day morning, at the Tombs Police Court, which promises some curions developments as to the mainter in which sharp operations are conducted by successful their confederates. Justice Dowling having received information a few days ago that the Pacific Railroad Company was de-frauded of first mortgage bonds to a very large amount by a gong of conspirators, several of whom he remembered in connection with former bond transactions; act detective McDongall to work no the case, with a view to bringing the the case, with a view to bringing the work up

The prisoners were re-manded to prison in the custody of the officera. It is the opinion of Justice Dowling that there are other parties concerned in this transaction, and he is therefore anxious to have present in the Special Sessions to-day, at one o'clock, all parties who may have suffered from the operations of these alleged conspirators. The following affidavit, on which the arreets

were made, was read by the clork: Bereignin F. Ham, of 20 Nassau street, bein 2

That on or about the 15th of December, 1868, in the city of New York, in the county of New York, Frederick A Goodal came to the deponent, who is the auditor in the office of the Union Pacific Rulroid Company, and stated to him that he (Goodall) knew of responsible parties who had money to loan and that he could obtain from them a loan for the the of the said railroad company to the amount of one, two or three hundred thousand dollars. This deponent having had authority, by reason of his said office as auditor, to make and negotiate loans in behalf of the said com-Goodall, offered him the one-half of one per cent. on the amount of any money he should procure on the amount of ald ymbolic ymbolic stable project as a loan to the said company. That subsequently, and on the 19th day of December, 1868, the said Goodal came sgain into the office of the said railroad company, bringing with him a maa whom he introduced to deponent as Wesley

Lynn, and whom he (Goodall) said was the agen Lynn, and whom he (Goodall) said was the agent and storney of the person of whom he (Goodall) had previously spoken to deponent, and wao would loan the said company the sum of \$100,000 on the first mortgage bonds of the company as su-curity, and that the said Goodall and Lynn stated then and there that the name of said party who desired to make the loan-was Simon Wolff, and thet he was a map of great wealth and a retired that he was a man of great wealth and a retired merchant. That in a few hours thereafter the said Goodall again came to the office of the company and stated that they were ready to make the loan. Deponent, believing the statements made by the said Goodall and Lynn to be true as to the said Wolff, and that the trausar-tion was in good faith, caused \$120,000 worth of the first mortgage bonds of the said company to be taken by a messen-gerin the office of the company, Heary M Liu-dell, to an office in the building No. 33 Nassau street, where the said Lindell delivered the said

bonds to Lynn, from whom he received two pers one being a receipt for said mortgage bonds, and the other a certificate of deposit of the sun of \$95,588 89 in currency, payable to the order of Simon Wolff, which papers were brought to deponent. That said certificate of deposit was deposited to the credit of the said railroad company in the Fourth National Bank. Depo-nent further says that the agreement made, between the deponent and said made Goodall and Lynn was that he (the deponent) was to give the said Goodall one-balf of one per Goodall an as commission for negotiating the said loan; that the said money was to be loaned the said company who was to give the said Wolff a promissory note of the said railway company for the sum of \$100,000, likewise \$120,000 of first mortgage bonds of the company as collateral semortgage could of the company as contactal tacture curity for the payment of the said not; that the said company, through the deponent as its auditor, performed all the conditions of the said contrast; but that the said Goodall and Lynn and Wolff, instead of keeping the said mortgage bonds in their possession as they agreed to do, to be delivered to the said company at the maturity of the said note, against the will and without the consent of the said company, sold the said bonds on the same day that they received them, at less than the market value thereof, and appropriated the proceeds to their own uses and benefits; that deponent has since assortained and believes that the representations made relative to said Wolff to and believes that the representations made relative to said wolf to deponent by the said Goodall and Lynn are wholly untrue in every particular, and that they knew the same to be false when attered by them to deponent. Deponent, therefore, says and charges that the said Goodall and Lynn made charges that the said boolain and hyperbolic matter such representations for the purpose and intent of inducing this deponent, the agent of the said company, to take the said loan, and part with the possession of said bonds, so that they could be sold and the proceeds appropriated to their own man. Deponent also Says be sold and the proceeds appropriated to their own use. Deponent also says and charges, by reason of in-formation received by him, that the said Si aon Wolff and James Wilkinson conspired with said Goodali and Lynn for the purpose of cheating and defrauding the said company of said bonds, inasmuch as the said Wolff and Wilkinson were to receive a portion of the proceeds from the sale of said bonds and were parties to the arrange-ment to obtain possession of the said bonds from the said company, and that they all, namely, Good-all, Lynn, Wolff and Wilkinson, conspired together with the felonious intunt to and did obtain the said bonds from the possession of deponent, the said bonds from the possession of deponent, the and fraudulent representations, of the sum of state and fraudulent representations, of the sum of \$120,000, and appropriated the proceeds to their own use and benefit, and he prays that they may be arrested and dealt with as the law directs. Conductor Zim-merman deepstched to Officer Herrow at the first place the train stopped, and when he arrived at Altoona a reply awaited him, rotify ing him to have them arrested. This was complied with, and the Chief of Police and Officer Berton next set thomselves about to intercept the trunk, which had gone on. This was effected, and the trunk was put off at Harrisburg with in-

structions to be sent back to Altoona. Chief Irwin then telegraphed the account of the arrest to Mr. Bisberg, and it is expected an officer will atrive here from Indianapolis to-day or to-morrow. We have up particulars concorning the rot bery. Officers Irwin and Herron deserve cridit for the ability and tact in the detective luce dividend on the occasion displayed on this occasion.

COMMONWEALTH NATIONAL BANK .--- We learn that our highly respected fellow-citizon, Chas. F. Norton, Esq., has tendered his resignation as President of the Commonwealth Bank, preparalory to an extended tour through the South and Southwest. No better evidence can be given of his times for the office which he is about to vecate than is found in the fact that since he en-tern d upon the duties of President the shares have materially advanced, whilst the deposits have more than doubled. It is satisfactory to learn that E. P. Mitchell, Esq., of the well known firm of Tyndale & Mitchell, at the earnest solicitation of Mr. Norton, has been selected as his successor. Mr. Mitchell is a gentleman of high culture and ensure tond a general fevorite mong business. refinement and a general favorite amoog busine s men. The New York Tribune this morning contyins

the following: The Rev. Father Malone, of Williamsburgh and the Rev. Thomas Farrel, of St. Joseph's Church, of this city, whose devotion to loyalty and liberty are so well known, are now traveling through the South for the benefit of their health. A letter just received from Father Malone, from

Jacksonville, Fla., says: "So far we have had no mishaps, and for my-"so far we have had no mushaps, and for my-self I feel I have done the very best thing to start on my present pilgrimage. The 'Memorial School'—crected chiefly by funds raised in Boston in memory of Col. Shaw—is a to be builder. fine frame building. There are over 400 children whose teachers are chiefly from the North; but among them are two Catholic young ladies, na tives of the city. The children were examined in arithmetic, reading, etc.; and they all really acmitted themselves as well as any white children I have seen. The teachers assured us that they were as quick at learning, so far, as any white children they ever taught; and, what is more, they manifest a better spirit of obedience.

"A second school-also numbering 400-unde the charge of a Presbyterian organization in the North was next entered. Here we had the same experience, save that the Principal manifested a little timidity when we told him we were Catholic priests. From this school we passed to one on Morris street, which was originally use for white pupils. It is now in the hands of the city authorities, and is used by them. There is good staff of teachers, and, what is a very hop-ful sign, they she all from the State of South Carolina. Over 800 children—all colored—are instructed in the various branches—reading, writing; arithmetic, &c. The teachers assartd us they were pleased with the progress, attend-ance, and obedience of the children of this school school.

# REPORTED ROBBERY OF \$17,000.

Important Arrest at Altoona

The Pittsburgh Commercial of yesterday says: On Saturday evening, Chiet of Police, John Irwin, received a telegraphic despatch from Mr. Bisberg, Union Depot Marshal at Indianapolis, Indiana, requesting him to look out for and Arrest two men and one woman, whom the des-nated fully described. It stated that one of the Indiana, requesting him to look out for and arrest two men and one woman, whom the des-patch fully described. It stated that one of the men went under the cognomen of Charles Hurlich, and the woman who accompanied them palmed herself off as the said Hurlich's wife. The name of the other man was not given. The despatch further stated that the parties alluded to had purchased tickots at Crestline, Ohio, through to New York by the way of Philadelphia, and also that they had with them a new cheap-looking trank. The Chief was also informed that a robbery amounting to \$17,000 had been pertetrated in Indianapolis on 8aturday morning, said money consisting of \$8,000 in currency and \$9,000 in bonds, and the authorities in that city had good reason for sus-pecting the trio mentioned of being the thioves. It therefore requested their arrest and detention until an officer could arrive from Indianapolis. Officer John Herron was placed in possession of the despatch and he at once repaired to the Union Depot to watch for his men. The Philadelphia express cast had alteredy departed and the onliner of planer. for his men. The Philadelphia express cast had already departed, and the officer on inquiry learned that the trunk had been checked through on that train, and he of course supposed that the partics too had gone on the same train. He telegraphed to the conductor of the train at Alawaited the return message announcing the arrest. In the meantime, while seated in the ticket office, he chanced to show the despatch to arrest and the meantime, while seated in the ticket office, he chanced to show the despatch to ticket office, he chanced to show the despatch to a gentleman whom he afterwards accertained to be. Mr. Zimmerman, conductor of the fast line, which leaves at 7 30 P. M. He requested the conductor to look out for the parties in the event of their not having taken the first train, and sure enough, when Conductor Zimmerman went through to take up the tickets he found the parties. The woman and man, as the despatch stated, kept away from each other as much as possible; and it was only by this circum-tance possible, and it was only by this circum-tance that the conductor's attention was attracted to them. avoid

MURDEROUS ASSAULT UPON POLICEMEN .- During a ball given at Washington Hall last evening Policeman Hill, of the Eighth District, went there to arrest a man for whom he had a warrant. Ile was resisted and beaten. He went out and got the sesistance of Sergeant Jones. When they got into the room Jones was selzed and pitched upon the floor. He was then beaten and kicked. Several pistols were fired, but none of the shots took cifect. The policemen then got out of the place as fast as they could, and did not succeed in getting the man they were after.

Connell has been requested by a number of our most influential cltzens to deliver a lecture, in this city, on the above interesting subject, and, as will be seen by th correspondence in another part of our paper, has consecuted to do so. The lecture will take place at Concert Hall, on Friday evening next, and as the subject is one that deeply interests every Anctican citizen, it is hoped that the attendance will be every way, worthy of the orator, of the o-cation, and the cause he will there represent.

A STEAM MAN .- The steam man, who has been looked upon with so much wonder by the New Yorkers and Bostonians, will be exhibited in this city this week. The "man" is a steam apparatus in the form of a "lord of creation," and walks about, drawing a wagon containing four persons, without the slightest apparent exertion. He is said to be a great curiosity, and will no doubt regime a large number of visits during his stay in the slight in this city.

UNGRATEFUL .- Edward Carlin walked down Pine street last evening, and as he was about stepping off the dock into the river, he was setzed by Officer Denard, of the Harbor Police. He said that he was going to Camden, that he knew the way, and the officer had better attend to his own business!

You can touch the very atmos-phere in these schools, so different is it from that you experience in schools that are sustained by a National party. "I must mention, in this connection, that the Bishop of Savanuah has brought from France, Sisters of the Order of St. Joseph, to teach the Blacks, but they are foreigners; they speak our language very imperfectly, and must therefore fail in accomplishing much for them. In fact, the Blacks are like other people; they prefer send-ing their children to be educated by those who speak English well, and where the school accomspeak English well, and where the school accom-modation is complete. "Any legislation that does not tend to make

the black man self-reliant will fail of doing him permanent good. He must be taught to rely on permanent good. He must be taught to rely on bimself, and to appeal to law where his stronger brother invades his rights. This is what will be accomplished for the rising generation to a great extent by disseminating schools all over the South. Here in Jacksonville the Bureau is erect-ing a school: the good effects will be to stimulate the whites, who have been wofully neglected in the matter of education. " \* \* SYLVESTER MALONE.
