the collector and twelve by the Surveyor, on the order of the Secretary, and no nominations are made to fill vacancies. An interesting predicament will occur on pay-day. The accounts of the inspectors require to be countersigned by the two officers, and the cashier has no authority to pay any that are not so avouched. The Collector will no doubt refuse to sign those of the men whom he had dismissed, and the Surveyor will refuse to approve those of the men he has assumed the responsibility of dispensing with. How the affair will finally be terminated remains yet to be seen. Collector Cake is unquestionably right in the position which he has taken, and the officials at Washington evidently think so, as nothing on the subject has been heard from the Department since Cellector Cake despatched his letter to the Sccretary.
