PHILADELPHIA SKATING RINK .-- Another mam-Philadelphia Skating Rink.—Another mammoth skating rink is now in course of erection. It is leasted upon a very desirable lot at the S. E. corner of Twenty-tirrt and Race streets, having a front of 189 feet on Race street, and extending in depth about 800 feet on the street, and extending in depth about 800 feet on the street of the building is to cover an area of 40.50s square feet, and will be handsomely decorated and furnished with comfortably warmed and complebily ventiated dressing and reception-rooms, and capacious accommodation for spectators, while the Rink proper, covered with tee carefully swept, and calculated to last, from the lowest estimate, ninety days in perfection during the 8kming Season, is the first and chief object in view. A peculiarity in the crection of this building is a novel and perfect mode of ventilation, by which the ice is proserved in smoothness, and kept perfectly hard and dry both day and night, whatever the state of the executed at thosphere.

dry both day and night, whatever the state of the ex-ternal strussphere.

During the summer months the pavillon is to be used for bertfultural shows, promenade concerts and public meetings, accommodating comfortably 15,000 persons. It is expected that the new rink will be thrown open-to the public about the let of January, and its eligible location facures it, complete success.

The preject is out to a number of enterprising citizens, who have formed a joint stock company under the title of "Philadelphia Sketing Rink Association," the stock comprising 1 500 shares at \$50 each.
