a very close and accurate account of the foel used from December, 1867, to December, 1868, in order to compare your boilers with the old ones, FINE CONFECTIONS which we took out in September, 1867. The amount of raw sugar we refined during that time was larger than ever before. The steam pressure was always kept over fifty pounds and we were therefore enabled to do more work in a shorter time with the same machinery and apparatuses than with our old steam bollers, in which the pressure at times could not be kept up nigher than twenty to thirty pounds. The actual saving in fuel during this time was

y Archbishop McCloske Gen. Grant remained at his hotel very quietly yesterday until about noon, when he made a shopping tour through Broadway. He partook of dinner at Mr. Moses H. Grinnell's. Several trial trips were made yesterday on the Elevated Rallway at Greenwich street. The line is completed only from the Battery to Cortlandt street, and that distance was run in a little over three minutes time. So far, it is believed to be a ractical success.
