figure which produced the utmost consternation, if it has not so affected some houses as to create apprehensions for their stability. Two failures are reported already, and two or three more are whispered on the street. One failure was of a small stock-broking firm, doing business on the "wild-cat" system of very small margins. Their bankruptcy has embarrassed one of the members of the open board, who was indirectly connected with them. Stocks were bought in for him under the rule, but the insolvency is not as yet asserted. The cause of the failure was a "short" venture in New York Central. The alliance, although eminently successful in he alliance, although eminently successful in dvancing Eric, was not so successful with North

western, which remained stubborn in the vicin ity of 85 to 87. The impetus given to Eric reached the rest of the stock list at the session of the first open board at 10 o'clock, the transactions embra-cing about 80,000 shares, nearly one-half of which cing about 80,000 shares, nearly one-half of which were Erie. The dealings in New York Central and Erie together constituted one-half of the business of the session if not of the whole day. The "bulls," who benefited so largely by the change of tactics on the part of their late opponents, the great bear clique, were jubilant in the extreme. From the fact that no new contracts for "short" release of Erie were not forth during the From the fact that no new contracts for "short" sales of Erie were put forth during the day it is evident that the combination are "long" of the stock again at the declined prices of the afternoon, or intend abandoning it for the present.

The feeling in the gold room was hardly less excited than in the stock market over a "squeeze" to tell, but when he awoke, he alleges the lamps in the car were turned down very low, and every passenger appeared to be asleep. He afterwards ascertained that the train was at Greensburg, and after feeling in his pocket and satisfying himself that his book was all right, again fixed himself for another nap. He would have asked the meaning of the lamps being turned excited than in the stock market over a "squeeze" produced by a "locking up" of gold by the same perties, as far as can be ascertained, who so successfully tied up currency a month ago. It seems to be the same kind of strategy transferred to a different field of operations. They began last Friday to buy and put away gold, just at the time, it will be remembered, that new threats of locking up greenbacks broke the stock market, and gold was cheapest. The first effect of this withdrawal was felt on Saturday, when the price hardened and closed at the highest figure of the week. Gold opened on the street at 18654 before the received. week. Gold opened on the street at 136½, with sales as high as 136½ before the regular commencement of business. It opened in the room at 135½, and an attempt to "unload" at this figure ran down the price so suddenly that the parties in control discontinued selling, which they could well afford to do, as the premium was still one per cent. better than when they bought, while for the cash metal they were obtaining interest at rates varying from one-eighth, to three-

terest at rates varying from one-eighth to three-fourths of one per cent. per diem. The effect of money. this strategy was witnessed in the subsequent rise of the premium during the afternoon until it touched 87, the highest point it attained during

To the Editor of the New York Tribune: Sir—On my return home from the session of Nov.-10, I find nearly a hundred Democratic papers from all sections of the Union, sent me by friends, containing a vile and scurrilous speech against foreigners, said to have been delivered by me in 1854 or 1855, and which appears to have been published, simultaneously and by concert, North and South, East and West, in the closing weeks of the recent canvass.

I need not refer to this wicked and malignant libel, now that the election is over, were it not that, having been so extensively published, from Maine to Nebraska, and vouched for as authentic by editors who were supposed to value their cha-

racter for veracity, some honest persons of one party or the other, whose good opinions I value, might suppose it possibly true.

Allow me, therefore, to say, as I did publicly in this state last month, when this calminy against me first appeared, that it is, in every word and syllable, a forgery; that I never uttered such sentiments in 1854, nor in any other year, and that the vulgar and scurritons language embodied in it Lever fell from my lips, nor were written by my pen, in that or any other connection, on that or any other theme.

A Forgery Branded,

To the Editor of the New York Tribune: Sir—On my return home from the seasion of Nov.-10, PHILA DELPHIA, Tucsday, Nov. 17.-Money is easier to

day than for some time past, and offcinable on much more favorable terms than last west. The official statement of the banks made public to day shows that these ment of the banks made public (2,day shows that these institutions are curtailing their discounts. The loans have been contracted \$654,167, a decrease of \$1,500,000 in two weeks. The legal tenders show a falling off of \$658,653, a total decrease for two weeks of \$1,33,050. The deposits for the two weeks show a decrease of upwards of \$2,000,000. This statement abows that the banks have greatly increased their strength and it is highly probable in the tuture, will be able to extend greater accommodations to the merantile clares. The largest borrowers at this time are the professional stock jobbers and gold manipulators, who demand large discounts to prevent many of them from going over. The failure of several brokers in New York has caused distruct in the
