It is alleged that testimony will voluntarily be offered to the committee before they close to show that a large fund was raised by what are called "fraud whisky" men for the purpose of distributing the money among members of the House, and to prevent any reduction of the whisky tax.

THE ARKANSAS BILL.

The committee of conference on the Arkansas aday's illness from childhood up.

One piece of the skull had been broken out The committee of conference on the Arkansas bill had a long session this morning. It consists of Senators Trumbull, Wilson and Brooks. There was some disagreement, but finally the managers comprised by accepting the House bill, which makes the Arkansas Constitution unchangeable as to the right of suffrage. They added a provise that any alteration of said Constitution prospective in its effects may be made. With regard to the time and place of residence of voters, this also is to be fixed as unchangeable in this Constitution. The report will be made to the House on Monday or Tuesday, and it will doubtless be adopted. There is a disposition to take from the Constitution of Georgia all the provisions which forbid the payment of the Arkansas bill as amended by the Committee on Conference, and whose report the Senate has adopted. The House has not acted definitely on the report:

Whereas, The people of Arkansas, in pursuance of the provisions of an act entitled "An act for the more efficient government of the rebel States," passed March 2, 1867, and the acts supplementary thereto, have framed and adopted a constitution of State government, which is re

The subsequent history of the case is interesting. Gage came back to Cavendish in April, in fair health and strength, having his Thirty ninth Congress, and known as article 14, therefore,

Be it enacted, gc., That the State of Arkansas is entitled and admitted to representation in Congress as one of the States of the Union, upon the following fundamental condition: that the Constitution of Arkansas shall never be so amended or changed as to deprive any citizen or class of citizens of the United States of their right to vote who are entitled to vote by the Constitution beard recognized, except as a punishment; or such crimes as are now felonies at common law, whereof they shall have been at common law, whereof they shall have been duly convicted under laws equally applicable to all the inhabitants of said State; provided that any alteration of said Constitution, prospective in its effect, may be made in regard to the time or place of residence of voters.

The Quartermaster-General has just published the record of the names of a portion of the Union soldiers who died in prison throughout the States lately in rebellion, being "roll of honor, No. 14."

This record contains the names of about trades Intely in rebeilion, being "roll of honor, No. 14."

This record contains the names of about twelve thousand Union prisoners, or all which the Quartermaster-General has been able to obtain, excepting the three thousand names of prisoners who died at Andersonville, Georgia, which have already been published, and such other names as have been heretofore published in other rolls of honor. It is presumed that not more than half of the remains of these soldiers have as yet been identified. From the prisones at the South no rolls have.

Here he lived eight years, occasionally driving a six-horse coach, and enduring many hardships. In 1850 his health began to fail. In 1860 he had a long illness, the nature of which cannot now be ascertained.

MINES AND MINIO.

The Committee on Mines and Mining recently made a report on the memorial of the Nevada Legislature, asking aid in the construction of the Sutro tunnel, accompanied by a bill. They say the total cost of the tannel cannot be accurately given, but from an examination of the cost of numerous tunnels constructed in the United States, England, France and Germany, it appears probable that its cost will be about \$8,000,000. M. Y., was overrun with applications for admission from women, and from clergymen, and professional men generally. It he issue of bonds to the amount of \$5,000,000 by the Government during the progress of the term was true one could have little hope for American society. We doubted its accuracy, and having seen the statement of the precise construction of this important work. To secure the payment of these bonds a mortage should be made by the government on the tunnel and everything approaching thereto, and the total revenue, after its completion to the Commotok lode set apart for their redemption. It is probable that none of these bonds ance be paid by the government of these bonds ance be paid by the government of the construction of the Englanton Asylum, for information. He has replied as follows:

BINGHANTON, N. Y., May 28.—To the Editor of the Cinccinnati Gazette: The report of the temperance lecturer who stated that the work may be completed in four years, that the revenue of the tunnel company will suffice to take up the entire amount is seen that the work may be completed. CITY ORDINANCES. BAN FRANCISCO, June 6.—A special despatch to the Bulletin, from Victoria, V. I., unnounces the arrival of the United States steamer Jamestown, from Sitka, on May 30. The weather at Sitka was charming. The Indians had brought in a report that white men were collecting gold by the handful, at the Youcon River, and the reports were generally accredited. Parties are about to start for the diggings, which are situated on the main land:
