wood's building, on California street. An army of laborers is at work to-day on the

others repaired. The vicinity of the wrecked bul dings is a busy scene.

The shock that occurred at 2.15 this morning caused additional damage to the injured buildings. Some chimneys of the different manufactories, which suffered considerably by the first shock, will now have to be demolished and re-

No definite estimate of the damage to pro perty can be made until a proper survey of the entire city is made. Some persons estimate the loss at \$300,000, and others as high as \$2,000.-000. The latter figure is probably nearest the true loss. A number of buildings will have to be torn down, reconstructed, or expensive repairs

The United States Sub-Treasury shipped secretly half a million of gold coin to Washington by yesterday's steamer, making a total shipment of \$8,000,060, since January 1st.

From Washington

WASHINGTON, Oct. 24.-Official information has been received at the office of the Light House Board that on and after the 10th inst. a light cently crected on Luciecia Point, on the northnte, and in clear, weather should be seen at a dislight at present exhibited will be discontinued. Under the new arrangement just concluded between the Post-office departments of the United States and of Prince Edward's Island, the single rate of nostage on international letters will be

reduced on and after the first of November, 1868, from ten to six cents, if prepaid at the office of multing in either country, but if posted unpaid or insufficiently prepaid, they will be subject to a postage charge of 10 cents per single rate, in the country of des-tination. The authorized weight of a single let-ter will be 15 grammes by the metrical scale in er will be 15 grammes by the metrical scale in

United States and half an ounce in Prince Edward's Island.

## THE DAILY EVENING BULLETIN --- PHILADELPHIA, SATURDAY, OUTOBER 24, 1868.

said last evening that the anxiety of Lord Stan-

ley and the British ministry to adjust this matter

order that they might present to the English people some successful diplomatic

negotiation before retiring from power, was not

to be concealed. The principle of referring this matter to the King of Prussia having been agreed

upon, there remains only an important point of

what sort of questions should be referred to the

arbiter. Diplomatic circles as well as Secretary

Seward are watching with great interest to see

whether the King of Prussia will decide that

England was wrong in its hasty recognition of the

is any lawful responsibility resting upon Eng-

and on account of the Alabama's depredations.

Department saying that this last difference had

dready been adjusted between Minister Johnson

and Lord Stanley in a satisfactory manner. The

English Minister is also in receipt of despatches

rom his government of a similar tenor. It is be-

lieved at the State Department that a full solu-

ion of all the differences between England and

he United States will be effected within the next

ware, clothing, and a gold watch and chain.

THE IRST MORTGAGE BONDS OF THE UNION PACIFIC AILROAD COMPANY. 850 Miles Completed.

A limited amount of the First Mortgage Bonds of the Union Pacific Railroad Company are offered to the pub-lic, as one of the safest and most profitable investments. 1. They are a first mortgage upon the longest and mo important railroad in the country. 2. By law they can be issued to the Company only as e road is completed, so that they always represent : real value.
3. Their amount is limited by act of Congress to Fifty Million Dollars on the entire Pacific line, or an average of

less than \$80,000 per mile. 4. Hon. E. D. Morgan, of the United States Senate, and Hon. Oakes Ames, of the United Blates House of Repre-sentatives, are the trustees for the bondholders, to see that all their interests are protocted. 5. Five Government Directors, appointed by the Presi-dent of the United States, are responsible to the country

rst class railway, before any bonds can be issued upon ; 7. The United States Government lends the Company its own bonds to the same amount that the company sues, for which it takes a second mortgage as second 8. As additional aid, it makes an absolute donation 2,800 acres of land to the mile, lying upon each side 9. The bonds pay six per cent, in sold, and the princ

is also payable in gold. 10. The earnings from the local or way business were over Four MILLION DOLLARS last year, which after pay-ing operating expenses, was much more than sufficient to pay the interest. These earnings will be vastly increased on the completion of the critice line in 1869. 12. No political action can reduce the rate of interest

It must remain for thirty years-six per cent, per annur in gold, now equal to between eight and nine per cent, in currency. The principal is then payable in gold. If s currency. The principal is then payable in gold. If a bond, with each guarantees, were issued by the Govern-ment, its market price would not be less than from 20 to 25 per cent, premium. As these bonds are issued under Government authority and supervision, upon what is very largely a Government work, they must ultimately approach Government prices. No other corporate bonds are node as every

13. The issue will soon be exhausted. The sales have sometimes been half a million a day, and nearly twent millions have already been sold. A bout ten millions mor may be offered. It is not improbable that at some tim not far distant, all the remainder of the bonds the Com pany can issue will be taken by some combination of capitalists and withdrawn from the market, except at a large advance. The long time, the high gold interest, and the perfect security, must make these bonds very valuable for export.

All the predictions which the officers of this Compan have made in relation to the progress and business success of their enterprise, or the value and advance in the price of their securities, have been more than confirmed, and or they therefore suggest that parties who desire to invest i they therefore suggest that parties who desire to invest i their bonds will find it to their advantage to do so at one. The price for the present is 102, and accrued interest a 6 per cent. in currency from July 1, 1663. Subscriptions will be received in Philadelphia by
