LATEST FROM WASHINGTON

SENATOR MORTON'S COIN BILL

By the Atlantic Cable.

London, Dec. 14th.—The telegraphic correspondent of the Daily News of this morning says: "The peaceful termination of the insurrection in Cadix is entirely attributable to the good offices of R. F. Farrell, the American Consul in that city."

MADRID, Dec. 15.—Political affairs are in an unsettled condition, both here and throughout the country. There is great distress among the poor of Madrid, and trade of every kind is almost at a standstill. Many people are leaving the city, fearing new troubles.

The Government has commenced prosecutions against several journals of this city, for publishing articles against the Cadix insurrection. Gen. Dulce has sent to Cadix by express a dispatch from that port, to-morrow, for Havana, to assume the duties of Captain-General of Cuba, vice Lerundel removed.

The Correspondencia of to-day denies that there is any truth in the story of a projected coup d'etat in favor of the Duke of Montpensier at Cadix. The Duke on reading Congress, found that the affair at Cadix was in the interest of the Democrats, and that it had been suppressed by the Government, and he therefore voluntarily returned to Lisbon.

On motion, Mr. Ferry the Senate took from the table the bill introduced by Mr. Stewart yesterday, to punish the crime of holding office in violation of the fourth constitution of the United States, and moved for its adjournment.

Mr. Stewart argued in favor of the bill. While anxious to remove disabilities, he still thought it should be reciprocally on the part of those to be benefited.

Mr. Wilson's bill to repeal the prohibition of Mr. Wilson's bill was further continued by Mr. Edmunds moved to amend by contending the prohibition as regards Mississippi and Texas.

Mr. Garfield, in the absence of Mr. Dodge, who had charge of the bill, explained and advocated its provisions.

The smallest forest horse ever seen was lately found by Professor O. C. Marsh, of Yale College, in the tertiary deposits of Nebraska. Although full grown, as the bones prove, it was only about two feet high. This makes seventeen species of forest horse now known to have lived in North America.
