VACATION HAS COME!

Time for which we've long been wishing;

Hurrah! Boys! Here comes vacation!

Come along! and let's go fishing!

From our weary seats of learning.

For their teaching and their spanking;

Come on, boys! and let's be happy!

Don't be cross, and don't be snappy!

Come and have some sport, and now, sirs.

f you chance to spoil your trowsers;

If you climb the trees and tear them

f. like boys, you rudely wear them,

When you come back, in September,

Black or striped, brown or blue ones.

ALTOONA, Pa., July 17 .- The railroad bridge across the Susquehanua river, six miles west of Harrisburg, was discovered to be on fire about 3 o'clock this morning, and before it could be extinguished five spans of the bridge were destroyed.
There will be no delay to trains or any transfer of passengers or baggage in consequence of this occurrence, as the Pennsylvania Railroad Company controls two bridges, one west and one east of that point, by which trains can be passed without delay. The fire is supposed to have originated from a spark from the engine of the Baltimore Express west, which passed over the bridge a few moments before the fire was discoving the state of the world, a few weeks since, with a graphic account of the discovery of a wild man, or gerilla, on one of the Manitou Islands of Lake Michigan, having found the subject growing on his hands, thus gets rid of the monster. In his second letter he states that his party of eight, with dogs, landed on the Island on the 19th of June. He says:

"It must have been 2 o'clock in the afternoon when the report of a gun from one of the exploring parties gave us notice that the unknown had been discovered, and we all at once hastened to the spot. I was so fortunate as to be within a tinguished five spans of the bridge were destroyed. bridge a few moments before the fire was discovered. From St. Louis.

8r. Louis, July 17.—A strike occurred yesterday among the passenger engineers of the Missouri Pacific Railroad, in consequence of additional duties being imposed upon them, and they were discharged and new ones put on. Some riotous proceedings took place to-day, several of the old employés attacking the new men. In consequence of violent demonstrations being made against the property of the company, the police were called out and the disturbance quelled. Everything will probably go on smoothly again in a day or two. No attempt was made on the part of the company to reduce wages, although they claim to be paying more than other roads running out of St. Loais for far less labor.

Washington, July 17.—Mr. Howard to-day

submitted a partial report of the investigations

of the Committee on Ordnance. The report

embodies some more important points of testimony, a vast mass of which is submitted and will oo printed.
The report charges General Dyer with being corruptly interested in contracts for supplying ain kind of shell called the "Amsterdam projectile," and who was one of the owners of it, to ... the effect that Dyer, upon having his claim to a share of the profits about three per cent., recognized, awarded a contract to them for twenty thousand f these projectiles for army use.
