The greatest advantage of the Iverytype over every other method is te durability, being impervious to water of air. The paper being prepared and comented on plate glass, the colors cannot possibly fade, and have all the beauty and appearance of the finest ivery painting. They can be either taken from lide. Dagnerrotypes or Ambrotypes. When not taken from lide it is necessary to give the color of the eye, hair, and general complexion. Exocuted in the very best style of art.

WASHINGTON, D. C. November 20th, 1868.
To the Bottm and Philadelphia Salf Fish Company:
I have thoroughly exemined the Letters Patent granted to William D. Cutler, of Philadelphia, September 8th, 1868, for an improved method of preparing, desiccating and preserving fish, with the following result:
The claims in Outler's patent cover—first, the boned and desiccated fish as a new manufacture or communcial article; and, second, the process described in the specification by which that new article is prepared. In my or information, these are valid and sufficient claims.
The first claims secures to the inventor boned and desiccated fish, see a new article of manufacture or commerce, by whatever process it may be groduced. Other processes than that claimed by Gutler may be devised, and may perhaps, be new and p-tentable; but the discover of such new recess annot put the article into the marky and service that the process and selection of such isfringement; and be liable to damages to the extent of such isfringement; and to produce this new article by an old process applied to other things would be equally an infringement of Cutler's patent.

I have no doubt the article and the process claimed in Cutler's patent are now and patentable, and the patent sufficient for their protection.

DIGKSTIVE LOZENGES OF THE ALKALINE LACTATES.

The Alkaline Lactates exercise the most beneficial influence over the derangements of digestion, either by
their peculiar action on the mucous membrane of the
stomach, or by affording to the latter, through their combination with the saliva to the gastric juice, a supply of
lactic acid, which all English, French, and other obvellogists admit to be an essential principle of, digestion.
For the information of those who may be without medical advice, it may be stated here that the symptoms of
impaired digestion are—Headache, pain in the forchead,
hemicrania, gastritis, gastraigis, heartburn, wind in the
stomach and bowels, loss of appetite, emaciation, &c.

The foregoing is in a nutshell the basis of settlement of the Alabama claims.

The substance of the treaty as to the rights of naturalized citizens of the United States has here tofore been given in these despatches.

But it may now be repeated briefly by saying, "that England abandoned the long-maintained proposition once a subject always a subject," and concedes to natives of her soil who have become citizens of the United States the same rights and privileges as are accorded to native-born citizens.

Washington, Jan. 16.—Another attempt will
be made in the House on Monday to get the resolation through investigating the contract with
Wells, Fargo & Co. The Post Office ring, which
is very powerful, will oppose this, and, if possible, secure its defeat. There are very
unpleasant rumors affoat connected with
the names of certain Republican Congressmen
who have shielded the Post Office Department
from all attempts to investigate the frauds there,
which have caused no little talk. A resolution is
also to be introduced, calling upon the Committee The neglect of the American and English Ministers, at Madrid, to arrange a reciprocity treaty concerning tonusge dues which Spain conceded in June last to all nations, and the advantage of which read to research to the services of the ser ceded in June last to all nations, and the advan-tages of which are at present enjoyed by all ex-cepting American and English vessels, causes American ships at Havana an additional expense of \$1 per ton, thus injuring American commerce. which have caused no little talk. A resolution is also to be introduced, calling upon the Committee on Expenditures in the Post Office Department, to report why they have never examined into and reported to the House as to the truth of the sworn testimony taken before the Select Committee on Railroads over a year ago, that Post Office officials were paid large sums of money to increase, the pay of a mail service over certain railroads.

The case of Samuel Holt, charged with the murder of
chitatopher Byrner, was commenced yesterday aftermoon. It was sleged on behalf of the Commonwealth
that on the night of Oct. 18th last, Christopher and Edward Byrnes were in a taven at Fourth and
Modroe, when Holt, Polick and others entered. Christopher Byrnes proposed three
cheers for the Niagara Hore, whereupon he and his brother were assaulted with black jacks, and then when the
two brothers endeavored to get out they were shot,
Christopher Byrnes receiving a wound in the breast,
which caused death in ashort time. It was alleged that
Helt had a pistol and discharged it; it was also alleged
that after the shooting Holt made the exclamation. "I
have put two of the —— out of the way."
A large number of witnesses were examined in support
of these allegations and the Commonwealth's case had
not concluded when our report closed.
