DESTRUCTIVE FIRE IN THE SIXTEENTH WARD-A SPOKE, HUB AND FELLOE FACTORY BURNED. -This morning, about three o'clock, a fire was discovered in a large, double brick building, at Front and Canal streets, in the Sixteenth Ward.
The structure was three stories in height, the upper story being frame and the lower portion brick, and was about forty feet front by one hundred in depth, with several frame attachments in the resr. The principal occupants of the building were John G. Davis & Son, manufacturers of spokes. The northern portion of the building was occupied by Washington Fitler, manufac-turer of hubs, and B. F. Miller, manufacturer of felloes, also occupied a portion of the establish-ment

The flames were first seen in the basement, among a lot of shavings and refuse matter which had been put there to be used in the fire under the boiler. Owing to the combustible nature of the contents of the building, the fire soon spread through every portion of it, and the structure was gutted. Several of the frame attachments were also burned. A one-story brick structure, known as the saw-house, was also destroyed. The boilers and mechinery were in the basement, and were greatly damaged. Some of the sheds, containing hard lumber, and a considerable quantity of material in the yard, were saved. Among the property destroyed were 50,000 hubs. 150,000 spokes, and a lot of lumber in process of season

The loss of the occupants of the building is estimated at \$50,000, upon which there is an insur-ance of \$25,000 in New York, New England and Baltimore companies.

The real estate is owned by the estate of John Negley, deceased. The loss is estimated at \$8,000 and is supposed to be insured.

The origin of the fire is not known at present but is being investigated by the Fire Marshal.

CITY NOTICES

POLITICS AND COLD WRATHER.—The political excitement is running mountain high just new, and both parties are straining every nerve to secure success. Prudent, sensible people, however, do not let their strention get so engrossed in politics as to forget that the winter is coming very fast and that they must make provision for it; and to this end they are laying in their supplies of coal. The fluest article of coal in the city is that sold by W. W. Alter, No. 957 North Ninth Street. Do not delay purchasing, but go at once and do so.

Mr. Alter has established a branch office at Sixth and Spring Garden streets, where orders may be left.

An Easy Foot, next to an easy conscience, is a thing much to be desired. To have an easy foot and also adorn that important member, no advice will be found more reliable to act upon than that which counsels the purchase of your Boots and Shoes at Bartlett's well-known establishment, 33 South Sixth street, above Chestunt.

QUERIES TO GENTLEMEN.—Are you entirely satisfied with your Bootmaker? Does he fit you neatly and comiortably? Does he use the best materials? Is his work durable? And finally, are his prices reasonable? To those who cannot answer these questions in the affirmative, we would suggest a visit to William H. Helweg, the fashionable Bootmaker, at 535 Arch street, next to the corner of Sixth. Helweg is an accomplished artisan, who has not practised his profession twenty years for nothing. Try him!

CHILLY.—These cold snaps remind our citizens that it is time to throw off their straw and light hats, and repair to OAKTORD'S, Continental Hotel, and ful-till their present wants.
