SABBATH-SCHOOL ANNIVERSARY: - The first auniversary meeting of the Sabbath-School connected with the Bethesda Presbyterian Church nected with the Bethesda Presbyterian Church was held yesterday afternoon, in Friendship Hall, their present place of worship. The Bethesda Presbyterian Church is a colony emanating from the First Presbyterian Church, Kensington (Rev. George Chandler's old church). This church left the mother church one year ago with about one hundred and ninety persons. A Sabbath-School was formed with about one hundred and eighty pupils and thirty-four teachers. The congregation connected with this church, of which the Rev. William T. Eva is pastor, is engaged in putting up a handsome stone editice at the corner of Frankford avenue and Vienna street, capable of holding from 1,000 to 1,200 persons. Taey have added to their number since their organization, upon profession of faith and by certificate, about sixty persons.

added to their number since their organization, upon profession of faith and by certificate, about sixty persons.

The anniversary exercises were of an exceedingly interesting character. Their large hall was crowded to its utmost capacity, many going away, unable to be accommodated with seats. The school numbers four hundred and twenty-nine pupils, with thirty-nine teachers. An interesting Bible class is also connected with the school, numbering about seventy persons, male and female. The sum of three hundred and eighteen dollars was raised by the school during the past year; one hundred and fifty dollars was given to the American Sunday School Union and one hundred and fifty dollars was given to the American Sunday School Union and one hundred and fifty dollars to the American Board of Home alissions. The exercises were commenced by singing an appropriate hymn, followed by interesting addresses by the pastor; Rev. Mr. Hutter, on behalf of the American Roard of Home Missions; Rev. Mr. Godfrey, on behalf of the American Sunday School Union; Rev. Mr. Lewis, a missionary from Red Wing, Minnesota, and Rov. Mr. Beale, of the First Prosbyterian Church, Kensington, The music was exceedingly good; the organ was under the direction of Mr. Woodruff, and the children were led in singing by Mr. Hugh J. Laird. One very interesting feature was the singing by the infant class, composed of sixty-line infants, under the instruction of Miss Anna S. Hubbard. Everything passed off pleasantly, and the large company dispersed well pleased with the exercises of the afternoon.

The vehicle was followed to Second and Pine streets, and was then overtaken. It was found to contain three barrels of whisky, upon which no tax had been paid. The two men were arrested. Their names are John McGovern and Felix O'Toole. They were held to await a hearing before the U.S. Commissioner.

A SUNDAY FIGHT. - Wm. Jones and Robert Walnut streets, yesterday afternoon, about four o'clock. The affair caused considerable commotion for a short time. The belligerents were chased to Eighth and Spruce streets by Reserve Policemen Ferguson and Kendig, and were then arrested. They were held in \$500 ball by Alder-

DROWNED.—Jacob Wagner, aged about 35 years, went to Market street wharf last evening, to meet his wife, who was expected to arrive in one of the Richmond steamships. While there he accidentally fell into the dock and was drowned. His body was recovered this morning by Harbor Policeman Wm. J. Brown and the slip-tender at the Market street ferry.

THE METEORIC SHOWER.

The Meteors from Dudley Observatory, Albany.

Mr. C. W. Hough makes the following reports, plated November 14.

Mr. C. W. Hough makes the following reports, plated November 14.

Observations on the periodic meteors made at the Dudley Observatory from 11:30 P. M. of the 13th, to 5:30 A. M., of the 14th inst. Our efforts were mainly directed to the determination of the rate of fall and the time of flight. From 11:35 to 12 oclock the rate of fall was only two per minute, they, however, gradually increased in frequency, according a maximum of twelve per minute at 5 oclock. The whole number of meteors visible between 11:30 P. M. and 5:30 A. M. most have exceeded two thousand.

During the meteoric shower of last November, the time of maximum iall securred about half an hour earlier, and the rate of fall was four times as great; yet the number of meteors seen during the night did not exceed those of this year.

The time of flight, of more than one hundred meteors, was recorded by electricity on the chronograph, in the manner adopted in 1863. The maximum of appearance was eight-tenths of a second, and the minimum three-tenths, the mean being about sixty-five hundredths of a second, not differing materially from the same quantities deduced from the observations of 1863.

One of the most interesting features of the phenome.

the same quantities deduced from the observations of 1863.
One of the most interesting features of the phenomena was the permanence of the train after the meteor had disappeared. Advantage was taken of this circumstance to examine the train with a telescope. As seen through one comet-seeker, the train appeared as a brilliant gray band of light, which gradually changed its form, assuming a great variety of shapes before it disappeared. In general, the train first became bent like a piece of expendine braid, after which it gradually separated in different pieces. Through the telescope the train was visible for more than ten minutes.

—The leopard and the tiger and the lion and the fire reminded the *Inquirer's* young man of a Western prairie. A natural history of America is wanted there badly.
