MEDICINAL.

OPAL DENTALLINA.—A SUPERIOR ARTICLE FOR cleaning the Teeth, destroying animalcula, which infect them; giving tone to the gume, and leaving a feeling of fragrance and perfect cleanliness in the mouth. It may be used daily, and will be found to strengthen weak and bleed ing gume, while the aroma and detersiveness will recommend it to every one. Being composed with the assistance of the Dentist, Physicians and Microscopiet, it is confidently offered as a rollable substitute for the uncertain washes formedly in vogue.

Eminent Dentists, acquainted with the constituents of the Dentallina, advacate its use; it contains nothing to prevent its unrestrained employment. Made only by JAMES T. 9HINN, Apothecary.
