ROBBING MARKET WAGONS .- Patrick Gallegher, aged 18 years, was arrested this morning at Twenty-third and Market streets, while in the at Twenty-third and Market streets, which is said to act of robbing a market wagon. • He is said to belong to a gang of youths who have been in the habit of committing depredations upon the wagons as they pass over the Market Street Bridge. He had a hearing before Alderman Jones and was held in \$800 bail to answer at

INTERFERING WITH THE ELECTION OFFICERS -William Kane was arrested yesterday, by Day Sergeant Jeffers, upon the charge of having interfered with the election officers. It is alleged that he was one of the party who broke in the window at the Sixth Division of the Fourth Ward, and drove away the Republican officers. He was taken before Alderman Morrow, and was held in \$2,000 bail for trial.

LARCENY OF A BUFFALO ROBE. A man who gave his name as Henry B. Shirk was overhauled by the police at Seventh and Shippen streets yesterday afternoon. He had under his arm a buffalo robe, of which he was unable to give a satisfactory account. He was committed for a further hearing by Alderman Bonsall, and the robe awalts an owner at the Seventeenth District Police Station.

ROBBING A FIRE ENGINE HOUSE.—Jesse Jones was arrested, yesterday, by Day-Sergeant Albright, upon the charge of having stolen blankets and other articles, to the value of \$200, from the house of the Northern Liberty Fire Company, on Pront street, below Green. He was taken before Alderman Toland and was held in \$800 bail to answer at Court.

THE TEMPERANCE MOVEMENT .- Another meeting of the friends of Temperance was held last evening at Rev. Dr. Shepperd's church. Addresses were made during the evening by Rev. Dr. Shepperd, Hiram Ward, Thos. M. Coleman and Mr. Lincoln. Since the commencement of these meetings over 800 persons have signed the temperance pledge.

A SPECIAL OPPORTUNITY .- A chance so unusual now exists to lay in a stock of dry goods, that every family will be likely to at once avail them cives of the opportunity. The splendid dry goods firm of Homer, Colladay & Co. are about to remove from No-818 and 820 Chestnut street to the palatial store in Chestnut street, above Broad. Very naturally, they propose to remove as little as possible of their existing stock. If there are enough bargain-lovers in Philadelphia to take it away, they won't remove any of it. Everything in the spacious premiees has had the price mark taken off, and the cost mark alone remains. At what rich dress goods cost at the New York and Philadelphia auctions by the package, ladies can now purchase a single dress. Homer, Colladay & Co. always kept a large stock, and at this moment, with figures cut down, the assortment of dress goods, house-keeping, shawls, cleaking cloths, embroideries, laces and hosiery, is one that would attract general attention to a new and palatial store. There is also in this stock an endless variety of medium goods, such as the masses want, and will cagerly take at the inviting reduction of prices which is now announced. The sale began yesterday. As in a few days the shelves are likely to be emptied, it will be well for every one to take the earliest hour of leisure to lay in a supply. It would be entirely superfluous to remark that Homer, Colladay & Co. rank in the fashionable retail trade in Philadelphia as Stewart & Arnold, Constable & Co. rank in New York.

IMPORTANT ITEM FOR LADIES -Our lady readers will all be interested in the announcement that the dress-making establishment formerly connected with the well known store of Mossrs. J. W. Proctor & Co., has been removed 'to new and more extensive rooms at No. 1014 Walmut street, where the business will be conducted as heretofore by Mrs. Proctor. This removal was demanded by the largely increased business of the establishment, which has grown to such dimensions that it required more room than could be spared in the old location. We need hardly speak in terms of commendation of the character of the work produced at this Magazine des Modes; its reputation is firmly established in this city, and is independent of praise. But we can assure everyone that now that its capacity is en'arged, it wil give even greater satisfaction to its customers than it has done in the past. We advise every lady who reads this paragraph to pay a visit to the new rooms. dress-making establishment formerly connected with

system of our own we promise to protect all from any
of the inconveniences of a large throng of people.

EIGHT MILES OF RUM SHOPS.—If the fiftyfive hundred drinking houses of New York city were arranged in a row, they would extend for a distance o arranged in a row, they would extend for a distance of eight miles. The elegant hotel bar-room, the "respectable" tavern, the "bucket-shop," and the "three-cent gin-mill." with their varied contributions to the horrors and depravities of the great city will be dwelt upon by Oliver Dyer, Esq., in his great lecture at Concert Hail, on Tuesday. November 10, at 8 P. M. Go and hear. Many miles of gin mills are there in Philadelphia. Mr. Dyer's statistics will probably enlighten this community.

THE REV. T. DE WITT TALMAGE will preach a sermon to Young Men to-morrow evening at his Church in Seventh street, above Brown. This will be the eccond of a course under the auspices of the Young Men's Christian Association. CITY NOTICES.

How to Heat and Ventilati Your Houses.

We would again urge upon our citizens the wisdom of paying due attention to the heating and ventilating of their dwellings. In public edifices the great necessity of this seems to be acknowledged. It is even more essential in private buildings. Up to this time science has produced nothing for healthful and effective heat and ventilation equal to Gold's Patent Low Steam and Hot Water Apparatus. manufactured and sold by and ventilation equal to Gold's Patent Low Steam and Hot Water Apparatus, manufactured and sold by Messrs. WILLIAM H. HELWEG.—Who has not heard of Helweg, the incomparable Boot Maker, at 535 Arch street? His fame as a manufacturer of the calf boots is proverbial. He never fails to fit his patrons neatly and comfortably, and moreover he uses the best material in his manufactures. Of Helweg it may be said that he has brought the business of boot-making to an art, so exact is he in his measurement, and so neat elegant and substantial in the making of his wares. Mr. Helweg confines his stock exclusively to men's and boys' wear, of which he has at all times a very large stock ready-made. He has also just opened a full assortment of gentlemen's parlor slippers, very suitable for presents.

To the Public.—Justice to my many friends and patrons in Philadelphia demands that I should thus publicly state that I am not any longer connected with the Colton Deutal Association of this city as their operator, but am operating in my own office, where I continue to make extracting eath without pain by Nitrous Oxide Gas my specialty. Most of the cminent dentists of the city send their cases of extracting teeth to me. Respectfully.

It is wonderful how cheap goods are sold at Gay's China Palace, 1022 Chestnut street. The stock was all selected by Mr. Gay in person from the largest manufacturies in Europe. The cause of their being so remarkably cheap is the great reduction of prices on the other side of the water. A PHILADELPHIA SEWING MACHINE.

A Philadelphia Sewing Machine.

Prior to the advent of that marvellous contrivance now so familiarly known as the American Combination Eutton hole and Seving Machine, this species of machinery was used chiefly in manufactures, and strong the well to-do, a class that could really best afford to do without them. Being adapted only to some special class of work in each case, it was necrestily debarred from entering the family circle, as a general thing (except among the more wealtry), on account of the too great cost for the limited range of work performed by any one machine. But comparatively lew felt that they could afford to invest so much in an article that could do sail-factorily only a portion of the staple sewing of the family, and hence we were, substantially, without a machine, among them all, of capacity to an-wer fully the requirements of the household. Fortuna cly for the community at large this difficulty has been overcome; this important desideratum supplied, at last, by that remarkable machine, the "American Combination," which so suddenly and unexpectedly made its appearance among its older but less-favored associates and competitors for public favor, and it soon became evident that all the old-fashioned instruments must give place to later inventions of more perfect mechanism. Thus it is; everything has its day, and individual interests must inevitably suffer if they are allowed to lag behind in the great march of improvement. The people are for propress.
