LETTER FROM WASHINGTON.

The Case of Collector steadman-How Johnson Keeps His Friends in Office in Spite of the Senate - Revenue Stamps for Tobacco - A Cheap Coal Contract_Revenue Supervisors Nominated by Commissioner Rollins-What a Democratic Postmaster Thinks of Lincoln, &c. [Correspondence of the Philadelphia Evening Bulletin

WASHINGTON, August 7, 1868.—In my last, L made a comparison between the case of the resignation of Gen. Steadman, Collector of Internal Revenue at New Orleans, and that of Commissioner Rollins. The cases are not precisely similar, as the records show. Steadman tendered his resignation early this spring, to take effect on the 15th of April. The President sent to the Senate the name of John Hancock, Philadelphia, ex-Collector of the Fourth Pennsylvania District, for Steadman's position, but he was rejected by the Senate. In order to defeat the Senate, and put his friend in the place the President ordered Hancock to take charge of the office, and be has held it ever sin charge of the office, and be has held it ever since, as a deputy. Secretary McCulloch, it seems, addressed Steadman to the effect that his resignation would be accepted on the 15th of April, or "as soon thereafter as his successor should be qualified," or confirmed by the Senate. No name was sent in after Hancock was rejected; so the place has been kept open for Steadman, who goes to New Orleans and takes charge of the office! In this way the President keeps in office a man without the approval of the Senate. This matter will be overhauled when Congress meets again.

THE REVENUE STAMPS FOR TODACCO.

THE REVENUE STAMPS FOR TODACCO.

It is estimated that one hundred and fifty mil-It is esumated that one hundred and fifty millions of the small stamps required for tobacco packages will be needed. The stamps for distillers will be printed at the Treasury Department, in Clark's bureau, but the tobacco stamps will be given out by contract, and it is to be hoped your Philadelphia engravers will be on hand as bidders.

THE COAL CONTRACT.

The contract for 10,000 tons of coal, to be delivered at the Philadelphia Navy Yard, menlivered at the Philadelphia Navy Yard, mentioned in my last, was awarded to S. P. Brown & Son, of Washington, at \$3 33 per ton, and the conditions are the full ton of 2,240 pounds, the coal to be weighed and inspected at the Yard. This is rather a low rate, but could not some Philadelphia firm have bid as low? The coal can be brought from the mines on canal boats on the Schuylkill canal, which can be towed around the mouth of the Schuylkill to the Navy Yard, and delivered there, which saves handling Yard, and delivered there, which saves handling and loss. Hence the low price.

Hence the low price.

ILLNESS OF COMMISSIONER SARGENT.

Hon. Nathan Sargent, Commissioner of Customs, formerly of Philadelphia, has been ill for several days, but is recovering. He is quite old, but one of the most faithful and efficient officers under the Government.

THE REVENUE SUPERVISORS.

It is understood Secretary McCulloch will take no action upon Supervisors of Revenue, nominated by Commissioner Rollins, until the question of Rollins's status is decided. If a Democrat snould be appointed Commissioner by the President, it is likely all of Rollins's nominations will be thrown overboard, and others substituted. WHAT A DEMOCRATIC POSTMASTER THINKS OF

LINCOLN.

The following endorsement on a circular of the Lincoln Monument, sent to Postmasters by permission of Postmaster-General Raudall, was received a few days since by General F. E. Spinner, Treasurer of the Association, from a Postmaster in New York State, in General Van Wyck's District. The Postmaster is evidently a strong friend of Seymour and Blair, and his effusion shows that his early education was somewhat neglected. I give it verbatim:

"Lincoln Monument Co,—we are not of the stamp (in charge of the Post Office here now) that you then the way when you sent this doc-

that you thought we was when you sent this document—it is not in radical hands and dont support a man that was compelled to do so and so by the pressure brought to bear upon him—talk about him being the savior of his country—non-sence through his means the niggers is to day better than a white man and the country plunged into disgrace and a debt which centuries will pass before it will be paid-we don't want any such papers here as this is a sample-and what money have to subscribe will go for men of hono fill the Presidents chair and hurl the radical party from plundering the country of its money and taxing people and extorting monles from them

to put in radical devils pockets—
"a common grave is good enough for such a
man as he was—you thought him as God Almighty—he was nt any better than a pauper
along the streets—
"We dont support men here that tries to plunge

the country into destruction & civil war-but support men who next full will send your party to the d-l-and hurl the cussed party from power—you talk about him being a martyr—we cant eee it—who ever heard tell of a man going to Heaven out of a theatre Lincoln & whiskey Grant was the means of filling up so many grave yards with precious human lives— "Jeff Davis is got more honor than Lincoln ever

had & has more friends to day than he will ever "we dont want any more of your papers of this

kind ever.

No name was signed to this, but it was franked by the Postmaster kending it.

OITY BULLETIN.

The Shooting of the Burglar-Coroner's Inquest

This morning Coroner Daniels held an inquest on the body of Wm. Sweeny, who was shot yes. terday morning while attempting to break into the house of Christopher Dillon, at Twentyfourth and Kent streets The office was crowded with spectators, and there was great anxiety to see the boy who had thus rid the community of

a dangerous character.
Several witnesses were examined. The testimony corroborated the statement of the affair which was published in the BULLETIN of yester-day. No new facts were elicited.

The evidence of Dr. E. B. Shapleigh, who made

the just morten examination, showed that several clugs had entered the body of Sweeny, and that death must have been almost instantaneous.

The jury, after a very brief deliberation, agreed upon the following verdict:
"That the said William Sweeny came to his death from a gunshot wound inflicted by Thomas Dillon, on the morning of August 7, 1868, between 12 and 1 o'clock.

"That the said Sweeny, at the time of the infliction of said wound, was engaged, in company with John McGee and Frank Johnson, in attempting to commit a burglary by breaking into the dwelling-house of Christopher Dillon, the father of the said Thomas Dillon, and that the said shooting was done in order to prevent the perpetration of a burglary."

After the verdict had been announced Dillon

After the vertice had been announced Dillon was discharged from custody by order of the Coroner, and as he left the office, he was congratulated upon his release, and applauded for the good act in so summarily disposing of a

burglar.

McGce and Johnson, the companions of Sweeny, had a hearing before Ald. Bettler yesterday
afternoon, upon the charge of having robbed the
store of Mrs. Eliza Holt, at Twenty-fourth and
Spruce streets. Mrs. Holt identified several articles which had been found on the persons of
the detendants and the deceased. The prisoners
were committed for trial were committed for trial.

LARGENY .- Abraham Chester was entrusted by Mrs. Brown, residing on Allan street, near Shackamaxon, with a wheelbarrow and \$2, a few days ago, to procure some coke for her. He ne-glected to return with the wheelbarrow and coke, and the money has not been heard of either. Chester was arrested last night, and was com-

mitted by Ald. Eggleton.
William Fetters was before Ald. Eggleton last evening upon the charge of the larceny of baga-telle balls from a place on Fifth street, above Poplar, and a plane from a new building in the same neighborhod. He was held for trial.

FALL OF A SCAFFOLD .- This morning about eight o'clock a scaffold on a new building, at Eighteenth and Christian streets, gave way and fell. Joseph Bennerson, a bricklayer, was precipitated to the ground and had an arm badly broken. Henry Holmes, colored, a hod-carrier, was somewhat injured. Both were taken to the

The first number, just issued, is well printed, and contains much interesting reading matter and a number of fine illustrations. The will, no doubt, receive the support which t deserves from our German citizens

THE FIRE BADGES.-Chief Engineer Mc-Cusker is still engaged in distributing badges to the firemen. For some days the badges were given out as fast as they could be supplied from the factory of Messrs. Cornelius & Baker, but the supply is now equal to the demand. Up to to-day 2,200 badges have been delivered.

A Double Assault .- John Kinsig, residing at Fifth and Prune streets, was before Ald. Beitler this morning, upon the charge of assault and battery on his wife. Policeman Bleecher, who interfered in behalf of Mrs. Kinsig, was also assaulted. Kinsig was held for trial.

BAD Boys .- Four boys who have been engaged in robbing stores in the Seventeenth Ward were arrested last night by the Tenth District Police, while sleeping in a back yard at Second street and the Reading Railroad. They were committed for a further hearing by Ald. Eggleton.

SERIOUS ACCIDENT .- A boy named Wm. Wetzel jumped from a locomotive while it was in motion, at Berks and America streets, yesterday afternoon. He fell upon his head and fractured his skull. He was taken to the Episcopal Hos-

Russia-Flogging and Legal Science, It seems that the popular notion that corporal punishment does not exist in Russia is incorrect. The Moscow Gasette tells us in a recent number that an old man of sixty, named Szumin, belong-ing to the sect of "old believers," has just been sentenced to receive fifty lashes for having escaped from Siberia. He had been condemned to hard lebor in the mines some years ago, because he had destroyed, in a fit of fanaticism, some prayer-books in a Russian church, and, having made his escape, he was selzed at Vladimir on the way to his home. On being examined by a physician, the latter declared that Szumin's age and weak health would make it exceedingly dangerous to inflict the punishment of the lash; but the local tribunal nevertheless delivered the sen-tence above described, and when the unfortunate man appealed to the higher court at Moscow the sentence was confirmed. The Moscow Gazette, in relating the above facts, explains that although corporal punishment has been abolished by law corporal punishment has been abolished by law
the sentence in the present case was perfectly
correct, as Szumin, being a convict, "has lost all
civil and political rights."

Mr. Winans, the contractor of the St. Petersburg

and Moscow Rallway, is doing some service to legal science. For his own purposes, it seems, he has had the whole "Corpus Juris" of Russia (the "Swod Sakonow") translated into English. less than thirty-eight men have been busy at it in his office for more than a month for about seventeen hours a day. The Moskwa learns that this translation is about to be printed in London. Mr. Winans is not moved by an enthusiasm for Russian legislation, but rather by the desire of being able fully to back his claims for damages in case the Russian government should, as he was the later to the translation of the later with him and hand ars, break their contract with him and hand the railway over to the Grand Société.

No surer guarantee of the superiority of the Wheeler and Wilson Gold Medal Sewing Machine can be required than is shown by the number of machines manufactured and sold by the several Sewing Machine (o.'s up to the time of the expiration of the Howe patent, Sep. 10th, 1867. The Wheeler and Wilson made and sold 300,000, an excess of 100,000 over all other machines.

This Company, National in its character, offers, by reason of its Large Capital, Low Rates of Premium and New Tables, the most desirable means of insuring life yet presented to the public. The rates of premium, being largely reduced. are made as favorable to the Insurers as those of the best Mutual Companies, and avoid all the

dends and the misunderstandings which the latter are apt to cause the Policy-Holder. Several new and attractive tables are now presented, which need only to be understood to prove acceptable to the public, such as the IN-COME-PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policyholder not only secures a life insurance, payable at death, but will receive, if living, after a period of a few years, an annual income equal to ten per cent. (10 per cent.) of the par of his policy. In the latter, the Company agrees to return to the as-

complications and uncertainties of Notes, Divi-

sured the total amount of money he has paid in, in addition to the amount of his policy. The attention of persons contemplating insuring their lives or increasing the amount of insurance they already have is called to the special advantages offered by the National Life Insurance

Company. Circulars, pamphlets and full particulars given on application to the Branch Office of the Company in this city, or to its General Agents.
