rescue of Senator Fessenden, and sixty of them, "all Republicans of the first water," are so lost in admiration of his abandonment of his party and his repudiation of his Senaeach of the seven city offices to be filled in the serious troubles that have ever beset the torial record, that they beg the honor of dining with him. What a pity it will be, for that one office. The advantage of the capital. Calhoun would never have dared to virtue" declines the invitation. H if Fessenden, with his "Roman plan is a double one. It prevents all trade preach nullification and political heresy in a threatens to let them off with a letter, but among the delegates upon different parts of national capital located upon the banks of the that will be a very poor satisfaction to Bo3the ticket, except so far as it can be done at the primary elections, and it separates a contest over any particular office from the action son has emulated and improved upon. but tor test over any particular office from the action son has emulated and improved upon, but for he condescended to honor them, a year ago, legently legently and axes, and year ago, legently legently are legently and legently are legently and legently are l of nominating the rest of the ticket, so that the countenance and support of a slave neigh with his august presence, they wish to worwhile, in such extreme cases as that of the hood; Davis, Breckinridge, Toombs and the ship Fessenden in person, and; regardless of SHAW, No. 835 (Eight Thirty-five) Market in Ninth. District Attorneyship, one convention may rest of them would have hesitated his dyspepsia, to feed him with delicate his dyspepsia, to feed him with delicate viands, in honor of his apostacy. A letter is a poor substitute. If he will eat their dinner, so (Eight Thirty-live) Market St., below Ninth.

the nomination of two candidates, the rest in a pure atmosphere of noodal, of the ticket is amicably and unanimously adopted, and instead of having the whole adopted, and instead of having the whole slavery was afar off: there would have been additionally be a poor substitute. If ne will eat their diffuser, then can these Roman patriots of Bunker then can the can nominating power discontented and divided, slavery was afar off; there would have been and Van Winkle to grace their board. Possibly, Mr. Chase himself might adorn the ovation, and under the genial inflaences of postprandial libations, the country might ry, and thus enable the rebels to lay claim to The disadvantages developed by the late repeat recognition on the ground of being which even the keen researches of Butler and Logan have failed to uncover. We hope

probably all been canvassed in the revising convention; but as that body was constituted on the old basis of precinct representation, it was scarcely to be as, and not least important of all, there are presentation, it was scarcely to be as, and not least important of all, there are presented in the revising been no assassination of Adrauan Diugoni in a coupling in all sizes.

Mr. Fessenden will accept the dinner. It is such exhibitions of crawling sycophancy that arouse the honest disgust of all earnest men. For family use, for presents and for tourists, and Boston has a peculiarly happy faculty for No. 1210 Market street. House stood anywhere upon genuine free soil. atry, we are glad to know, which has gone very much out of vogue among the masses of the American people. It is stated that Miss Vinnie Ream, nothing

There is an excellent remedy for this, and there should be a way made for its application. If each precinct, instead of voting one, should vote the aggregate Republican force of the precinct, as shown by the official return of the preceding Governor's election, we should have a fair expression in the nominating conventions of the will of the whole party. Such a reform as this is absolutely needed to correct the manifest impropriety of the present system.

There is an excellent remedy for this, and there should be a way made for its application. If each precinct, as shown by the official return of the precinct, as shown by the Office and the General Post Office of Abraham Lincoln, represent it as a monstrosity that made the confinement of Woolley in the same room with it an act of positive cruelty. The means by which a buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to Washington from membered that the materials for these very buildings were brought to washington from membered that the materials for these very buildings were brought to

Rectal Despatch to the Philadelphia Evening Bulletin.]

New York, June 15.—An immense meeting for the reunion of the Presbyterian Churches was held last evening in the Rev. Dr. Hall's Church. Numbers went away, unable to gain entrance. Addresses were delivered by Rev. Drs. Adams, Shedd, Prime, Hall; H. B. Smith and Sutphin, and Robert C arter and Geo. H. Stuart, Esqs. The devotional exercises were conducted by Doctors Skinner, Hatfield and Crosby. Intense but suppressed feeling was manifested when Doctor Hall introduced Mr. George H. Stuart, and Dr. Adams, on behalf of the audience, extended him the right hand of fellowship. Mr. Stuart addressed the vast audience ship. Mr. Stuart addressed the vast audience

From Fortress Monroe. FORTRESS MONROE, June 13.—The boller in ta-steam saw mill of N. & J. Neely, situated on the Blackwater river near Franklin depot, 8. and R. Rallroad, exploded yesterday morning at eight o'clock, with terrific violence, killing W. W. Thomas Kirby, the engineer, and several negroes who were employed about the mill.

It appears that last Thursday morning one of the boilers was discovered to be leaking, and the stop valve between them was put off so as to confine all the steam in one boiler white the de-fective one was being repaired. Yesterday morning the fires were kindled under each furmorning the fires were kindled under each furnace as usual, but the stop valve between them was not opened. A chort time before the explosion the steam guage on the boiler which had the day before been repaired indicated 75 pounds pressure, while that of the other one was much greater. Mr. Kirby, in order to equalize it, got upon the boiler, and was about turning the valve when the explosion took place. It carried him up nearly a hundred feet, and when he came down its was found to be feet, and when he came down its was feet feet feet feeling, and and obspection to make a tage amount of capital at t feet, and when he came down he was found to be dead and his body in a very mangled condition.

Mr. Kirby was a sober and industrious young man, and had only been married about a year.

He was a sober and industrious young man, and had only been married about a year.

Mr. Kirby was a sober and industrious young man, and had only been married about a year.

His remains were brought to Portsmouth and turned over to his grief-stricken wife for burial. lis remains were brought to Portsmouth and irrued over to his grief-stricken wife for burial.

James Ricks, a negro fireman, who was near Railroad preferred, at 2878@27; Lehigh Valley Railroad preferred, at 2878@27; Lehigh Valley Railroad preferred and Amber Tailroad Valley Catawistan Railroad preferred at 2878@27; Lehigh Valley Railr the engine at the time of the explosion, was also instantly killed. William Scott, a negro wood instantly killed. William Scott, a negro wood instantly killed. William Scott, a negro wood in the sall read at 188; North Pennaylvania Railroad white sawyer, was badly scalded about the body laborer, had his shoulder-blade by a falling timber. George lackey, pegro, wounded in the side

by a falling timber, Abram Barrett, negro, wounded in the head by a bolt from ene of the boilers. There was a blackemith shap about 50 yards distant from the mill, in which were two colored men at work, named Drewry and Delk. The former was knocked down by a piece of brick striking him in the head, while the latter was knocked senseless by a piece of falling timber. he mill employs some twenty-eight men, allbut fortunately they were mostly absent at the time of the explosion, or the loss of life would have been very heavy. The north side of the mill was entirely blown to pleces, and the place strewn with debris for a considerable distance; the house of Mr. Neily, situated a hundred and fifty yards distant, was struck by falling fragments and the windows broken by the ex-The machinery of the mill formerly belonged to the Thomaston Lumbering Company, and was quite new, while it is said the boilers were capa-ble of bearing 150 pounds of steam. The explo-sion was no doubt caused by an overpressure of

---quite new, while it is said the boilers were capable of bearing 150 pounds of steam. The explosion was no doubt caused by an overpressure of steam on account of the stop-valve, which communicated from one to the other, being closed.

The wounded men have been well taken care of by Drs. Massenbury, Goodman and Bryant, and were at last accounts all doing well.

The coast survey steamer Bibb, now at Norfolk, will proceed to Cape Hatteras in a few days, for the purpose of making a more complete survey of that dangerous locality.

From Washington.

W

WASHINGTON, June 15.—It is not true, as asserted, that Senator Dbolittle was at the Chase meeting at Philadelphia, or took any part in its proceedings. The Democratic and conservative members of Congress have made him chairman of their Executive Committee, and he has not felt himself at liberty to take active measures, in advance of the convention in relating to the Death by Lightning. Detreoir, June 15.—During a severe storm at Grand Haven yesterday, the house of Alexander Van Zomwick was struck by lightning, and Mr. Von Zomwick and a boy named Balgouin were in-

stantly killed.

W. V. L. The New York Money Market The New York Money Market.

Brom the New York Herald of To-day. 1

June 14th.—The market for United States stocks was dull during the greater part of last week, and on Friday it was drooping until after two o'clock, when as active demand set in, under which prices recovered about 4. per cent., and this improvement was followed yesterday by a further advance of 160% per cent., the greatest activity and buoyanov having been in the five twenties of 1855 and 1867. The former are held abroad largely, and are relatively about two per cent. cheaper than the bonds of 1865 have three years longer to run takes them really more valuable than the others, and will ultimately cause them to command a better price. The reason why the bonds of 1883 are higher at preent to be found in the very large amount of these already held abroad, where they are consequently better two helds. will ultimately cause them to command a better price. The reason why the bonds of 1883 are higher at present it to be found in the very large amount of these already held abroad, where they are consequently better known than the later issues. These, however, have been almost entirely absorbed by the foreign demand, which will in future bave to be supplied mainly by prurchases of the bonds of 1884, 1885, and 1887. The recent dull ness was in part a natural lull after the previous extreme nativity and buoyancy, but the slight decline which took place in prices was caused by the efforts of dealers who had sold out their stocksto depress the market artificially for the purpose of buying without putting prices up on themselves. In this way a considerable "short" interest was created and it has not yet been entirely covered. The real strength of the market was tested during this period of inactivity, and condidence in a higher range of prices has been materially strengthened in consequence of this test haying been applied. On the lat of July about forty millions in coin will become payable by the Tressury to the bondhoides, nearly thirty millions being for interest on the public debt and the remainder in redemption of the principal of the bonds of 1867 and 1868. This cannot fail to create a very active demand for investment, and the simultaneous disbursement of about thirty millions more in currency throughout the country, in payment of interest and dividends by banks, raliway, insurance, trust and other companies will doubtless operate largely in the same direction. What will tend most, however, to advance the price of United States stocks permanently, to a much ligher point than the syclagions by the funding of the whole of the interest bearing floating of all the sold loans by the funding of the whole of the interest bearing floating of all the sold loans by the funding of the whole of the interest bearing floating of all the sold loans by the funding of the whole of the interest bearing floating of all the sold l nessed. That they are relatively far chesper than any other stocks in the country is obvious upon comparison, and that they must gradually sesume a different position in relation to them is equally clear. The public credit has at no time since the sus pension of specie payment stood so high as it does at the present time, and the resolutions adopted by the Chicago Convention with regard to the national debts, together with the action of the Senate on impeachment, has exerted a reassuring effect both at home and abroad, and the foreign demand for our bonds has been quickemed it consequence; and with the gat of money which prevail all over Europe, it will be strange if the demand does no toen assume increased proportions.

[From the New York World of to-day.]

JUNE 12.—The feature of the week was the plethora of the country, that forms were made to-day at one per only per ontion. The Government bond market because the country, that forms were made to-day at one per only per ontion. The Government bond market because the country we have and the bear manipulations of some leading firm who want to buy as low as possible. Prices advance from 2 to 2 per cent showe the lowest point of years day, which was in fact the lowest of the reaction. The demand is running chiefly on the 1867s, which was in fact the lowest of the reaction. The demand is trong at 133% to 1184s, and will no round lots offering at the quantions. There is a criderable short interest in the 1867s for conversion. I demand of the day was chiefly from banks and capitalis we find it impossible to employ their funds in loans, or at the low rates current. The leading Government the low rates current.

crists in London, when they were about the same amount

The foreign exchange market is quiet as usual after the radiing of the packet. Rates are steady on the basis of 110% to 11% for prime bankers sixty-day stering bills, and 11% to 110% for sight. The light exports of produce, 22.546.570 in currency, for the week, equal to about \$1,\$ to 100% for sight. The light exports of produce, 22.546.570 in currency, for the week, equal to about \$1,\$ to 100% for sight merchandise imports of nearly three times the amount, \$2,012.05 in gold, and in view of the July, dividends to be remitted for, are good reasons for rates of exchange being full up to the point which will cover shipments of specie.

The strength of the gold market to-day begins to show the first awakenings of operators to fits true condition. The price has been kept down during the month by heavy short sales in anticipation of lower prices consequent on the Government disbursements on July 1, but the analysis of the uses and destination of these di-bursements is not favorable to lower prices. The market opened and closed firm at 140 at 3 P. M. The rates paid for borrowing were 1-32, 1-64, and 6, 5, 7 and 3 per cent. For annum. After the board adjourned the quotation was 10. recent salaries
