TRAFFIC IN SER TO VS.

How English Clergymea Preach the Cospel.

The London Guardian thus expresses its indig-

nation at the increase of the secret traffic in ser-mons revealed to it through the advertising columns of a London paper.

Vicarious preaching seems to be on the increase. In a contemporary, a "beneficed clerzyman" advertises that he is ready to "lend" his weekly sermous, "original, earnest, evangelical," to any "brother more busy than himself" for half-a-crown apiece, or four for a "P.O. order for ten shillings." He ends by a request for "mutual confidence." Can the bishops do nothing to stop this practice, which must tend to bring the clergy into discredit? If not, cannot the public press lend a besping hand?

The following advertisements from the same number suggest that it need not be dependent attogether upon its contemporaries either for the discovery or for the suppression of the traffic it denounces :

A Rather Serious Joke—How the Mis-sourt Legislature Transacts Busi-ness.

The St. Joseph Herald says that a bill was, last week, introduced into the Missouri House of Representatives, and passed without being read, except by its title, which was the hugest joke of the senson. It repealed the charter of the city of St. Louis; extended the limits of St. Charles so as to take in all of St. Louis, and played hob generally. After the bill passed, Mr. McGinniss demanded a reading thereof, and great was the consternation of the sage law-makers. Enochs, of Atchison county, introduced the and, by alleging that it was a mere local bill re-lating to St. Charles—the Representative from that city being the Speaker, in the chair—it was rushed through.

Mr. Kavanaugh went to the church, and finding him there, ordered him outside of the altar railings. He refused to obey the order, insisting that he was still pastor of the church. Besides a donation from the Government of 12,800 acres of land per mile, the Company is entitled to a subsidy in U. S. A perfectly eafs First Mortgage Bond like the Union Pacific should approach this rate. The demand for European investment is already considerable, and on the completion of the work will doubtless carry the price to a large pre-

SECURITY OF THE BONDS.

It needs no argument to show that a First Mortgage of \$26,500 per mile upon what for a long time must be the only railroad connecting the Atlantic and Pacific States is PERFECTLY SECURE. The entire amount of the mortgage will be about \$30,600,000, and the interest \$1,800,000 per annum in gold. The present currency cost of this in terest is less than \$2,500,000 per annum, while the gross earnings for the year 1868, FROM WAY BUSINESS only, OR AN AVERAGE OF LESS THAN 700 MILES OF ROAD IN OPERATION, WERE MORE THAN
