Half a Million Dollars Stolen from the Government. Lehigh Valley Railroad. [From the Detroit Tribune of Sept. 9th.] Our readers are all aware that during the past several weeks parties in Buffalo, New York. Washington and Chicago, have been arrested upon indictments found by the Grand Jury of the United States Court for this district, chargements and the state of the chargement of the United States Court for the district, chargements and the state of the chargement the United States Court for this district, charging them with being implicated in a conspiracy by which they have defrauded the Government to a great amount. The full particulars of the alleged fraud, which, it is believed, will amount to over \$500,000, have not yet been fully published. We give below such facts as it is deemed prudent to present to the public at present, and detailing the manner in which the frauds have been committed in the Postofflice department for the past seven or eight years, amounting, it is believed, to nearly \$500,000.

The first intimation of the fraud was received by the Postmaster-General in February last, who was secretly informed that a fraud was being perpetrated in his department, and that his own agents were concerned in it. He was given no clue as to what was the precise nature of it, and conferred with the Secretary of the Treasury, requesting that the latter should entrust the matter to one of his agents, fearing that, as had been reported to him, his own were connected with it, whatever it might be. He at once undertook the work, and in June reported the result of his investigations to the Postmaster General, to the effect that by a conspiracy reaching through seven years, from 1861 to 1868, the Government had been swindled by a Post-office contractor, Post-office agents and clerks in the Treasury Department, to the amount, in the aggregate, of several bundred thousand dollars. He was then directed by the Secretary of the Treasury to submit the
