Buchu, as prepared by Druggists generally, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredient The Buchu in my preparation predominates: the smalles quantity of the other ingredients are added, o preven ermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopæa, nor is it a Syrupand therefore can be used in cases where fever or inflam mation exists. In this, you have the knowledge of th gredients and the mode of preparation.

Allow me to call your attention to my PREPARATION
