever held in this city, a largo number of persons having signed the total abstinence pledge. To-morrow evening the next sermon of the series will be preached by Rev. T. De Witt Talmage, at his church, Seventh street above Brown. The attendance at these meetings is very large. attendance at these meetings is very large.

SOUTH BROAD STREET PROPERTY is already feeling the impulse given by the removal of the freight railroads. A general advance in values has begun. An offer of \$25 per foot for a lot 25 by 150 feet, corner of Broad and Washington, has been refused. The owners hold it at \$40, and if been refraced. The owners hold it at 20, and they wait may get more. A large lot near Broad and Wharton has been secured for a new and clegant Episcopal church, and we have already mentioned the purchase of ground at Broad and Reed streets for a fine Beptist church.

LAUNCH.—Another steam-propeller sure-yacht was launched from the works of A. . Archambault at Beach and Vienna streets,

this morning. The new craft is 38 feet long, nine feet beam and 40 inches depth of hold.

Three boats of a similar character—one 45 feet long, another 42 feet and the other 49 feet, are now in course of construction at the same estab-lishment and will shortly be launched.

LIBERAL BEQUEST .- Samuel Gorgas, formerly a broker, and recently deceased, bequeathed a lot of ground opposite his residence, in Roxborough, and \$50,000 for the erection and maintenance an asylum for indigent women. A further sum of \$60,000 was bequeathed to a relative, the interest to be used during lifetime, and then the principal is to go to the asylum mentioned

ENTRY THEFT .- Wm. Bell was arrested last evening by Policeman Dunlap, at Tenth and Spring Garden streets, on the charge of having stolen a coat from the entry of the house of Thomas Sanders, No. 609 North Twelfth street He had the coat on when he was captured. He was taken before Alderman Massey, and was committed to answer.

OFFICERS ELECTED. -At a recent meeting of the Philadelphia and Southern Mail Steamship Company, Mr. Stephen Flanagan was elected President and Mr. Charles S. Teal was elected Secretary.

SERIOUS FAIL. - This morning Susan Beesley accidentally fell down the cellar stairs at her residence, on Chestnut Place, at Thirty-sixth and Sansom streets. She had her nose and jaw broken, and both arms fractured.

CAUGHT IN THE ACT .- John caught in the act of stealing soap from the front of a store at Second and South streets, yesterday afternoon. He was committed by Alderman Tittermary.

A Sweet Thier .- James Shields was arrested yesterday for the larceny of sugar from a grocery store at Delaware avenue and Market street. He was taken before Alderman Hurley and was held

An Excellent Invention .- Persons who use spectacles often experience difficulty in getting them with the glasses set at exactly proper distances, so that the eye is directly covered by the focus. Mr. Edward Hunter, of No. 613 Jayne street, has patented an ingenious invention in which, by means of a small set screw, the space between the glasses can be diminished or contracted at pleasure. Those who have used spectacles constructed upon this patent enlogize it warmly. It will doubtless prove immensely popu-

A WORD OF CAUTION!-Call for Dr. Kennedy's "Permanent Cure for Catarrh," and see that his fac simile is upon the wrapper. Sold by all Druggists. It is the only remedy that gives entire relief. There are worthless imitations for sale. Get none but the genuine.

NEW JERSEY MATTERS.

A DEAD LOCK IN BURLINGTON COUNTY. - The annual meeting of the Board of Freeholders of Burlington county was convened at Mount Holly on Wednesday, and attracted a large concourse of spectators and others who are interested in importance in different parts of the county. The clerk, Mr. E. Hendrickson, called the meeting to order, when the following gentlemen answered to

Republicans—Thomas F. Keeler, of Northampton: Richard M. Hugg, Evesham; Thomas C. Andrews, Chester; Nathan E. Crispin, Lumberton; Abraham P. Stackhouse, Mediord; Alfred Satterthwaite, Chesterfield; Joseph B. Collins, Springfield; Jarvis H. Bartlett, Egg Harbor; Nathan Wright, Shamong; William Sooy, Washington; Benjamin D. Deacon, Westhampton—11. Democrats—Dr. J. M. Bean, of Newhanover; Theodore Budd, Southampton; William S. Herbert, Bordentown:Charles Wallace, Cinnamonson; William Carty, Mansfield; Joseph Wells, Willingborough; Joseph B. Crammer, Bass River; Abraham Perkins, Beverly; Stacy H. Scott, Burlington; Jonathan L. Lovy, Wocdland; Joshua Earl, Pemberton—11. Republicans-Thomas F. Keeler, of Northamp berton-11.:

About fifty attempts were made to organize, but the result in each instance was lost by a vote of 11 to 11. The more important and profitable position is

The more important and profitable position is that of Collector, and the post of honor is that of Director, who presides over the proceedings of the Board. The competitors for the latter position are Charles H. Bartlett, Republican, and Dr. Jas. M.Bean, Democrat, but just now it is not probable that either will ever occupy the chair. The most important business before the Board will be an appropriation to pay for a bridge over the Rancocas Creek, connecting Delanco and Riverside, which is imperatively demanded by the residents of those places, and the farmers and truckers owning property north of the creek and doing trade with Philadelphia. This improvement will cost about \$28,000, and will largely advance the value of all the properties along the Delaware front of the county, from Burlington to Camden. The Board, after many lively scenes, ad-The Board, after many lively scenes, adjourned until Thursday next.

English Residents in Ireland. The London Times says: "The English are adventurous enough. They will suddenly transport themselves and their families and live under eternal snows or eternal suns, in unknown collitudes, or among savages, robbers, or civilized beings still more hateful. But to Ireland they will not go. They will not buy land and settle there. They will hardly make a tour there. They there. They will hardly make a tour there. They will go a thousand miles for scenery by no means finer than that of the western and southern coast of Ireland. They will buy estates in England to pay one and a-half per cent., but not in freland to pay five or six per cent. Nor is it the bullet or the bludgeon, the tenant or the priest, they are most sixald of. It is a state of soclety without the bond of social confidence and national union that they recoil from." that they recoil from."

CITY NOTICES.

IMPROVEMENT IN COOKING-RANGES.—As the building season is at hand it may be well to call public attention to the fact that a vast number of dwellings, houses are now being erected in various parts of this city on what is called "trade work," in nearly all of which a certain style of cooking-range is introduced which neither reflects credit upon the structures nor gives satisfaction to tenants: in fact, most of them operate so badly that in a little while their removal, to make room for a better article, is found to be indispensable. The trouble, nunecessary expense and inconvenience that are entailed by this blunder in building ough; to be better understood and guarded against. On several occasions we have taken some pains to impress upon the minds of builders and others the policy of adepting the celebrated Gas Burning Cooking Range of Messrs. James Spear & Co., Nos. 116 and 118 Market street, as being the most certain to operate satisfactorily, in every instance, of any Range that has yet been invented. In fact, we are personally aware of quite a number of cases in which the inferior Ranges above referred to have been removed from comparatively new houses, and the Spear Range introduced instead, and in every instance the result has been so entirely satisfactory that occupants of the houses would not do without them for ten times their cost. What perfectfolly it is, therefore, to introduce a dualous Range in a new dwelling for the sake of saving a few dollars at most. We feel that we should be conferring a marked public benefit if, by anything we can say on this subject, we shall contribute to the wider use of this celebrated Range. Not a few intelligent housekeepers in this city, in selecting a house to live in, either to rent or putchase, make the Spear Range a sine qua non, and they are wise for doing so, as, on the score of cleanliness, economy, convenience; and efficiency, a house is well worth five hundred dollars more for being supplied with one of these invaluable Ranges.

In a visit to Messrs. Spear &

FRENCH CONFECTIONERY, Hot House Fruits. he most beautiful bon-bons and tempting confections and other delicacies at A. L. Vansant's, corner of Ninth and Chestnut streets. REMOVAL.

Kere's China Hail, 1218 Chestaut street.

AT A town in France a young man who was disappointed in love entered the wine cellar of his employer and knocked in the heads of fifty barrels of wine, under the impression that the contents would be sufficient to drown him. This would indicate to our mind anything but a state of low spirits. Perhaps if the had been in the habit of dressing himself after the manner of those who bny their clothing at Charles stokes & Co.'s, under the Continental, he would not have had to plunge thus into the intoxicating finid. Don't trifle with a bad Cough or Cold, when a

remedy as sure, prompt and thorough as Jayne's Ex-pectorant can be readily obtained. Sold everywhere. THE great ceremony next month of the A. Y. M. will necessitate a new Hat. Go to Oakford's, under the Continental Hotel. Order it now.

Confections And Politics.—A number of United States Senators have succumbed to bad weather during the week, and they were scarcely able to make their appearance in the Chamber during the important session of to-day. Had these gentlemen availed themselves of the fine confections of E. G. Whitman & Co., No.318 Chestnut street, below Fourth, bey would scarcely have been in this predicament. The medicated confections sold by the firm named would have staved off coughs and colds, and their cream fruits, roasted Jordan almonds, fine bon-bons, chocolate preparations, fresh-every-day-and-many-flavored caramels, &c. &c., would have secured good humor and an equable temper. To keep things in the even tenor of heir way, it is only necessary to use the tine and elegant confections of E. G. Whitman & Co. Confections And Politics.-A number of

FINE BOOTS AND SHOES.—The handsomest boots and shoes introduced this season are unquestionably those made by Bartlett. Of course, this is no news to his patrons, but may prove a valuable piece of intelli-gence to the strangers sojourning at our hotels. For their benealt we state that Bartlett's store is at No. 33

South Sixth street, above Chestunt. MESSRS. WOOD & CARY, No. 725 Chestnut etreet, have just received a splendid assortment of ENGLISH WALKING HATS, In Drab, Brown, White, etc., at very low prices,

MYDICINAL.

THE GETTYSBURG

AND ITS

WONDERFUL CURES!

The remarkable facts connected with the discovery and history of the GETTYSBURG KATALYSINE SPRING have rapidly spread all over the country, and invalids are everywhere using the water as a remedy for Rheums-tism, Gont, Gravel, Dyspepsia, Kidney, Urinary, Bron-chial, and other diseases, including Debility and prestraion of the vital powers, caused by mental and physical

The proprietors have new the pleasure to announce that they have completed arrangements for supplying the GETTYSBURG KATALYSINE WATER in such quan, tities as will probably meet the increasing demand.

Anything like a detailed statement of the singular curative powers of the Water, as demonstrated by letters con-stantly being received from the most reliable sources and unquestionable authority, cannot be given within any reasonable space in the columns of a newspaper, and we therefore add only a few of the statements received, to prove conclusively that we make no claims beyond what can be fully substantiated by well-atteated facts as given by invalids themselves and Physicians who have used the GETTYSBURG WATER.

The Cures of the Gettysburg Water. The variety and extent of the curative virtues of the GETTYSBURG KATALYSINE WATER will appear from the statements and reports of physicians and inva lids embraced in the Circular of the Company, which will

ids embraced in the Circular of the Company, which will be sent free of charge on application by mail or to any druggist's stores. Some idea of these curative and reatorative virtues may be formed from the following statements and reports which we quote from this document:

A distinguished American physician, whose attention has been directed to the extraordinary curative phenomens presented by the Cettysburg Water, is John Bell, M. D. of Philadelphia.

This gentleman is the author of a "Treatise on Raths, and an account of the Mineral and Thermal Springs in the United States and Canada," and is regarded as one of the highest authorities on these subjects by his medical brethren. He says: "Home experience has anticipated the conclusions diawn from chemistry, and by analogy, from the effects of the waters of other, springs. It tells us that the Gettysburg water has produced signally curative and restorative effects in different forms of dyspopsia—sickness of stomach, heartburn, water brash, acute neuralgic pains, and loss of appetite—and also in chronic diarrhea and torpid state of the liver. Gout, chronic rheumatiem, and resulting nodosities of the joints, have been overcome to a remarkable extent by the drinking of this water. Approaching and actual paralysis have been carried off by the same means. In one case diabetes, that often unmanageable disease, was arrested in its progress.

Diabetes, Blinaness, Etc. "I reside in Chaplin, Windham county, Conn.; am 40 years old. Eighteen months ago my physical and mental energies began to fail, my appetite and thirst became ravenous, and, in fine, I was attacked by a severe turn of diabetes, which reduced me 40 pounds in two weeks, and so prost ated me that I was scarcely able to move myself in bed.

so prost: ated me that I was scarcely able to move myself in bed.

"I commenced with three gills of this water per day, taking a gill at a time. It at first increased the urination, and tended to aggravate the symptoms, but soon after I began to rapidly reco. er. The deadly palior of my face gradually gave place to the hue of health, and I began to regain my substance and to increase in weight. At the present time I am able to move about and feel the strongest confidence in my ultituate complete recovery. I omitted to state that I had nearly lost my sight, and could hardly distinguish members of my own tamily across the room. Can now read without glasses, and experience no cifficulty whatever in this respect. My howels, that were constipated and bloated previous to using the Water, are now natural and regular in their action.

"CHARLES MOULTON."

vious to using the water, are now natural star regular, in their action.

VERIFIED BY HIS PHYSIGIAN,

The above statement of Mr. Charles Moulton, with regare to the effect of the Gettysburg Water upon him, I believe to be in accordance with the racets, and also his statement in regard to his condition and symptoms statement in regard to his condition and symptoms.

Rheumatism.

ET. MARY'S CHURCH, CHESTNUT HILL, Philadelphia, Dec. 4, 1867. GENTLEMEN:—I beg leave to offer my testimony regarding the water of Cettysburg Spring. After a fair trial, I have the gratification to declare that my experience corgarding the water of declare that my experience corresponds with all that has been asserted about the medicinal virtue of the water. I have suffered from chronic rheumatism for sixteen years, and during that period I have been on four occasions confined to bed for five months with acute inflaminatios. The last attack commenced on the 8th of December, 1986, and I believe that, in repeated fits of the acute form, I have had the greatest pain produced by this terrible malady. I was so crippled n overy joint that I could not leave my room during eight months, and I expected to be in this condition for the remainder of my life. Since I commence dithe regular use of the water, in proper doses of a gill three times a day, I have been gradually and surely relieved, until, at the present date, the rheumatic p, incliple is entirely removed. This is the first testimonial of the kind I have ever written, and I now send it to you through a feeling of day to the community. I have delayed for a long time in order to avoid the slightest risk of hastiness or delusion. Most earnestly I would recommend this charming remedy to all persons affected by any of the aliments to which it is applicable.

Pyenpepsia.

Dyspepsia.

A single cure of Dyspepsis with this water, referred to by Dr. Bell, with the accompanying remarks of this dis-tinguished medical writer upon its extraordinary power on this hydra of disease, will suffice. It is that of Mrs. Tawney, of Adams county, Pa. Mrs. Tawney says:

"I have been afflicted with a stomach disease or dyspersia in one of its most terrible forms for some twenty years. I tried medicines and the prescriptions of various skillful physicians as long as I could retain medicine on my somach. But during the last ten years I could not take medicines at all. I could not drink coffee or tea or other fluid, or even common water, without vomiting, and could barely take sufficient food to sustain life. I was gradually reduced almost to a skeleton; was so weak most or the time that I could not even sit upon a chair; was frequently racked with pains and harraesed with gloomy torebodings, apprehensions and depression of spirite; was, in short, one of the most miserable beings that ever lived. This was my condition when I commence the use of Gettyburg water, which was the, only thing that would lie on my stomach. I have used it for some months, and an completely recovered from my long afflictions. It has proved to me a veritable water of lite." on this hydra of disease, will suffice. It is that of Mrs.

Gravel, Strangury, Impotence.

Dr. Thomas Shearer, of Baltimore, an intelligent Homeso pathic physician, has extensively introduced this water pathic physician, has extensively introduced this water in his practice, and effected with it quite a number of remarkable cures. Dr. Bhearer says:

"A genteman consulted me who stated that for nearly twenty years he had been suffering from disease of the kidneys, or bladder, or both. His symptoms were as follows: Almost slways an aching, and sometimes an acute pain across the back, in the region of the kidneys; esensations as if the back was half sawed through: pain in the back, aggravated by standing or lying too long in bed; urine at times containing copious phosphate deposits; at other times, and for some weeke continuously, the urine appeared normal in color, quantity, and specific gravity, kepeated daily tast showed that the urine had a decidedly acid reaction, and an examination by the catheter revealed great tendences of the membranous pertion of the urethra, cularged prostrate, and extreme irribability of the neck of the bladder. Not much inconvonience was experienced in passing water during the morning, but in the afternoon the patient suffered from symptoms of strangury, lasting from three to four hours, and only mitigated by remaining perfectly quitet.

"The patient, after six weeks use of the water (taken

from three to four hours, and only intigated by remaining pentectly quiet.

"The patient, after six weeks" use of the water (taken before breaktast, dinner, and on retiring, eight ounces each time), jett like a new man. Unpleasant symptoms gradually disappered but, lest the effects might prove only pa flative, I directed it to be discontinued for a week, then resumed for four weeks, for two morths emerge, and up to the present time my patient remains entirely well. In this case the water acted as a mild durette at times, although this result was by no means uniform; and while on the bowels no aperient action was produced, the constipation yielded very soon, and the bowels are now healthy and regular."

CAUTION.

As it is easy to foresee that as soon as the GETTYS.
BURG WATER is introduced generally juto the market, there will be counterfeits and other worthless fluids un-der the same or a similar name palmed off on the public, it is proper to state that the genuine Water is put up only in quart bottles. Bereafter, for the further security of those who as this Water, the proprietors have adopted and secured the title of GETTYSBURG KATALYSINE WATER, and in future all gonuine Water from the Gettysburg Spring will have the full title as above branded on the cocks and blown in the lottles.
