Further Particulars. BEBEL RIOT IN AUGUSTA. A special despatch to the New York Tribun

"A mob fight occurred here at 4 P. M. Sever men were injured, and several men were severe handled. The Rebels were maddened by the unexpected defeat in Augusta, and in the Third Ward revolvers were drawn and brickbats were hurled in the metropolitan style. A Republican meeting for exultation over the complete victory bers of that badly-whitped faction entered the hall and cheered for Seymour and Blair. The Republicans replied by three roaring cheers for Grant and Colfax, and those near the door tried to oust the drunken brawlers. A hard fight ensued. The Union men were at last victorious. The police, who are all Democrats, valiantly remained in the background. One solitary Tanner was chased through the policy. the background. One solitary Tanner was chased through many of the streets, but escaped unburt. Two hundred or three hundred of the rioters are about the hall, and it is not safe for a Republican to attempt to enter. Damaged crowns and bloody noses are all round in the city, where to-day was witnessed the most disgraceful scene that ever blackened the good name of Augusta."

OPINIONS OF THE NEW YORK PRESS. OPINIONS OF THE NEW YORK PRESS.

The Times says: "The election was important mainly as indicating the drift of the public sentiment; and we think it shows pretty clearly that the drift is not toward a Democratic victory in November. Both parties made a very active and thorough canvass of the State. The Democrats were especially energetic as the control of the state. were especially energetic, as they felt the necesaity of making heavy gains to show the 'reaction'

Our friends of Freedom gave up every consideration and necessity of business to the country. They worked as they had not worked since the days of Harrison, Fremont, and Lincoln. The issues were presented, the votes were brought out, and victory was won. Let our friends in Pennsylvanis, Ohlo, and Indiana imitate these Yankee Boys in their discipline, their resolution, their harmony and their enthusiasm. Their triumph will be as glorious and overwhelming, and the ides of November will bring us that peace and prosperity for which the nation has so vainly and patiently longed.

The Sub-Treasury disbursed \$51,139 in coin in payment of interest on the public debt. The imports of specie at this port last week from foreign ports amounted to \$113,207, making an aggregate of \$5,759,907 since the 1st of January. The steamer Henry Chauncey brought \$399,747 in specie and bullion from California and \$401,047 from Aspinwall. For some time past the great majority of the speculators in gold have been beats, and the result is seen in the decline of the price of that commodity from 150, a few weeks ago to 143% to-day. Previously the current of speculation had been in the opposite direction. peculation had been in the opposite direction, d hence the advance to 150. and hence the advance to 150.

The market for government securities has been very dull all day, although there was an entire absence of pressure to sell and a confident feeling was manifested by holders of bonds. There was a fractional decline in the prices bid after the opening, but late in the afternoon this was fully recovered, and there were no stocks offering at the quotations. The result of the Maine election will, it is suspected, atimulate the demand for investment and strengthen

Considerable feeling was manifested in Wall street among first-class firms from the circumstance of an up-town bank having notified about \$2,000, 000 of loans, that the rate thereon, to-day and after would be 5 per cent. As the Wall street banks are in search of prime borrowers on Governments or other first-class collaterals, the whole of the loans were promptly returned to this bank, and obtained at the old banks at 4 per cent., and from foreign bankers at three per cent.

The ruinous losses in South America from the earthquake will fall chiefly on London, as Great Britain enjoyed the monepoly of the foreign trade within the parallels which were devastated. The United States had very little interest there. The decline in consols of & per cent. may therefore arise from these South American losses, and not from any prospect of war in Europe.
