\$1,080,354 00 These charities have been not only liberally, but wisely bestowed and expended. The warious institutions which have been reared as monuments to the humanity of the people of Pennsylvania have been, almost withou exception, most admirably managed, and the work which they accomplish in reforming, correcting and preventing crime, and in alleviating and ministering to human suffering, cannot be estimated. Under the systematic supervision of such a Board of Charities as it and now proposed to establish, their efficiency will be greatly promoted, and proportionate memlts, in increased good to the whole community, may be reasonably expected.

LATER FROM WASHINGTON The New Amendment GENERAL GRANT IN FAVOR OF He Urges Its Immediate Passage HAYTI AND ST. DOMINGO The Annexation Scheme Not Abandoned

General Grant on Universal Suffrage. prominent Senator this A. M., General Grant said he hoped there would be no delay on the part of the Benate in passing the suffrage amendment to the Constitution which was passed by the House on Saturday last, and he expressed fears that if the Senate made any modification whatever in the House amendment, that the subject would be thrown over into the next Congress, and this he would regard as being almost fatal to the proposition. General Grant urged therefore that the amendment, as passed by the House should be passed by the Senate at as early a day as possible. Havii and san Domingo.

(Special Despatch to the Philadelphia Evening Bulletin 1-Washington, Feb. 2.—The Committee on Foreign Relations intend to call up the subject of the annexation of Hayti and San Domingo again to the attention of the House, being satisfied that its importance has not been fally understood. Gen. Banks is confident as to the final passage of the resolution. Senator Grimes does not intend to call up his bill on the organization of the navy for many days to come. He said this afternoon that there was but little chance of the passage of the bill, as nearly every Senator was an-tagonistic to it. If passed it would save \$800,000 a year. Senator Wilson introduced a bill to-day, which has Gen. Grant's approval authorizing the Secretary of War to consolidate depleted infantry regiments.

Mr. Orton, President of the Western Union
Telegraph Company, was before the Postal Committee again this morning, making an argument in
opposition to the proposed Postal telegraph system.

In the Senate to-day the Committee on Foreign
Relations reported a substitute for Mr. Morton's
bill authorizing the landing of a foreign telegraph cable on our shores. It gives this Government the right to prescribe rates, secures pri-

bill, which was given by Messrs. Morgan and Fessenden. The matter was further discussed by these Senators and by Mr. Grimes and Mr. Con-

mess until the expiration of the morning hour, which brought up the unfinished husiness of yesterday, the Consular and Diplomatic Appropriation bill. The pending amendment was that of Mr. Patterson (N. H.). to reduce the annual pay

pectively.

Mr. Morrill (Me.) said the treaty provided for

the establishment by each government of three such courts at three distinct points, and of course the courts could not be sustained if the salaries

of the judges were to be cut off.

Mr. Morton remarked that the obligation under the treaty was just as binding to keep the judges at the two points on the coast of Africa as at New York, yet he was informed that the judges assigned to those points did not reside there, so that even by paying the salaries the treaty would not be carried out

Mr. Woodward objected to the bill as being an

attempt to decide in advance a judicial question.

Mr. Kerr explained that the object of the bill was to prevent the parties from being enjoined in the building of the bridge on the question of the authority of the State of New York to authority of the State of New York to au-

thorize the erection of any obstruction over a branch of tidewater.

Mr. Woodward said that if he understood the

Mr. Patterson (N. H.) said that if he could, he
would strike this treaty out of existence, and the
object of his amendment was to nullify it. The
judges, if they were at their posts, would have
nothing to do, but he happened to know that the

Mr. Cook, from the Committee on Roads and PHILADELPHIA.

Mr. Woodward said that if he understood the bill, it violated a great sound principle of government in anticipating a judicial question. The question whether the State of New York had a right to bridge the East river by an incorporated company was one that must come before the Courts for decision.

Mr. Eldridge asked Mr. Woodward whether there was any suit now pending in the matter. there was any suit now pending in the matter.

Mr. Woodward-Of course not, because the bridge is not being built.
