It reeds no argument to show that a First Mortgage of \$26,500 per mile upon what for a long time must be the only railroad connecting the Atlantic and Pacific States is PERFECTLY SECURE. The entire amount of the mort gage will be about \$20,000,000, and the interest \$1,800,000 per annum in gold. meeting with general favor from the people themselves.

An address has been delivered in the House of Representatives by Geo. W. S. Nicholson, a brother of the Hou. John A. Nicholson, a maintendent Representative in Congress, in favor of a union of Delaware, the Eastern Shore of Maryland, and the two connties of Virginia lying on the extreme southern end of the Peninsula. A resolution will soon be offered in the Legislature at the point commissioners from other parts of the Peninsula increasted, and report some plan of action whereby a union may be accomplished.

The feeling sgainst the Philadelphia, Wilmington and Baltimore Railroad Company, at first so prevalent in the Legislature, has considerably subsided. The threatened bill, of which notice wasgiven in the early part of the session, for a revocation of the charter of the road, has never been introduced, but a resolution instead has been adopted, by both Houses to authorize the Siate Treasurer to employ counsel and commence suit against the Company for the recovery of the thenever transit tax, which the Gompany have refused to pay on account of its alieged unconstitutionality,

The Catholic School question, of which I spoke to the court and the courts of the United States; that these parties are charged with making a false oath in a State Courts and the Courts of the United States; that these parties are charged with making a false oath in a State Courts and the Court Company have refused to pay on account of its alleged unconstitutionality.

The Catholic School question, of which I spoke in my last, was rettled yesterday in the Senate by a defeat of the bill allowing them a pro rata share of the school-fund of the city of Wilmington, for the purpose of employing teachers and purchasing books peculiar to the doctrines of their religious belief.

Both Honers met in joint meeting on Monday, and listened to the reading of Washington's Farewell Address.

The bill for raising revenue for the purpose of carrying on a State Government has not yet been in the case.

Governor's Mr. Abett said the case was one of jurisdiction between the State Courts and the Courts of the United States; that these parties are charged with making a false oath in a State Court on a matter delegated to the Siate Courts by the United States, and he did not think the united States could exercise jurisdiction. The motion te postpone was granted.

Mr. J. W. Sendder made a motion for arrest of judgment in the case of Thoodore Tappen, convicted last week of passing counterfeit national currency. Granted. March 9th set for arguing the question in the case.

Governor's MESSAGE.

lighten artists and amateurs disposed to exhibit or select pictures. His large experiched, artistic knowledge and extensive actions of an industrial Home for the Blind, and more of an industrial Home for th quaintance with artists enable him to act as their agent with singular benefit to all concerned. Besides some exquisite works of the condition that \$50,000 are raised by privale subscriptions. A bill for the purpose has been offered and every humanitarian in the Legislature should vote for it, saving, as it will, by it lature should vote for it, saving, as it will, by its provisions so many worthy blind persons from the sufferings incident to paperism connected with the deprivation of sight.

Considerable fillbustering has been going on the last two days in the Senate to prevent action being taken on the Metropolitan Police bill.

There appears to be no reason to believe that it will pass as there are guidently sufficient Rapph. statuary, and many charming paintings, both will pass, as there are evidently sufficient Range licans who will vote with the Democrats, or dodge the question, to insure its deteat, and the vote the cuestion, to insure its deteat, and the vote thercupon might as well be taken early as late. Mr. Errett has presented a bill having for its object the reduction of the expenditure for postage, by having the Legislative Record sent out prepaid at the same rates as would be charged by the quarter for daily newspapers. If the requirements of the bill could be carried out, it would be a great improvement on the present mode of DOVER. Del., Feb. 24th, 1869. - Great anxiety is be a great improvement on the present mode of paying two cents on each Record; but I question if the postal laws can be so construed as to make that official report of proceedings come under the same head as daily newspapers. Senator Henezey has reported from the committee, with a negative recommendation, the bill to incorporate the Philadelphia Commercial Weighing Company. LETTER FROM TREATON. New Jersey I egislature... OF A Sentimental Idler, From Greece, Turkey, Pgypt, Nubia and the Holy Land By HABRY HAREWOOD LEECH. With a portrait of the Author, engravings of Oriental Life, &c., &c.

These letters are fresh, delightful and poetic pic'ures of travel in the Orient. The Author, in wandering through Greece, Turkey, Egypt, Nubia and Syria explored each storied spot with the interest of an antiquarian, and traced with the pen of a true poet the indolent huxuy of boat-life on the Nile and the adventures and romance of deset travel, in all of which he mingles a vein of sweet and philosophic thought.
