.

TO BENT.

Lord Byron was sucking Shelley's brans, and deriving from him those suggestions which gave their peculiar color to some of his later poems. "Heaven and Earth" would have been a very different poem but for Shelley, if it had ever been written at all. The glimpses we get of the man in Shelley's letters are very interesting. "Mat 3 o'clock I called on Lozid Byron; he sondola across the laguana to a long, sandy island, which defends Venice from the Adriatic. When we disembarked we found his horses waiting for us, and we rode along the sands of the sea, talking. Our conversa-tion consisted in histories of this measure will be regreted about with the cofflia of his anot to solve a merchant Tailor Trade Casembarked worker; his sight, hearing and general health are excellent; he is now a widower, having had two wives and ten children. **Antique Equipages.** A letter from Madrid says; "The whole of the Garriages and harness left in the stables' of the Royal Palace of Madrid are to be sold by public auction. This measure will be regretted by antiquary island, which defends Venice from the fasher, Two Class and we rode along the sands of the sea, talking. Our conversa-tion consisted in histories of this measure with the profile of the sand the bid the same traveled about with the cofflia of his father. The French, in spite of the intravelet and boys wery to which we invite the atter function of the code and the bid their many revolutions, have preserved the antique guinesses of their him bid the profile of the antique guinesses of their him with the cofflia of his father. The French, in spite of the antique guinesses of their him bid the same traveled about with the cofflia of his father. The French, his prime the father heat the same traveled about with the cofflia of his father. The French, his prime the father heat the same traveled about with the cofflia of his father. The French, his prime the father heat the father heat the father heat the father heat the historis and theat the histories of the heat heat heat heat h
