In the year which is now drawing to its end the art, the skill, and the labor of the people of the United States have been employed with greater dilligence and vigor and on broader fields than ever before, and the fruits of the earth have been gathered into the granary and the storehouse in marrellous abundance; our highways have been lengthened, and new and prolific regions have been lengthened, and new and prolife regions have been occupied. We are permitted to hope that the long protracted political and sectional dissensions are, at no distant day, to give place to returning harmony and traternal affection, throughout the Republic Many foreign States have entered into liberal agreements with us, while nations which are far off, and which heretofore have been unsocial and exclusive, have become our friends. The annual period of rest which we have reached in health and tranquillity, and which is crowned with somany blessings, is by universal consent a convenient and suitable one for cultivatonsenta convenien and suitable one for cu ing personal piety and practicing public devo-tion. I therefore recommend that Thursday, the 26th day of November next, be set apart and ob-served by all the people of the United States as a day of public praise, thanksgiving and prayer to the Almighty Creator and Divine Ruler of the gracious providence alone, States and nations no less than tamilies and individual men, do liv vention took a recess.
