TO WEARERS

For months past complaints have reached us that many persons have been poisoned by wear-

Recently our attention being called to two very aggravated cases of poisoning by wearing Enameled Paper Collars, we determined to employ goods now offered in this market analyzed. The result of the analysis made by Prof. Williams, late of the Polytechnic College, will be found below, and the collar referred to as "sample No. 1," was Enameled and Linen Finished. with a glossy appearance.

visit our Factory, and sent to his Laboratory samples of all the articles used in our Cloth Lined, and also our new "Irving," "West End." "Elite," and other styles of Linen Finished Collars, as well as the Collars themselves, and his report on them will be found below. As all the Enamels are prepared and put on in our own establishment, we had no doubt of their being harmless, but believed our customers should have not only our assertion, but also Prof. Villiams's report after careful analysis.

REPORT OF PROF. WILLIAMS.

Chemical Laboratory. No. 3045 Chestnut St.

GENTLEMEN: The Paper Collars which you sent me, marked "No. 1," contain Carbonate of Lead or White Lead, as one of the constituents of their glaze or finish. I regard this substance as exerting a poisonous action when brought in contact with the skin and when acted upon by the liquids exuding from the surface of the skin. The action of this substance is too generally known to require any further certificate from me. rom the lowest to the highest quality—some of them the I have, at your request, exhibited the presence of Lead in these Collars, by submitting them to the action of Sulphydric Acid Gas (Sulphuretted ened them. A quantitative chemical analysis less than one grain of Carbonate of Lead. The amount seems small, but the continued action of even this on the surface of the akin must result

Very respectfully, yours, CHAS. P. WILLIAMS. Analytical and Consulting Chemist.

Chemical Laboratory, No. 3045 Chestaut St., PHILADLEPHIA, September 21st, 1868.

Messie, W. E. & F. D. Lockwood, Nos. 255 and 259 South Third Street, Philadelphia-Gentle-MEN: I have tested with great care the glaze used by you in the manufacture of your Paper "One of the best novels ever written for an American | Collars, and find it to be composed of substances magazine."—Phila telphia Morning Post.
"The story is most happily written in all respects."— which are entirely free from any injurious or The North American. poisonous action on the system. You may continue in its use with the assurance that all Collars prepared with it are perfectly harmless. Very respectfully, yours,

CHAS. P. WILLIAMS. Analytical and Consulting Chemist. Late Prof. Chemistry and Analysis, Polytechnic

These letters speak for themselves. No one has ever questioned the purity of our goods, and especially our Cloth Lined Collars, which are the best as well as the most reliable made, and the above letter fully endorses the harmlessness of the enamel in the new "Irving," "West End" and "Elite" Linen Finished Collars, the first two of which are sold by retailers at 25 cents for a box of 10 Collars, and, next to our Cloth Lined Goods, are the finest made.

To those who prefer the best goods, although costing a trifle more, we recommend our Cloth Lined Gollars, which we have made since 1858. and which have always commanded from the wholesale trade from \$10 to \$15 more per 1.000 than any other make. Our New Round Cornered Cloth Lined Collar (JUST OUT), as also styles M and K, we especially recommend. In thus publicly drawing attention to the sub-

ject of Poison in Enameled Paper Collars our

object is two fold, viz.: To caution those who

have been induced to wear Paper Collars on our representations, and to do justice to ourselves. who commenced the business, and introduced Paper Collars into general use in 1858, and are probably more largely interested in their universal use than any other parties in the trade. That no injury may be done to, or unfair advantage take over other manufacturers, who, like ourselves, have been striving to furnish customers with goods well and honestly made. we desire to say that the investigations made reveal the fact that probably not over 30 to 40 per cent. of the goods now offered for sale, conain Carbonate of Lead, or other injurious substances, and we doubt not that many other makes of goods are as harmices as ours, and that manufacturers of such Collars will cheerfully place themselves right on the record as regards their

If both wearers as well as dealers will insist upon proof of freedom from poisonous ingredients before buying Enameled Collars, the market will soon be rid of such goods, and the public as well as honest manufacturers alike benefited.
