CITY BULLETIN.

AN UNGALLANT THIEF.—A colored individual named Anderson Barr stopped at the stand of Sarah Creily, at Delaware avenue and Dock street, and picked up a basket containing several articles. Mrs. Creily told Barr that the basket was her property, and she tried to prevent him from taking it away. He knocked her down and then started off with the basket. He was soon captured by Policeman Dalton, and Ald. Carpenter sent him to prison on the charge of assault and battery.

THIEVING BEGGARS.—James B. Watson and Geo. Seward were arrested yesterday by Policeman Bice, while attempting to steal a ham from a store at Thirteenth and Pine streets. They have been in the habit of visiting stores in that vicinity, asking for alms, and when opportunities offered they pocketed small articles. In their pockets were found combs, pieces of soap, and various little trinkets. The prisoners were committed by Ald. Patchel.

STREET LETTER BOXES.—Mayor FOX, at the request of Postmaster Bingham, has issued an order to the Lieutenants of Police having for its object the protection of the street letter-boxes from depredation. In it the policemen are notified that no one has a right to open street boxes at any time who does not wear the letter-carriers' uniform, and that the uniformed carriers are only authorized to do so within specified hours.

JUVENILE THIEF.—Joseph Gamble, aged 18 years, was arrested last night upon the charge of having robbed the money drawer of a shop at Nineteenth and Catharine streets. He was taken before Alderman Dallas and was committed to prison. He was arrested a short time ago for the larceny of washed clothing, but was released because the owner of the property did not appear against him.

HOUSE ROBBERY.—Frederick Stephenson was arrested yesterday and taken before Ald. Carpenter upon the charge of larceny. It is alleged that he entered the house of Dennis Smith, No. 624 St. Mary street, and stole some articles of clothing. The stolen property was recovered by the Third District Police. Stephenson was sent to prison in default of $1,000 bail.

SERENADE.—Mr. John Welsh, Assistant Assessor of Internal Revenue in the First District, was serenaded last evening at his residence, No. 330 South Fifth street, by the Liberty Cornet Band, B. K. McClurg, leader. A number of the friends of Mr. Welsh were present, and after the serenade, enjoyed his hospitalities.

LARCENY.—Annie Saboner, aged 12 years, was before Ald. Hood last evening upon the charge of larceny. It is alleged that she entered the house of Mrs. Barbara Grub, at Seventh and Master streets yesterday, ransacked the bureau drawers, and carried off a box of jewelry. She was committed for a further hearing.

STORE ROBBERY.—The fish store of H. S. Levis & Co., southwest corner of Delaware avenue and Race street, and a tobacco store adjoining on Delaware avenue, were entered last evening by prying open a window, and were robbed of goods valued at $200.

SUPPOSED LARCENY.—Fannie Brown was captured in Middle alley, with a handsome set of china ware in her possession, and of which she refused to give any account. She was committed on suspicion of larceny, and the china is at the Fifth Ward Police Station.

ROBBERY.—The trimming store of Mrs. Clement, on Hanover street, below Girard avenue, was entered last night by forcing open a back window. Jewelry and other articles, valued at $50, were stolen.

DEATH OF AN OLD SOLDIER.—Joseph Esworthy, aged 87 years, died yesterday morning at his residence, No. 1 Short court, Twelfth street, above Race. Mr. Esworthy served in the war of 1812 and also in the war with Mexico.

GRAND RE-OPENING OF THE MAMMOTH RINK.—The Mammoth Skating Rink, Twenty-first and Race, has been covered with splendid ice brought from Maine, and will be thrown open to skaters and the public this afternoon at 2 o'clock and this evening at 7½ o'clock. The cost of introducing this superb sheet of ice was over three thousand dollars, and the liberality and enterprise of the Directors of the Rink in thus catering to the desires of the skating public deserves to secure abundant reward. The Rink will now be almost independent of the vagaries and uncertainties of the weather, and a continuous skating season of some weeks' duration may be confidently anticipated. This is good news for those skatorially inclined, for opportunities for skating this winter have been "like angels' visits, few and far between." The Rink will be open every afternoon and evening. The renowned Meagher Brothers will skate this afternoon and evening, and every evening hereafter, until further notice.

HEBREW CHARITY BALL.—One of the most elegant and *recherche* balls of the present season will be that in aid of the Hebrew Charity Fund, to be given in the Academy of Music, on Tuesday evening, 9th instant. Of the many excellent balls given in former years, the Hebrew Ball has been invariably pronounced the best regulated and the most enjoyable. The entertainment of the present season will without doubt be one of the best yet given, and every arrangement has been made to contribute to the comfort and convenience of its patrons. The music will be furnished by Hassler's Grand Orchestra and Military Band. The catering will be done by Mr. Jacob Wiener, and the wines will be served up by Mr. A. Prosknuer, both of whom will leave nothing undone to give entire satisfaction to all who may have the pleasure to attend.

THE FIREMEN'S BALL.—The ball of the Fire Department in aid of the Lyle Monument Fund will come off on Wednesday evening next, at the Academy of Music. The Committee of Arrangements are sparing no efforts to add to the attractiveness of the occasion. The building is to be appropriately decorated by the different companies, each company being allowed a certain space for that purpose. Delegations from several other cities will be present. A novel feature of the affair will be the marriage of one of the prominent firemen of the city, which will take place on the floor at midnight.

DR. MCCANDLESS, 1926 Spring Garden street, has effected so many cures in most painful cases of hemorrhoids that we feel justified in calling attention to persons afflicted. The Doctor has had cases where the patients suffered for years, and in a short time had the disease totally eradicated. We can give the names of those who have been benefited in this city—gentlemen of notability and merchants, who have given permission to use their names to those who would doubt the Doctor's ability to effect a cure.

A MODEL PIPE.—Mr. J. B. Wickersham, of No. 143 South Front street, has patented a handy little pipe, constructed upon the chibouk principle, with a glass globe containing a wet sponge, and with a flexible tube attached. This device will prove very popular. It is cheap, pleasant and very portable.

EXHIBITION DRILL.—Company A, Philadelphia Fire Zouaves, Capt. J. W. Ryan, will give an exhibition drill and promenade concert at Concert Hall, on Monday evening next. This is one of the finest drilled companies in the country, and the various difficult movements are executed with remarkable precision. The exhibition will be very interesting.

THE COMMERCIAL LIST for this week, published by Winslow & Son, is an uncommonly good and handsome number. A supplement contains a description and an engraving of the new Chamber of Commerce, which is to be inaugurated on the first of March; also a likeness of its late President, E. Harper Jeffries.

Two concerts have been given previously for the same worthy object, and have been very successful.

CITY NOTICES.

THE EAR.—The number and the importance of the demands on the attention of Dr. Hartley, during his visit to Philadelphia, and the gratifying amount of success that attended his treatment, have induced him to expedite his return. Office and residence, 1107 Chestnut street. Reception hours from 10 to 3 daily. Until the 20th of February, reception from 10 to 4. Dr. Hartley generously offers to attend all persons suffering from affections of the Ear, without charge, until cured, thereby proving his success unequalled, and protecting the deaf from being swindled by paying self-styled aurists exorbitant fees in advance, and the infliction of yet more serious evils, by permitting the application of dangerous remedies by inexperienced hands. Deafness, noise in the head, and all disagreeable discharges from the ear, speedily and permanently removed without causing the least pain or inconvenience. A cure in all cases guaranteed, where malformation does not exist. Twenty-three years' close and undivided attention to this branch of special practice has enabled him to reduce his treatment to such a degree of success as to find the most confirmed and obstinate cases yield by a steady attention to the means prescribed. The following testimonials are submitted with confidence. They will show at least in what estimation his professional qualifications are held by some of the most distinguished medical men in the country:

"I have had the pleasure to meet Dr. Hartley in practice, and I have been led to form a favorable opinion of his character, both in the profession and as a gentleman.

"W. PARKER, M. D.,
"Professor of Surgery, etc."

"His professional abilities will be only appreciated by those who place themselves under his care.

"JOHN W. WHITAAKER, M.D.,
"Professor of Anatomy, etc."

"From my intercourse with Dr. Hartley I have found his deportment correct and gentlemanly.

"VALENTINE MOTT, M. D."

"It is a pleasant duty to give my testimony in favor of the treatment adopted by Dr. Hartley for the cure of deafness. The application is unattended by pain or inconvenience, and its effects are almost instantaneous.

FINANCIAL.

1,000 MILES
OF THE
UNION PACIFIC
RAILROAD
ARE NOW COMPLETED

As 500 miles of the western portion of the line, beginning at Sacramento, are also done, but

267 MILES REMAIN

To be Finished, to Open the Grand Through Line to the Pacific. This Opening will certainly take place early this season.

Besides a donation from the Government of 12,800 acres of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about $26,500 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. Whether subsidies are given to any other companies or not, the Government will comply with all its contracts with the Union Pacific Railroad Company. Nearly the whole amount of bonds to which the Company will be entitled have already been delivered.

FIRST MORTGAGE BONDS
AT PAR.

By its charter, the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, *and no more*. These Bonds are a First Mortgage upon the entire road and all its equipments.

THEY HAVE THIRTY YEARS TO RUN, AT SIX PER CENT., and both

PRINCIPAL AND INTEREST
ARE
PAYABLE IN GOLD.

Such securities are generally valuable in proportion to the length of time they have to run. The longest six per cent. gold interest bonds of the U. S. (the '81's) will be due in 12 years, and they are worth 112. If they had 50 years to run, they would stand at not less than 125. A perfectly safe First Mortgage Bond like the Union Pacific should approach this rate. The demand for European investment is already considerable, and on the completion of the work will doubtless carry the price to a large premium.

SECURITY OF THE BONDS.

It needs no argument to show that a First Mortgage of $26,500 per mile upon what for a long time must be the only railroad connecting the Atlantic and Pacific States is PERFECTLY SECURE. The entire amount of the mortgage will be about $30,000,000, and the interest $1,800,000 per annum in gold. The present currency cost of this interest is less than $2,500,000 per annum, while the gross earnings for the year 1868, FROM WAY BUSINESS only, on AN AVERAGE OF LESS THAN 700 MILES OF ROAD IN OPERATION, WERE MORE THAN

FIVE MILLION DOLLARS,

The details of which are as follows:

From Passengers	$1 034,005 97
" Freight	3,040,323 19
" Express	51,423 18
" Mails	193,235 59
" Miscellaneous	91,636 27
" Government troops	104,197 77
" " freight	449,434 23
" Contractors' men	201,179 09
" " material	988,430 32
Total	$5 066,651 61

This large amount is only an indication of the immense traffic that must go over the through line in a few months, when the great tide of Pacific coast travel and trade will begin. It is estimated that this business must make the earnings of the road from FIFTEEN TO TWENTY MILLIONS A YEAR.

As the supply of these Bonds will soon cease, parties who desire to invest in them will find it for their interest to do so at once. The price for the present is par and accrued interest from Jan. 1, in currency.

WE HAVE NO LOSSES DUE AND UNPAID.

PHILADELPHIA, January 1st, 1869.

To Our Agents and the Public:

It is so well understood that the Girard Fire Insurance Company belongs to *no combination* of underwriters, that a repetition of the fact is hardly necessary. But our experience in some localities, during the year 1868, justifies us in briefly alluding to the subject. Again, our *success* seems to demand an explanation. It will be remembered that in 1867 we lost a smaller per cent. of our premium than any other company doing a Fire Insurance Business, through agencies, in the United States. This happy result, we believe, has again been achieved, in our experience, for the year 1868, notwithstanding the multitude of fires.

If so, the statistics of the worthy Insurance Commissioners of New York, Massachusetts and Connecticut will doubtless certify, when published. By reference to the reports of the Commissioners of Massachusetts and New York for the year ending December 31st, 1867, it will be found that our losses were twenty-seven per cent. and a fraction upon the amount of premiums received. In 1868 they will not exceed thirty-three per cent. This is the test by which the general character of our business should be measured. Compared with the experience of other companies in this country, it either proves that our agents and patrons are honest and fair toward the "Girard Fire Insurance Company," else that we are remarkably fortunate.

A million of premiums might have been received instead of some two hundred thousand. But our profits might have been less, and the indemnity offered the insured no better than now. It is the latter we desire to afford our friends.

We are sorry to notice, however, that in some instances "Special Hazards" have been offered our agents at less than the "National Board" rates. This is *no favor* nor compliment to us, and a poor reward for our independence. Neither is it the kind of patronage we seek. It costs us as much to pay losses as other institutions, and we must have fair rates, fair risks, honest agents and honest insurers. Then our welfare will be identical. A few agents have been removed and others appointed, but not without a sufficient cause, for we believe that of all things done through the agency of others, the Insurance business of this country should be confided to the most honorable, responsible and intelligent men to be found in it. Otherwise the profession of the underwriter will be likely to suffer. We invite no conflict with other companies. We *seek no business* by unfair or *covert means*. Honest losses will be promptly met, as heretofore. Agents should be cautious as to *whom they insure, as well as to what* they insure, and abide by *our rules*, now so well and successfully established.
