PHILADELPHIA, UDBRIANIUWN AND NORRIF-TOWN RAILROAD .- The unnual report of the managers of this company has been received. The receipts for passengers and freight during the year ending Sept. 30, 1868, amounted to \$622,042.48, an excess of \$23 993 33 over the previous year. From the ordinary receipts of the company, after the payment of all expenses for operating the road, maintenance of motive power, &c., two dividends of five per cent, each were declared, leaving a balance of \$92,252 18 carried to the credit of contingent account. The convertible loan of the company has been reduced \$53,150 by conversion into stock, and the debt of the company is now \$62,950.

The new Machine and Workshops at the north-west corner of Ninth and Green streets have been completed, and all the machinery required for constructing and repairing cars placed therein. The work in those shops is done economically and satisfactorily. Two station-houses have been constructed and are in use, one near Columbia avenue, the other at Nicotown. The roadway and rolling-stock of the Company are in good condition. Three new locomotive engines have been purchased, paid for and placed on the road during the year. managers of this company has been received

condition. Three new locomotive engines have been nurchased, paid for and placed on the road during the year.

The Figmouth Rallroad Company, whose road formerly connected with the Norristown Branch of this Company, at Conshohocken, had its charter revived by an act of the Legislature. Your Managers deemed the essential for your interests that the road of that Company should be controlled and operated by this Company. Last winter the Plymouth Raliroad Company was reorganized, and the Board of Munagers elected is entirely catisfactory to your Board. To secure the lenders of money to, and the holders of Certificates of Loan, issued by that Company, the Legislature authorized it to mortgage the road, property and franchises of the corporation. To aid that Company in the reconstruction of its road your Board agreed to advance, from time to time, as the money should be required, such sums as the engineers of the two companies should certify as the cost of the work done. That road will soon be rebuilt and in operation. It is deemed a very important connection, securing the trade at and near Conshohocken, and which will add materially to the amount of freight to be transported over the Philadelphia, Germantown and Norristown Rali-road.

on Sunday evening in the church corner Nineteenth and Green streets, under the ausplees of the American Bible Society, American Tract Society and American and Foreign Christian Union. Rev. J. N. Torrence opened with reading the Scripture and prayer.

Rev. Dr. Cuuningham followed, urging the people to take heed of the "signs of the times," as seen in the remarkable opening for the evangelization of Spsin, and to follow in a line of duty so plainly indicated by Providence.

Rev. C. M. Butler, D. D., of the Episcopal Church, was the next speaker. He dwelt with great force on the history of the first reformation in Spain, the number and devotedness of its early Protestants, and the terrible persecutions of the Inquisition, which almost exterminated every vestige of truth, and yet a remnant has remained Inquisition, which almost exterminated every vestige of truth, and yet a remnant has remained who have secretly nurtured a church that is now ready to carry forward the work. The services and sufferings of Spanish Evangelists of the present century were portrayed with great pathos. He closed by appealing earnestly to the Christian public to lose no time in occupying the field, the uncertainties of political changes being such that the door may be shut at occupying the field, the intestinates to postate changes being such that the door may be shut at any moment, or the banished Jesuits, despairing of acquiring power under the present government, might, as they have done before, inaugurate anarchy, from which they would hope for a reaction that would again carry them into

Rev. Dr. Hayes, of the Congregational Church, Rev. Dr. Hayes, of the Congregational Church, followed. He reviewed the decline of Spain in its moral and political aspects, and its present wants and necessities. The only remedy for its degradation must be found in the Bible and such other books as are now ready to be sent forward by the above societies. He stated that a merchant from New York walking in the streets of Medrid. by the above societies. System adopted by "THE BEE HIVE."

Old Stocks of dearbought goods are reduced to "ONE-HALL THEIR FORMER PRICES," and are still "TOO by AR BY "ALE."

"The "BEE HIVE" is now offering bons fide bargains in all their departments—no catch penny tiffes, to mislead—but a pure and unequivocal moderation in orices. In other words, "Fair Value FOR MONEY" will be tound to pervade all the stock.
