THE POWERS OF THE DEPUTY SHERRY .- The Mayor received the following letter from Judge Allison last evening:

Hon. Morton McMichael, Mayor of Philadel-phia.—Dean Sir: We have just expressed an unanimous opinion adverse to the claim of the Sheriff, to exercise paramount or exclusive au-thority in the preservation of the peace of the thority in the preservation of the peace of ac-city. The most he can claim is concurrent power with the Mayor. I also gave notice that I would, if applied to to-morrow, issue my warrant, on proper complaint, for the arrest of the Sheriff, his deputies or police officers charged with the exercise of the authority claimed by the Sheriff in his proclamation, and that I would notify the Mayor to be prepared with sufficient force to execute my warrant if required. I am, very truly, yours.

DIFFICULTY IN THE NINETEENTH WARD.-In the Tenth Precinct of the Nineteenth Ward, this morning, a difficulty occurred in regard to the morning, a difficulty occurred in regard to the opening of the poll. The regular Judge is a Republican named Addis. A man named Hooper, a Democrat, claimed to be judge, and he and some associates took possession of the room, and refused to open the windows that votes might be received. Day Sergeant Hackett was sent for and he removed the alleged bogus judge and his confederates, and opened the poll. He was subsequently arrested on the charge of interfering with the election officers, and was taken into the Court of Common Pleas.

at six o'clock P. M.

SHOOTING BY A DEPUTY SHERIFF.-At the Second Precinct, Sixteenth Ward, corner of Front and Otter streets, about 71/2 o'clock this morning, Joseph Flanigan, one of the appointed deputies of Shoriff Lyle, got into an altercation with a man named Dennis. Flanigan drew a pistol and fired at Dennis. The ball took effect upon a young lad named Henry Perkins, flying at 1078 Frankford road. The ball passed into the abdomen. The boy is in a very precarious condition. He was immediately removed to his home and attended by Doctors Oliver and Young. Flanigan was arrested by Policemen Patterson and Hodey.

Polls close at 6 o'clock P. M.

ELECTION OF OFFICERS .- The Young Mannerchor held a quarterly meeting last evening at the hall in Cherry street, above Fourth. An election was held for four members of the Board of Directors, and resulted in the choice of the following gentlemen—Jos. Kinicke, Jos. Grimm, Chas. Albedyll, and Henry Nuss.

Polis close at 6 o'clock P. M. No Reports.—The usual morning levee of the Mayor was not held this morning. The lieutenants of police did not present any reports, all remaining in their districts to be ready with their men in case disturbances should require their at-tention.

A GOOD INVESTMENT .-- A careful reading of the new pamphlet of the Union Pacific Railroad Company, containing the Treasurer's report for the year ending June 30, 1868, and much other matter of value and interest (the whole making an exceedingly handsome book of torty pages), tends to convince one of the value of the Company's First Mortgage Bonds, for the following pany's first Morigage Bonds, for the following reasons:—1. They are a first mortgage upon the longest and most important railroad in the country. 2. This road, upon which these bonds are a first lies, carned last year, with but four hundred and seventy-two miles in average operation, more than four millions of dollars, which gas more than one and one-pleff millions. which gave more than one and one-half millions of net earnings. 3. The road has been built eight hundred and forty miles in two and a half regard numered and forly limits in two and a hair years, and is now being extended at the rate of three and four miles per day. 4. The whole line to the Pacific (composed of the Union Pacific and the Central Pacific Railroads) will be in operation in the summer of 1869, six years sooner than the limit of time fixed by the national charter. charter. 5. Every additional mile gives the road increased business and profit, which must be enormous when the which must be enormous when the through line is complete. 6. Three Government Commissioners carefully inspect every mile of the road, and must pronounce it first class in every respect before it can be opened to business, and their testimony has been corroborated by that of more than twenty representatives of the leading press of the eastern cities, who thoroughly examined seven hundred miles of the road in July last. 7. The Bonds pay six per cent. interest able in gold coin. 8. The amount of these Bonds is limited to fifty millions upon the entire line, but it is not probable that more than thirty millions will be issued. Of these, twenty millions have aiready been sold at a steadily advancing price.

Hon. E. D. Morgan, of New York, and Hon.
Oakes Ames, of Massachusetts, are the trustees of the bondholders, to see that their interests are protected, and five Government Directors take part in all the business of the company, and re-port all of its operations to the Government, so that any possible irregularity would soon be

Facts such as these cannot easily be gainsaid or their importance weakened. They are set forth with clearness and attractiveness in the company's pamphlet, of which we have apoken, which may be obtained gratuitously by application to DeHaven & Brother, No. 40 South Third street,

RELIGIOUS INTELLIGENCE

Bitualism. The following is the full text of the memorial The following is the full text of the memorial against Ritualism presented to the Episcopal Convention, yesterday, by Judge Conyngham:

To the Right Reverend the Bishops, Clergy and Lay Delegates of the Protestant Episcopal Church in the United States of America, assembled in General Convention: Tour memorialists, lay members of said Protestant Episcopal Church, respectfully represent that uniformity in the manner of worshipping Almighty God is one of the chief reasons for the use of a Liturgy, and is, in itself, most desirable: that it was the object of the Church of England and afterward of the Protestant Episcopal Church in the United States of testant Episcopal Church in the United States of America, as appears by the preface to their re-spective books of Common Prayer, to establish a form of worship which "might most tend to the preservation of peace and unity in the Church, the procuring of reverence, and the exciting of plety and devotion in the worship of God, and finally, the cutting off occasion from them that seek occasion, of cavil or quarrel against her Litture," that in order to that there against her Liturgy;" that in order to attain these ends the Protestant Episcopal Church in the United States made, at its organization in this United States made, at its organization in this country, many important alterations and amendments in the English Book of Common Prayer, all tending to simplify her worship and to promulgate Christianity and the truths of the Gospel to mankind "in the clearest, plainest, most affecting and majestic manner." That, of late, many ministers, torgetful of the objects of the fathers of said Church in this country, have introduced various changes in the previously long-established manner of conducting divine worship therein, and of performing her rites and ceremonics, novel to our people and not contemplated by the Book of Common Prayer and the canons of the Church, and which do not "trend to the preservation of peace and unity in "tend to the preservation of peace and unity in this Church," nor to "the procuring of reverence and the exciting of piety and devotion in the worship of God," and especially not to the "cutting off occasion, from them that seek occasion, of cavil or quarrel against her Liturgy;"
that by reason of the said changes, the worship
in the churches in this diocese, and of other dioccase, is no longer uniform, and great scandal and dissension have been promoted thereby;

that your memorialists deplore the intro-duction of said changes in the manner of worshipping God, by whatever ancient practice in duction of said changes in the manner of worshipping God, by whatever ancient practice in any other church the same may have been recognized, and whatever their intrinsic merit, and express the fervent hope that the same may cease from among us; that leaving to your honorable body to particularize the practices to which you allude, your memorialists respectfully express their disapproval of all deviations—manifestly on the increase—from the prescribed ritual of our Church, and of all acts, intentional postures, unaccustomed ministerial garments and personal or church decorations, and all conduct in the celebration of divine worship which tend to make the same resemble, in outward seeming, that of the Church of Rome; that, in our judgment, charlty and the interests of this Church, as, well as good taste, require the abandonment by hadividuals even of acts not forbidden, if injurious to its peace or likely to be misunderstood by Protestant Christians; wherefore, we respectfully pray that canons may be passed which shall establish and enforce uniformity in divine worship in all our churchs and tag to renew and preserve that force uniformity in divine worship in all our churches, and tend to renew and preserve that simplicity and absence of unnecessary ceremo-nal which the early Protestant Episcopal Church in this country sought to attain.

PORTO RICO.

Scrious Revolt in the Island-The Prisoners to Bo Shot—Fears of a Negro Insurrection—A Venezueian at the Bead of the Affair.

By the French steamer which arrived at New York yesterday, we have St. Thomas dates to the 1st inst. An insurrection had broken out in Porto Rico, the accounts concerning which are very contradictory. One is to the following effect: An extensive revolution had broken out in Porto Rico among the native planters and their slaves. They had succeeded in bringing into the field an army of 2,500, well-equipped and armed with American breechloaders. They had made the interior town of lares their headquarters and stronghold. This they had strongly fortified and had established a temporary government. The names of the leaders were not known. An engagement had been were not known. An engagement had been fought with the royal troops near Lares, in which both sides suffered severely, the latter the most so. An outbreak was feared among the native troops of the army, of whom there are on the island about 7,000. Several of their officers had refused to march against the insurgents, and had been avested and throw into order cers had refused to march against the insurgents, and had been arrested and thrown into prison, where their fate was regarded as certain. The Captain General remained in the capital, having placed outposts in the neighboring towns of Bayamon, Rio Piedras and Caguas, but it was not thought probable that the Porto Ricans would move towards San Juan. The Captain General had ordered that no prisoners be brought General had ordered that no prisoners be brought to the city, or, in other words, that they be shot. Another account, given with less of detail, furnishes a very different version of the uffuir. This states that an insurrection had broken out there, inaugurated by our planters, who had lost heavily in appendix of our planters, who had lost heavily in speculations and by the failure of their crops, and had incited their blacks to a rising to relieve themselves of their pecuniary responsibilities. They had attacked the small town of Papino, but were repulsed with two killed. This, with Larez, was the only town which had been disturbed. Troops had been sent out from Mayaguez and San Juan, and at latest accounts all was quiet.

FROM NEW YORK.

NEW YORK, Oct. 13.—The case of the United States against John D. McHenry, the principal witness in the late prosecution against Commissioner Rollins and others, was fixed for a hearing yesterday in the United States Commissioners' yesterday in the United States Commissioners' Court, before Commissioner Osbarn. The defendant is charged with having committed perjury in his evidence against Rollins, Harland and others. On application of his counsel the examination was postponed till Friday next.

The East River Ferry Company were the defendants in a suit for damages yesterday, before Judge Cardozo, on the plea of a little girl whose fingers were crushed between the host and the

tingers were crushed between the boat and the slip on the Hunter's Point line. A verdict was rendered for the plaintiff allowing her \$2,000 lamages

Yesterday Judge Edwards Pierrepont, a sachem of Tammany, in a letter to Mr. A. T. Stewart, declares it as his conviction that the safety of the country depends upon the election of Gen. CITY NOTICES.

Queer Signs.-A German artisan describes his business upon his sign in a single word, namely: Hin $terladungs vetterlige webr patronen hilsm {\it fabricantarb}.$ Described concisely in English, he is man-

What a glorious old time those people must have trying to ask where that place is!
The queerest sign in this city, and the most observed, reads something like this: "Buy your coal at W. W. Alter's, 957 North Ninth street," Everybody seeing this sign heeds the advice and buys at once.

UNION PACIFIC

RAILROAD

Are now finished and in operation. Although this road is built with great rapidity, the work is thoroughly done, and is pronounced by the United States Commissioners to be first-class in every respect, before it is accepted, and before any bonds can be issued upon it liapidity and excellence of construction have been secured by a complete division of labor, and by distributing the twenty thousand men employed along the line for long distances at once. It is now probable that the

Whole Line to the Pacific will be Completed in 1869.

The Company have ample means of which the Govern ment grants the right of way, and all necessary timber and other materials found along the line of its operations; also 12,800 acres of land to the mile, taken in alternate sections on each side of the road; also United States Thirty-year Bonds, amounting to from \$15,000 to \$2:.000 per mile, according to the difficulties to be surmounted on the various sections to be built, for which it takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c.

THE EARNINGS OF THE UNION PACIFIC RAIL ROAD, from its Way or Local Business only, during the year ending June 30th, 1863, amounted to over

Four Million Pollars, which, after paying all expenses, was much more than sufficient to pay the interest upon its Bonds. These carnings are no indication of the vast through traffic that must follow the opening of the line to the Pacific, but they certainly never that

Are Entirely Secure.

The Union Pacific Bonds run thirty years, are for \$1,000 each, and have coupors attached. They bear annual in-terest, payable on the first days of January and July at the Company's office in the city of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. The price is 102, and at the present rate o

gold, they pay a liberal income on their cost.

A very important consideration in determining the value of these bonds is the length of time they have to run.

It is well known that a long bond always commands a much higher price than a short one. It is safe to assume that during the next thirty years the rate of interest in the United States will decline as it has done in Europe. and we have a right to expect that such six per cent. securities as these will be held at as high a promium as these of this Government, which, in 1857, were bought in at from 20 to 23 per cent, above par. The export demand alone may produce this result and as the issue of a private corporation, they are beyond the reach of political action. The Company believe that their Bonds, at the presen ate, are the cheapest security in the market, and the
