Kean, Sugar Tit Hose; James A. Kelly, Humpty Dumpty Hose, and Pat. J. Nolen, Screw Guzzle Hose, will be special aids.

Supposed Burglar Captured.—Last evening, arrangements have been made for a reception. A

SUPPOSED BURGLAR CAPTURED .- Last evening, about eight o'clock, a man was observed in the house of Mr. Joseph Conrow, No. 1516 Green street. As the family of Mr. Conrow is absent from the city, the matter looked suspicious, and Policeman Hickley, of the Ninth District, was notified. He went in and searched the house. In the meantime a young man slipped out of a side alley and was captured by one of the neighbors who was on guard. It was found that the house had been ransacked and several fine lace curtains had been packed up ready for removal. The prisoner gave his name as John Foster. He had on his finger a ring containing a small pair of scissors, which are used to cut out pockets. House will have a hearing at the Central Station Foster will have a hearing at the Central Station

CHICKEN THIEVES .- Early yesterday morning Policeman Denton, of the Sixteenth District, ob served two men walking on the Pennsylvania Railroad, and carrying three bags. One was captured and handed over to a private watchman, while Denton went after the other. He was unsuccessful in his chase, and when he returned, he found the other man had escaped. The three bags were found. They contained live chickens, which are at the Sixteenth District Police Station, overling an owner.

DISORDERLY HOUSE.-A negro woman named Caroline Place was before Alderman Carpenter this morning upon the charge of keeping a disorderly house at Seventh and Bay streets. She was held in \$1,000 bail to answer at Court. David McBirney, white, and Margaret Thomas and Annie Anderson, colored, who were found in the house, were held to bail to keep the peace.

DEATH FROM THE HEAT .- Michael Brady, who was overcome by the heat, while at work in the day at the Pennsylvania Hospital. He was in the 24th year of his age and resided at No. 721 South Eleventh street. stable of Henry Bickley, ice-dealer, died yester-

IDENTIFIED. - One of the shawls which was in a bundle dropped by two men in Clinton street, near Eleventh street, early yesterday morning. has been identified as the property of Mrs. Steel, whose house; No. 300 South Eleventh street, was broken into on Monday night.

RETURNED.—The Young Men's Keystone Club returned from New York last evening, and was received by some of the Democratic organizations of the city. The Y. M. K. C. did not have as full ranks or present as neat an appearance as at the time of departure. THE GERMAN THEATRE.—By reference to the

advertisement in another column, it will be seen that an election for directors of the German Theatre will be held at the Hall, on Seventh street below Market, to-morrow evening at eight ACCIDENT.-A horse attached to a store wagon

took fright, at Thirty-ninth and Market streetsyesterday, and ran off. Jas. Ring, the driver-fell out and had a leg fractured. He was taken to the Pennsylvania Hospital.

Undergoing Repairs.—The Fourth Baptist Church is now undergoing extensive repairs. The whole interior will be altered and handsomely frescoed. The church will be reopened in September next.

FIRE.—The alarm of fire about one o'clock this morning was caused by the slight burning of the smoke house of Messrs. Butcher & Son, Nos. 146 and 148 North Front street.

F HEAT AND VENTILATION .- These are the two most essential points to be looked after in the erection and fitting up of public and private edifices. The art of heating and ventilating buildings has in fact become a science, and the chief masters of it in this city are the popular firm of Messrs. James P. Wood & Co., No. 41 South Fourth street. Gold's Latest Improved Patent Low Steam and Hot Water Apparatus which is sold by them, for warming and ventilating private and public buildings, is rapidly growing in popular favor, as is also their approved cooking apparatus, the American Kitch ener, for hotels, public institutions, and the better class of private residences. We invite all who are interested in domestic comfort and economy to give this firm a call. See their advertisement in another column.

SURPRISE.—Capt. J. Cone, of the steamer John A. Warner, was most agreeably surprised upon returning to his home, i. Bristol, Fa., on Friday evening of last week, to find that some kind friends had been there before him and left a handsome silver service. This unempected testimonial was presented by the citizens of Riverton New Jersey, as a token of their regard and appreciation of his many estimable qualities, his politeness, attention and superior management in the position which he occupies, and for which he is so eminently fitted.

One Year of the New Dominion. One year of the new Dominion.

[From the Montreal Witness, of July 8.]

Our Dominion is now a year old. How does it work? In Canada we have appointed for it a day of rejoicing. But has our rejoicing been the bounding pulse of national life, or simply the comfort of being off work on a hot day? Every one can rew judge for himself whether the feelings draws forth by such an occasion are closely akin or now to those manifested by our neigh one can n w judge for himself whether the feellings draw forth by such an occasion are closely
akin or not to those manifested by our neighbors on the 4th this month, or by ourselves
on the Queen's birthday. Young Canada, at
least, should feel th's consciousness of national life, if there were anything to draw
it forth; but wanting this, the sentiment seems
to be but shallow. Most people seem, to look
upon it as a matter chiefly inveresting to the political schemers with whom it originated. Very
different is the state of affalia I cova Scotia.
There they grind their teeth invor interly whenever the word confederation is mentioned. The
state of feeling is described by well informed
people there as being too deep for utterance,
and, as it takes the form of a wide-epic d and
deep-seated movement toward annexation, it is
not to be wondered that public expressions
should be much more guarded than private ones.
That a storm is brewing there seems very
likely to be an established fact before
next Dominion Day. The desire of Great
Britain to preservelthe loyalty of her colonial subjects, and the integrity of her empire. whatever
it may amount to, appears to have been of late
smothered among what were to Englishmen
weighter matters, and to advocate for a betrayed
Province could be found but in Mr. Bright, an
acknowledged revolutionist, who, it is possible,
would object very little to the annexation of all
the Provinces to the United States. It is to be
hoped that wisdom, if not justice, will prevail
among our own legislators, and that, instead of
denying the most patent facts, they will set themselves to conciliate by liberal measures the affections of their fellow-citizens so grievously outraged, and save their pet scheme, and us as a tions of their fellow-citizens so grievously out-raged, and save their pet scheme, and us as a people, from irretrievable ruin.

CITY NOTICES.

A Paris correspondent reports that the Empress Eugenie has struck out of her invitation list two American families, the young ladies belonging to which she considers as too eccentric in dress and manner to be received at court. It is a great wonder that the Eugenies among us will allow so many badly-dressed gentlemen to present themselves before them to court, when a small investment at Charles Stokes & Co.'s can make the most clownish look like a gentleman "to the manner born."

WHAT everybody says must be true, and chemists, upholeterers, car furnishers, church decorators, carriage builders and physicians are unanimous in their verdict that the Elastic Sponge is the cleanest, the lightest, the healthiest, the most durable, the cheapest and most comfortable material ever introducted to public notice.
