A GOOD REFRIGERATOR .- In the season of the year which is fast approaching, one of the most essential requisites in the domestic economy of every well-regulated house is a good Refrigerator, in which fresh provisions can be kept not only cold but dry. In the quality of dryness many Refrigerators are so defective that the moisture of the air contained within them is condensed upon the lower part of the ice-box, and drops down upon the contents, thereby hastening their decay faster than if they were placed in the open air. One of the best Refrigerators, if not the very best in the market, is that known as the "Zero Refrigeraror," manufactured by ALEX. M. LESLEY, 605 Sixth Avenue, New. York, which received the highest award of the American Institute-a medal and diploma-in 1867, and the first premium at the Louisiana State Fair in 1866.

Mr. Lesley also manufactures the "Zero Milk, Wine and Water Cooler," in the shape of a small Portable Refrigerator, which can also be used for Fruit and Butter, and which may be kept in the dining-room, or in a sick chamber, and easily carried from one room to another, wherever required in hot weather.

The Late Hole-in-the-Day. An exchange says of the famous Indian chief-

men in Minnesota, his property being estimated
at about \$2,000,000. His duties as Chief frequently called him to Washington, and upon one

To make a long story short, a gay wedding was the result, and when he returned to his Minnesota home, she went with him as his bride. They took up their residence at Crow Wing, where they have since lived in fine rural style, surrounded by all the comforts and luxuries which money could procure.

TEW JERSEY MATTERS.

THE STATE CONVENTION .- On Thursday next THE STATE CONVENTION.—On Thursday next the Republican State Convention assembles at Trenton, for the purpose of nominating a candidate for Governor of the State. In addition to this, a Grant and Colfax Electoral ticket is to be chosen. The proceedings of this Convention will be looked to with considerable interest, for nonnite action depends to a very content of the content of t will be looked to with considerable interest, for upon its action depends, to a very great extent, the success of the party. The selection of a strong and popular candidate for Governor will be the object sought, and it is highly necessary that every thing possible should be done to concentrate the elements of Republican strength. From appearances it is evident that the choice lies between Cornelius Walsh and I. P. Blair, with a strong preponderance in favor of Mr. Walsh. It is thought that Mr. Walsh will unite and carry with him a more powerful element of success than any of the gentlemen named in connection with the office. Particularly is this urged because the choice of a candidate rightfully belongs to the First Congressional District, and the Republican party of said district prefer Mr. Walsh to a candidate from among themselves. But, whoever

the candidate may be, he should be chosen with a view to success. The interests involved in the pending election are of great importance, and should elleit the united and hearty co-operation of every agency favorable to Republican principles. A brilliant and glorious victory awaits the party in New Jersey, if the members are true to themselves, and exhibit a determination to work vigorously in the cause. It is to be hoped that no time will be lost in properly organizing for the campaign, and then press forward to victory.
