THE DIFFICULTY AT THE GAS The City in Darkness Last Night-The

End of the Strike-The Men at Work To-Day. All efforts to effect an arrangement with the workmen at the Philadelphia Gas Works made yesterday failed, and the consequence was that the city was without gas last night. In the District supplied by the Northern Liberties Gas Works everything was in proper order, and the residents had their full share of gas. In consequence of the darkness the city presented a very gloomy appearance. Various methods were resorted to to obtain light. Dealers in various kinds of lamps did a thriving business, and thousands of candles were sold by the numerous grocery stores about the city. Early in the evening many people could be seen going about the streets, wending their way bone with small bundles of candles. All sorts of things were brought into use as candlesticks. Old bottles were of great service last night. The scene on the streets was novel. Store windows which were generally brilliantly illuminated were lighted up by a couple of "penny dips" stuck in a bottle. Many of the places of business which are generally kept open until nine and ten o'clock were closed at dusk. The streets were very dark and pedestrianism was unpleasant and daugerous. Collisions between those who were walk. that the city was without gas last night. In the

Collisions between those who were walk ing about were frequent, but they were all taken in good part, and joking apologies were made. A policeman standing on a corner was greeted with the remark, "Why don't you light your lamps?" In a store or other place where a sickly looking candle was burning on the counter, the inquiry was, "Why don't you pay your gas bill and get a decent light?" The hotels and resand get a decent light?" The hotels and restaurants were very dismal, and strangers who arrived in the city last night were greatly astonished. Some thought that they had made a mistake and stopped in a country village. To see such houses as the Continental, Girard and American Hotels lighted with tallow candles was not calculated to create a very favorable impression upon strange guests, and clerks were kept very busy in explaining the whys and wherefores of the thing. Some of the lager beer caloons substituted for the lamps on the outside Chinese lanterns, which answered the purpose Chinese lanterns, which answered the purpose very well. The billiard saloons also suffered. At the splendid saloon at the American Hotel a large number of candles were lighted, but there was not a sufficient illumination to allow games was not a sufficient illumination to allow games to be played. All the other large saloons in the city were in the same fix, and were closed early in the evening. All the places of amusement, except the Chestnut Street Theatre, were closed. At the Chestnut, the first part of the performance was gone through with by gas, at a very low pressure, and this soon flickered and finally expired. The reflector used in the performances of the "Black Crook" was brought into requisition, and by this means the stage was into requisition, and by this means the stage was tolerably well lit up, while the audience sat in darkness. Some four or five hundred persons assembled in front of the American Theatre, but the theatre was not opened, as the proprietor was under the impression that there would

some business men, and threats of prosecutions for damages against the trustees are frequently STATEMENT OF THE CHIEF ENGINEER ABOUT THE STRIKE. Mr. Thomas R. Brown, the Chief Engineer, states that he has been on a visit to Providence, R. I., on business connected with his duties. On Wednesday afternoon a committee of the men called on Mr. Myers, his first assistant engineer,

be gas enough for last evening, and therefore had made no provision to light the house. Some

of the large manufacturing cetablishments, where work is generally done at night, were closed, as no provision could be made for a proper amount

of light. The stoppage of the gas last night not only was a very serious inconvenience to all of our citizens, but was the cause of heavy losse to

and presented to him the following paper:

"Philadelphia, July 15, 1868.—We, the undersigned committee of firemen of the Philadelphia Gas Works, representing the firemen, held a meeting on July 14, and it was unanimously resolved to ask an increase of 25 per cent. on our present wages. It was resolved that we wait on the Chief Engineer or assistant and inform him of the same, and give twelve hours' notice, and if not complied with in that time it is the will of the men to quit work.

the men to quit work.

"Yours, most respectfully.

"OLIVER HEMPHILL, President.

"JAMES CLIFF, Secretary."

Mr. Myers, not supposing that this threat would be carried into execution, and having no authority to comply with the demand, made every effort, in company with Mr. Parke, the second assistant, to induce the men to work until Mr. Brown should return, but in van. The Chief Brown should return, but in vain. The Chief Engineer reached Philadelphia yesterday after-noon and immediately had a consultation with the men, in the course of which he appealed to them to remember that the city would be left in darkness, and that great and severe censure would be visited upon the Trust and upon themselves, that he had always treated them kindly, and that-if they would go to work, he would pledge him; self to report their case to the trustees as soon as a quorum could be obtained, there being then but four of the twelve in the city. By authority of the trustees then in Philadelphia, he proposed of the trustees then in Philadelphia, he proposed that their wages should be raised from \$2 15 to \$2 40 for the stokers, and from \$2 05 to \$2 30 for the helpers at the Market street and Spring Garden Works, and from \$2 25 to \$2 50 for stokers, and from \$2 15 to \$2 40 for helpers at Point Breeze. He stated that their demand would add to the expenses of the Trust at least \$80,000 per annum, and would of course compel heavier charges to the consumers. Many of the heavier charges to the consumers. Many of the men afterwards admitted that the advance offered was fair; but on a vote put to those present it was decided to decline it, and so the consultation closed, the men adjourning to meet at nine o'clock

THE DIFFICULTY SETTLED. This morning the men assembled about the works ready to go to work if the Trustees agreed to grant the advance in wages asked for. They were all orderly and well behaved. In the meantime the Trustees who are in the city had a consultation. As the men were unwilling to make any compromise, but insisted on the price originally demanded, it was thought best to comply with the wishes of the men. This decision was announced to them, and was received with cheers. A committee immediately thanked the Trustees for granting the increase solicited and the men all expressed their willingness to go to work at once. They quietly resumed their old places, and as none of the fires had their old places, and as none of the fires had gone out the operations at the works were going on as usual a little after ten o'clock. Therefore we shall have light to-night, although the supply may be a little short, owing to the late hour at

which work was commenced this morning.

The following card from the chief engineer announces the settlement of the difficulty with the

OFFICE PHILADELPHIA GAS WORKS, No. 20 8. SEVENTH ST., July 18, 1868.—To the Public—Being unable to make any compromise with the men demanding an increase of wages, and fearing the evil consequences likely to ensue if the city should be in darkness for any considerable length of time, the Trust have concluded to accede to their demand. Consumers will please use the gas this evening as economically as they can, and I have no doubt that within 48 hours we shall have a sufficient quantity to meet all the demands.

THOMAS R. BROWN,

"Engineer."

An Imposton.—Some thieves have taken advantage of the strike at the Gas Works to carry on their operations by calling at houses and representing that they have been sent to examine meters, fixtures, &c. A man was arrested this morsing, at Belgrade and Marlborough streets, for making such representations at a house. He was locked up for a hearing at the Central Station the effection

tion this afternoon. TTEMPTED SAFE BLOWING .- The establishof Robt. Ransley, gold beater, No. 210 eet, was entered last night from the rear. drilled in the fire-proof safe and was inpowder. The explosion was un-icing open the safe. The robbers beir trouble.

TT UPON A WIFE, - John 's avenue, in the Seventh his wife last night, . with a hand saw. She out the back. Smith was aring before Ald. Eggleton

CRICKET-PHILADELPHIA VS. CAWADA. - A Philadelphia cricket eleven started for Canada this morning, to play a series of matches with crack-clubs of the Dominion. It is composed of Messrs. Charles Cadwalader, John W. Hoffman, Harvey Markoe, James P. 38ims and Wm. W. White, of the Germantown Club, R. Loper Bartel, John J. Arro, Charles Novelland, P. Markov, J. John Large, Charles Newhall and Daniel Newhall, of the Young America Club, and Joseph Hopkinson and Horace Magee, of the Philadelphy (Lub)

Hopkinson and Horace Magee, of the Philadelph:a Club.

The eleven play matches with the best elevens in Toronto, Montreal and Quebec, and with the military eleven which played two matches in New York during this week. They also play a match in Boston, and one at Long Branch with the Bt. George Club of New York. They will be away about two weeks, and will undoubtedly do credit to our city by their playing.

The Canadian elevens have been selected with great care and are said to be unusually strong. Quite a number of cricketing friends accompanied the eleven. The Newhalls join the party at Montreal, and this is very much to be regretted, as the Toronto Club, which they play before reaching Montreal, is one of the best in Canada, and their absence will be felt. In view of the approaching matches with the All-England eleven, which visits this country in the fall, this series of international matches will be regarded with deep interest.

HEAVY ROBBERY .- A lot of silver ware, clothing and jewelry, amounting in value to nearly \$3,000, was stolen last night from the residence of Mr. James Reisky, No. 1111 Mt. Vernon street. The robbery was discovered this morning, and is supposed to have been committed by a servant, who has disappeared.

A STRIKER IN TROUBLE. - George Fulton, one of the Gas Works strikers, was arrested yesterday at Twenty-third and Market streets, for creating a disturbance and assaulting one of the foremen at the Works. He was taken before Alderman Jones and was held in \$600 ball.

Dogs Captured .- During the past week 195 unmuzzled dogs were taken up in the city. Of that number 165 were killed.

SUMMER TRAVEL .- The science of travel in this country is being very rapidly developed, and the summer tourist now has facilities offered to him such as he never dreamed of a few years ago. The Catawissa Railroad Company has just issued its programme of excursions to Niagara Falls, Canada, Saratoga, and the White Mountains, comprising in all no less than fifty routes, all good until November 1st, and allowing travelers to lay over at intermediate points as long as they choose. Full particulars of the different routes, with descriptive guide-books, may be obtained at the Company's office, No. 625 Chestnut

FOR CAPE ISLAND VIA WEST JERSEY RAIL-BOAD.—An express train will leave Philadelphia this afternoon at 4 o'clock, running through without stopping, due at Cape Island at 6.55. making the whole distance in less than three hours, or from Camden in two hours and three quarters. This train will be run daily hereafter (excepting Sundays.) Returning, it will leave Cape Island at 9 o'clock A. M., due in Philadelphia at 12.

SUNDAY EXCURSIONS. - The new steamboat Twilight makes two excursions to Burlington and Bristol every Sunday morning and afternoon, from Chestnut street wharf. The Twilight is a superb boat, fitted up in the most ele-

The steamboat John A. Warner will also make two excursions to Burlington and Bristol, stopping each way at first pier above Poplar strest. Advertisements will be found in another column. which give the hours and places of departure.

DRINK the famous Arctic Soda Water and read the Evening Bulletin, at Hillman's News Stand, at North Pennsylvania Depot.

THE COURTS.

QUARTER SESSIONS—Judge Peirce.—John Winters, convicted of a charge of obtaining goods upon fraudulent orders, was called for sentence. Judge Peirce called attention to the fact that the been before the court on a charge, and had been sentenced to 9 months. His operations had been so successful that he had succeeded in obtaining a large amount of property, and he was a dangerous man to be at large. Sentenced to five pears in the Eastern Peniten-

William Finnegan, a marine, convicted of a charge of robbery, was sentenced to one year in the Eastern Penitentiary.

Philip Madden, convicted of a charge of assault and battery, with intent to kill Gilbert Ball, was called for sentence. It will be remembered that Madden figured in the recent contested election case as the indee in the Eighth division of the shanden lighted in the recent contested election case as the judge in the Eighth division of the Fourth Ward, where he sat the whole day upon the Assessors' book. The offence of which he was convicted was shooting a negro boy in "sport." Ball identified him as the man. This morning he called witnesses to prove an alibi. Sentence was postponed.

CITY NOTICES.

THE GAS QUESTION—The absence of gas will not be permitted to interfere with the manufacture and sale of elegant confections by the famous firm of E. G. Whitman & Co., No. 318 Chestnut street, below Fourth. Tourists, visitors to the country house and stay-at-homes will find a full assortment of just such dainties as will tickle the palate and promote health. For those who desire to take their supplies abroad, Mesers. E. G. Whitman & Co. use neat boxes that are just the thing Messrs. D. dre just the thing

For Church Communications, for cushions, for Carriage Cushions, for cushions in places of an assement, there is nothing to compare with those filled with the Elastic Sponge. All who have built carriages and cars, or fitted up churches and theatres, unitedly bear the same testimony.

MESSRS. PETERSON & LITTLE, agents of the Wheeler & Wilson Sewing Machine Company, having discolved partnership, Mr. Robert E. Peterson, Jr., will continue the business, and with that tact and energy for which the old arm was so proverbial, has followed the course of trade westward and located himself at 914 Chesturt st. Here he will be able to meet the early increasing demands for "the Sewing Machine." The latest improvement adapted to this machine is the "silent feed motion," making it the most quiet running machine in use.

PANIC-STRUCK BRAUTY. It is a terrible shock to a charming woman—indeed, to any woman—to find that her teeth are "beginning to go." Never will any human being who uses the tragrant Sozodont, make that discovery.

"SPALDING'S GLUE," no well regulated family

No Gas! More LIGHT WANTED .- The labor-No Gas! More Light Wanted.—The laboring men at Point Brieze, whose business it is to enlighten the city, by keeping up the supply of gas at the works, are on a "sun-stroke" for more wages, and the stroke came very near to being fatal last night to the city lamps. If the company will not accede to the demand for increased wages, let them present to each one of the employés a cool summer suit of clothing from Charles Stokes & Co.'s, under the Continental. Anything to pacify the men of gas, and keep gross darkness from covering the city.
