A Tug WANTED AT THE LAZARETTO.-There has been constant complaint from shipmasters and the merchants of the unnecessary detention and the merchants of the unnecessary detention of vessels at the Lazaretto by the Port Physician. This evil the Board of Health propose to abolish by purchasing a steam tug for the use of this official. The visiting ground (outside channel) is remote from the Lazaretto some two miles and a half, and cannot be reached by a six-oared barge in less than an hour and a half or two hours, when the wiad and tide is against them. During that time a number of vessels accumulate, which are compelled to cast anchor and await a visit by the slow mode now in use. In this way one, two or more hours are absorbed this way one, two or more hours are absorbed thereby, and vessels lose a tide and very frequently an entire day. The object in procuring a tug is that she may proceed down the river to the vicinity of Chester, board and visit vessels, whilst under weigh (without coming to anchor) and the procure of the vicinity of vi and then proceed to visit others, in turn, and without detention.

The Accident on the Union Pacific Railroad.

The Denver (Colorado) Tribune of the 4th inst. From Cheyenne exchanges and from passen-

gers, we gather the following particulars of the late dienster on the Union Pacific, which resulted in the death of one man (the fireman) and the demolition of a part of the train. Sometime during last Friday night, two rails and ties to which they were spiked, were taken out between Ogalalla and Big Springs. The rails are connected by straps of iron on each side and bolted so that all that is necessary is a wrench, to fit the bolt for their removal. Baturday morning the westall that is necessary is a wronch, to fit the bolt, for their removal. Saturday morning the western bound freight train was thrown from the track, the engine and a number of cars being totally wrecked and the fireman killed. An engine was despatched from North Platte to the relief of the distressed train. Upon approaching the scene of disaster obstructions were found placed on the track, and shortly after Indians were discovered attempting to cut off the engine, which

on the track, and shortly after Indians were dis-covered attempting to cut off the engine, which at that time was retreating to the next switch. The Indians were identified as Ogallala Sioux. The state of affairs being known, troops and other assistance were sent forward from North Platte, Sedgwick and Russell. The track was repaired and a bridge near Roscoe station re-built, and the train due at Cheyenne on Saturday evening arrived there on Monday morning at 10 o'clock.

#### REVOLUTION

In the DRY GOODS TRADE has been caused by the inauguration of the "FAIR VALUE FOR MONEY" system adopted by the "BEE HIVE." Old Stocks of dear-bought goods are reduced to "ONE-HALF THEIR FORMER PRICES," and are still "TOO DEAR BY HALF."

The "BEE-HIVE" does not require to REDUCE prices-their Stock, ALL NEW-BOUGHT AT THE BOTTOM OF THE MARKET-and SOLD AT FAIR PROFITS—outranks the supposititious bargains fulsomely promised by "GRAND SALES" and "IMPORTANT NOTICES."

The "BEE-HIVE" is now offering bona fide bargains in all their departments-no catchpenny trifles to mislead-but a pure and unequivocal moderation in prices-in other words, "FAIR VALUE FOR MONEY" will be tound to pervade all the stock.
