Certainly no violence has been used to get them aboard vessels. The military are instructed to make no differ, ence between traders, but to treat all alike.

General Halleck has taken steps to inform the natives around the principal ports of the standing of the above firm, and of the impartial position of the troops. The partners of Hutchinson & C., have disapproved the conduct of their agents, and ordered its discontinuance.

They sold at the 2.15 P. M. board \$1,000,000 of 1867s through one broker at 108% to 108%, and also afterwards freely in the street. All that offered was, however, taken readily by the regular dealers, who have considerable amounts of discretionary orders to fill for savings banks and capitalists. The decline in prices has brought in numerous inquiries from parties who have surplus finds to invest. General Crook ordered the arrest and hanging of the murderers, which it was thought would have the effect to prevent any more such outrages. The Indian troubles are considered over in that vicinity. Bands of savages are continually coming in at different stations and surrendering, most of them being in a starving condition, and greatly needing assistance from the government.

The police and detective officers are working diligently, endeavoring to ferret out some class which will lead to the detection of the perpetrator of the fiendish crime. There are various theories in relation to the manner in which the terrible deed was committed, and most of them have been worked upon by the detective officers, but have afforded them no substantial material to attain the desired end.

Several men were arrested during last evening and this morning, but upon a careful examination by the officials, it was found that the suspicions against these individuals were groundless.

The Coroner's inquest will be held to-morrow morning at ten o'clock.

The funeral of the murdered child took place yesterday. The services were held at Saint Boniface's Church, which was densely packed during the ceremonies. Four girls, school-mates of the deceased, acted as pall-bearers, dressed in white, with black slik sashes. The services were highly impressive, and drew sympathizing tears from many a mother present.

The market for government securities remained steady but dull at the decline of yesterday until FINANCIAL and COMMERCIAL steady but dull at the decline of yesterday until the two o'clock call, when about a million of the five-twenties of 1867 was sold by a general stock commission house, the result being a decline of a per cent. This sale is supposed to have been on "short" account by parties who usually confine their operations to the speculative railway and miscellaneous shares. The hammering of the bears since Tuesday morning has been persistent, and the leading bull houses thus far made no attempt to check the decline, their object apparently being to draw out a fresh "short" interest, and there is no doubt that the latter, although previously large, has been materially increased within the last forty-eight hours. There is an active borrowing demand for all the issues of five-twenties, and considerable conversions of the bonds of 1862 into the later issues are being made by the foreign bankers. lve-twenties of 1867 was sold by a general stock The Philadelphia Money Market. San Filancisco, Sept. 9.—General Halleck furnishes reliable information in regard to abuses existing in Aliaska, which has been made the subject of a special investigation during his recent visit to the Territory. Much of the dissatisfaction among the natives arises from the fact that the old Fur Company carried on a sort of patriarchal government, taking charge of everybody and everything in the settlement.

As General Mesde has received the authority he demanded, the entire official history of the affair will be published, together with the evidence taken before the Military Commission on the trial of the murderers. It will show that there was no doubt of the guilt of the accused persons; that the murder was a cold-blooded and unprovoked attempt to put out of the way a fearless political antagonist, and that the sympathy of the people of Columbia with the criminals was such that obstacles in the way of justice were almost insuperable.

The mate of a schooner lying near the shore gives additional particulars. He says that after the vessel struck, the rowboat was capsized by the steamer's guards, and that the coupants sank almost immediately; the man giving one or two outcries.
