

CITY BULLETIN.

INCENDIARIES AT WORK.—Last evening, about half-past nine o'clock, the engine shed at the extensive lumber yard of Williams & Stokes, at Twenty-first and Race streets, was destroyed by somebody who piled up a lot of shingles, got some straw from the stable and built a fire. The flames were discovered by Policeman Land, of the Sixth District, and Chief Engineer George A. Allen, of the Good Will Fire Company, who were standing on the corner. The fire was extinguished before any damage had been done.

About half-past 11 o'clock a large three-storyed brick building known as "Coleman's shop," at Twenty-first and Cathart streets, was set on fire in the rear of the first story, and the entire building was pretty well burned out. The occupants of the building were Jas. Arrattage, painter; Alexander Ager, stair-builder; David Phillips, cooper; and Harris & Co., carpenters and builders. They all lost their tools and stock. The total loss will probably reach several thousand dollars.

Shortly before twelve o'clock a fire was discovered in the store of Emley & Co., dealers in second-hand furniture, on Second street, above Nineteenth. The premises were fired in the rear, which was reached from a coal-yard. The fire only occupied a portion of the building, and the store was confined to their department. The loss was not serious.

About midnight another attempt was made to fire the lumber yard of Williams & Stokes, at Twenty-first and Race streets. For the first time one of the carters had been placed on duty as watchman. He was away for a few minutes, and during his absence some incendiary scaled the fence and started a fire in the stable. Fortunately the flames were discovered and extinguished before they had made any progress.

These operations of incendiaries were brought to the attention of the Mayor this morning, and under his instructions the police are making the most strenuous exertions to ferret out the perpetrators of the acts.

THE PHILADELPHIA SKATING RINK.—The Mammoth Skating Rink, Twenty-first and Race streets, was last night the scene of unusual festivity and enjoyment. The managers took advantage of the cold snap on Monday evening and yesterday, and had a good field of ice. Although notice was given rather late in the day, there was a large crowd in attendance. The building is now entirely finished. It is an ornament to the city, and reflects great credit on those under whose supervision it was built. A very pleasing sight were the graceful, intricate and daring evolutions of the Meagher brothers last night. Every movement is done with utmost grace, ease and precision. They are certainly perfection in the skatorial art. If perfection is attainable in anything, the brilliant light, beauty of the building, and music added greatly to the effect of the exhibition. All the conveniences of a ball-room seem to be combined in this "skatorial palace." It looked like a fairy sketch to see the pretty ladies in their elegant costumes, in all the colors of the rainbow, gliding over the glass-like surface, while many of their friends of the sterner sex seemed determined to try something "à la Meagher." They did, but, poor fellows, they labored under many disadvantages—their skates were "not exactly the thing," &c. &c. Some were very ambitious, but as soon as they found, by the hearty laughs and clapping of hands of the spectators, that their endeavors were appreciated, they stood on their dignity (had to get up to do it) and quietly went their way.

THE SUPPRESSION OF CORNER LOUNGING.—Heretofore a source of continual complaint from citizens has been that boys and half-grown young men are in the habit of congregating at street corners nightly, and in front of places of public worship on the Sabbath, using profane and indecent language, insulting females and obstructing the sidewalks. This practice has become an intolerable nuisance, and his Honor, the Mayor, having determined to suppress it, has issued an order to the force making it imperative on his officers to arrest all such persons and deal with them as the law directs. The effect of this order was seen in the streets on Monday and Tuesday mornings. The arrests for corner-louning numbering twenty-three.

A FREE RIDE.—James Lynch undertook to get a free ride yesterday afternoon, and succeeded. He was passing Fifth and Walnut streets, and observed Mr. Thos. E. Cahill's horse and carriage standing in front of his office. He forthwith got into the carriage and drove off. He started on an extended tour and finally reached Twenty-fifth and Pine streets. There Policeman Corrie, of the Fifth District, recognized the team as that belonging to Mr. Cahill. Lynch was then arrested. He was arraigned before Ald. Kerr, and declared that he did not mean to steal the horse and wagon, but he wanted to take a ride. The magistrate told him that he would give him a chance to take another ride, and he consigned him to the care of the driver of the prison van.

ATTEMPTED ROBBERY.—An attempt was made to break into the clothing store of Solomon Simons, South street, above Eighth, last night. The thieves were discovered and frightened off by parties residing in the neighborhood. Last evening, about nine o'clock, a brick window of the house of James D. Campbell, No. 759 South Ninth street, was pried open with a jimmy. The burglars did not get into the house, however.

LARCENY.—Two negroes, named George Smith and John Thomas, were arrested last night by Policeman Pearson, of the Third District, upon the charge of the larceny of a bag of coffee from the store of F. McBride & Co., at Front and Gothic streets. They were taken to the Alderman Carpenter, and were committed to answer.

CHURKLE TO ANIMALS.—Jacob Fogle, a caterer, was arrested yesterday afternoon, at Ninth and Chestnut streets, upon the charge of cruelty to animals. He had a heavy load on his cart, and was beating his horse. He was taken before Alderman Bidler, who imposed the usual fine upon him.

LARCENY OF HARNESSES.—Michael O'Brien was arrested yesterday in the Twenty-fifth Ward, by Policeman Nestor, upon the charge of the larceny of a set of harness which he had in a bag on his shoulder. He was committed by Ald. Nestor.

BALLS.—A complimentary ball to Washington Camp No. 1, Junior Sons of America, will be given this evening at Washington Hall, Eighth and Spring Garden streets.

The grand military and citizens' dress ball of Company H, National Guards, will come off this evening at National Guards' Hall. Those who participate will, no doubt, have a very pleasant time.

TURKISH BATHS.—The man or woman who has never taken a Turkish Bath has fallen to enjoy some of the most delicious sensations the human body is capable of receiving, and has also probably neglected something which may prove of great advantage to his or her health.

The bath is something that is but slightly understood here, there being but one establishment in the vicinity of this city, the private one of Dr. George St. Louis, at his residence in Chestnut Castle Hundred. Still, Wilmingtonians need not be debarred from the enjoyment of this beautiful luxury, as in Philadelphia they can find one of the most complete establishments in the country. We refer to that of Dr. Wilson, No. 1109 Girard street, between Market and Chestnut, and Eleventh and Twelfth streets.

We cannot give our readers a better idea of a Turkish Bath than by describing this establishment, the practical benefits of which it is recently our fortune to experience.

Entering the reception-room, which is fitted up in oriental fashion, the bather is invited to a curtained stall, where he divests himself of his clothing and wraps around him a linen cloth. This attire he passes through a pair of beautiful stained glass folding doors into the warm room where, after having the head wet, he takes a seat on an easy cane chair, covered with clean linen for each bather.

In the part of the room where the first sit the temperature is at about 130 degrees, but after the bather has become accustomed to this he is given a place nearer the heater, where the temperature is from 140 to 150 degrees. Even a higher degree of heat is not unpleasant. By this time he is perspiring freely and the skin becomes soft and moist. Having remained here long enough, the bather is invited to the shampooing room, where, after a slight preliminary sprinkling with warm water, he lies down on a marble slab and the attendant rubs him with his hands, rubbing off every particle of scurf or dry skin and giving great relief to neuralgic or rheumatic people.

This the whole body is shampooed with delicately perfumed soap, then the head, and after a careful washing down, with first warm, then tepid, then cold water, the bather is rubbed off liberally with a towel, then enveloped with a large towel and taken back to the reception room, and with a blanket thrown over him he lolls in easy languor until completely dry and gradually cooled off, after which any dresses with a sense of having been washed do not matter on the surface, but through and through. Edwin Forrest, the tragedian, who has tried this bath, says: "The man who has not taken a Turkish Bath has never reached the moral dignity of being personally clean."

Up stairs there is a beautifully arranged ladies' bath, so arranged as to give each lady an opportunity of passing through the bath without being seen by any of her fellow-bathers, or any one else than the female shampooer. All the appointments of these apartments are of the most luxurious and elegant character, and each dressing room is furnished with an elegant lounge, to be used while resting after the bath.

Many of the most eminent physicians of Philadelphia use Dr. Wilson's bath, and recommend it to their patients who suffer from rheumatism, the writer can testify to its efficacy in completely curing a miserable headache, the result of running about with cold, wet feet.—Wilmington Daily Commercial.

TO PHYSICIANS. HELMBOLD'S FLUID EXTRACT BUCHU.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The compound parts are BUCHU, LONG LEAF, CUBEBES, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gum. Cubebes extracted by displacement by liquor obtained from Juniper Berries, containing very little sugar, a small proportion of spirit, and more palatable than any now in use. The active properties are by this mode extracted.

Buchu, as prepared by Druggists generally, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients.

The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopoea, nor is it a Syrup, and therefore can be used in cases where fever or inflammation exists. In this you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation.

With a feeling of confidence, I am, very respectfully, H. T. HELMBOLD, Chemist and Druggist of 16 Years' Experience in Philadelphia, and now located at his Drug and Chemical Warehouse, 524 Broadway, New York.

HELMBOLD'S FLUID EXTRACT BUCHU, for weakness arising from Indiscretion. The exhausted powers of Nature, which are accompanied by so many alarming symptoms, among which will be found Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or Forebodings of Evil, in fact, Universal Languor, Prostration, and inability to enter into the enjoyments of society.

The Constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or Insanity ensues.

HELMBOLD'S FLUID EXTRACT BUCHU, in affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Scirrhus State of the Uterus, and all complaints incident to the sex, whether arising from habits of dissipation, Imprudence, &c., or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSA WASH will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely suppressing those unpleasant and dangerous remedies, Copalva and Mercury, in all these diseases.

Use HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in the male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once. The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic. Sold by Druggists everywhere. Price—\$1.25 per bottle, or 6 bottles for \$8.00. Delivered to any address. Describe symptoms in all communications.

Address, Medical Dept., 104 S. Tenth street, Philadelphia. Drug and Chemical Warehouse, 691 Broadway, N. Y. None are genuine unless done up in steel-engraved wrapper, with facsimile of my Chemical Warehouse, and signed H. T. HELMBOLD.
