#### OITY BULLETIN.

THE RUSH FOR OFFICE.—The late trouble in the police torce, and the resignation of the men in the Tenth and Eighteenth Districts, has started in the Tenth and Eighteenth Districts, has started in the Tenth and Eighteenth Districts, has started up the office-seekers again, and for the past three days the Mayor's office has been crowded with the hungry horde of applicants for police honors. If the Mayor happened to pop his head out of lis private office, there was an immediate scramble of about a dozen men who just wanted to ble of about a dozen men who just wanted to speak a word with him. The speak a word with him the seen for was been greatly harassed by these men. This morning the crowd was larger than it has been for weeks. When the Mayor made it has appearance in order to receive the reports of the Lieutenants of Police, there was a rush towards him. Mr. Fox surveyed the scene for a few seconds, and then made a little speech, which could not have been very gratifying to those who could not have been very gratifying to those who few esconds, and then made a little speech, which could not have been very gratifying to those who had been his friends in the last political canvass, and therefore claim the right to receive better treatment. He said that he would not have his office crowded every day with applicants, and those who expected appointments to be made in consequence of their personal attendance in the office would be very much mistaken. Any applicant who lottered in the room would have his chances for success greatly diminished. These remarks acted like a bombahell upon the assemremarks acted like a bombshell upon the assembled forces of the Democracy, and in less than three minutes but five or six persons, out of nearly a hundred, remained in the office. Some of the fellows, who, no doubt, expected to walk out of the office with a badge on their coats, lingered upon the staircase, but the Mayor called up the policeman who is stationed at the door, and instructed him to keep the passage way clear. Notwithstanding the numerous vacancies, the Mayor does not hurry up things as fast as the "unterrified" desire, and only one appointment was made this morning.

A few days ago he disappeared from home, and about the same time a box containing \$75 an money and some valuable papers, belonging to his brother in law, was missing. Last night George turned up again. He acknowledged having stolen the box. He said that he had thrown it into a well in a graveyard in the vicinity of Sixth and Noble streets, and it was found there. The money had all been expended. there. The money had all been expended. Young Pope and a companion of about the same age went to New York, where they disposed of the funds in "seeing sights." George was arrested last night. This morning he was committed by Ald. Toland for a further hearing.

OUR MILITARY .- Among the military which took part in the inauguration ceremonies at Washington were the Washington Grays, under command of Captain Ward, the Fire Zouaves, under the command of General Baxter, and the National Guards, under the command of Colonel Neff. The Washington Grays attracted particular attention from their precise marching and the admirable marrier in which they are and the admirable manner in which they exe-cuted every command. They were accompanied by McClurg's Liberty Band, the music of which was superior to anything heard in the immense line of the procession. The Grays re our city last evening, and were received at the depot, Broad and Prime streets, by Company D, of the Grey Reserves, who escorted them to their

Drunken Men in Street Cars.

To the Editor of the Evening Bulletin:—Snortly after 11 o'clock yesterday, I got into car No. 48, on Vine street, at Tenth street. It had gone but on vine street, at tenth street. It had gone but a short distance when the car stopped and vaited for a man who was so drunk that he could not walk without assistance. His companion dragged him into the car. I protested that the conductor had no right to take such persons in the car, and that I knew it was contrary to the rules of the Company.

At Twentleth street I got out. The two men

At Twentieth street I got out. The two men then got out also, when the drunken one fell flat in the street, and it was with much difficulty that his friend got him on the sidewalk, where they waited for the next car, No. 49. On the front platform of this car stood a policeman; the car stopped and the companion with the conductor together put the drunken man into the car, while the policeman seemed to think it a very good joke, judging from the mirth manifested. As I do not live on Vine street, I see very little of these cars, but am told by ladies who do that on account of such things being constantly practiced they are forced to use other lines.

#### CITY NOTICES.

An Obiginal Production.-Among other things AN ORIGINAL PRODUCTION.—Allfolf other times exclusively the property of the American Eagle are clams, cranberries and crackers. Mr. Ball may brag of his Abernethy biscuits and his Banbury cakes, the Frenchman may go his length on biscuits and buns, but, as an accompaniment to a lunch, a picule, or a refreshment table, there is nothing in the whole range of the art of baking that can light a bigger candle than the American "cracker."

but, as an accompaniment to a lunch, a picule, or a refreshment table, there is nothing in the whole range of the art of baking that can light a bigger candle than the American "cracker."

Time was that Boston and Albany challenged the world to equal the product of their bakeries. Up to three years ago the challenge was unanswered. At the present writing, Pearce's Philadelphia crackers are sold not only by all the leading grocers of the "Hub." but by those of all the principal cities of the 'Union. Mr. Pearce took a philosophical view of the cracker subject, and made up his mind to crack every pretension that set up superiority over Philadelphia in the production of crack crackers. He first step was to get up a bakery on philosophical principles. To do this be spared neither expense nor trouble. His next step was to secure the necessary and constant supply of the particular flour that he required. What Mr. Pearce doesn't know about the farina of the various cereals ien't worth going to school to learn. Orange county dairies supply all the butter, and he is now supplying the market with an article of such excellence that Pearce's Philadelphia crackers are advertised as a leading article in all the cities of the south and west, as they are to the eastward.

Mr. Pearce is one of that class of citizens who don't do things by halves. He gets up butter crackers, soda crackers, when crackers, milk crackers, picnic and biscuits of appearance and taste so decidedly inviting that people partake of other things purely for the sake of the crackers that accompany them. They are jacked in neat tin boxes and wll keep, providing they ain't eaten, in any climate where the buys don't beak open the packages, People who believe in the advancement of home industry, when they ask their grocer for Pearce's crackers will 'ave the additional satisfaction of eating an article that cannot be excelled in nay quarter of the universe. We have witnessed the process of making these things. Mr. Pearce is as neat as an old maid, and his bakery

## NEW JERSEY MATTERS.

NEWTON TOWNSHIP.—There is trouble in the NEWTON TOWNSHIP.—There is trouble in the camp of the Demucracy in Newton township. A manifest disposition to bolt the ticket is exhibited, and the probability is that a split will take place. It is asserted by some of the dissenters that if seventy Democratic voters can be taken away from the regular licket, the bolters can carry the day, and efforts are being made to a cure those seventy vo'es. It is a sort of Kilkenny Cat fight, which is rapidly increasing in interest. PRISONERS.—Twenty four prisoners are now

regional in the Camden county jail, on various of-fences. The quiet in police business in Camden city and county is ascribed to the near approach of the spring municipal and township elections, at which all the voters that can be mustered are needed.

ELECTION MATTERS,...The Democrats in the various wards of Camden have completed their ward tickets and are preparing for an active canvass. The election occurs on Tuesday next, the polls opening at seven o'clock in the morning and closing at seven in the evening.

CAMDEN CITY Assessors.—The labor of asesseing properly the various taxable property in Cam-den is very arduous, and the compensation is far too little. An effort is to be made in the incoming Coun-cil to increase the salaries allowed to Assessors. MILLVILLE.—Politics Seems to create considerable excitement in Millville. There are three candidates for the mayoralty—Democratic, Republican and Independent

FREEHOLDERS.—The last regular meeting of the present Board of Chosen Freeholders of Camden county, will be held in the Court House, on Monday next. The new Board will not organize until May. OPENING OF NAVIGATION.—The Delaware and Raritan Canal will be open for navigation on the 10th

No. 629 CHESTNUT Street. GENTLEMEN: On the night of the 18th instant as is well known to the citizens of Philadelphia our large and extensive store and valuable stock of merchandize, No. 902 Chestnut st., was burned The fire was one of the most extensive and destructive that has visited our city for many years, the heat being so intense that even the marble cornice was almost obliterated.

We had, as you are aware, two of your valuable and well-known CHAMPION FIRE-PROOF SAFES; and nobly have they vindicated your well known reputation as manufacturers of FIRE-PROOF SAFES, if any further proof had been required.

As 500 miles of the western portion of the line, begin. ning at Sacramento, are also done, but

200 MILES REMAIN

To be Finished, to Open the Grand Through Line to the Pacific. This Opening will certainly take place early this season.

Besides a donation from the Government of 12,800 acre of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its line as completed and accepted; at the average rate of about \$26,500 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. Whether subsidies lare given to any other companies or not, the Government will comply with all its contracts with the UnionPacific Railroad Company. Nearly the whole amount of bonds to which the Company will be entitled have already been delivered.

Such securities are generally valuable in proportion to the length of time they have to run. The longest six per cent, gold interest bonds of the U.S. (the '81's) will be due in 12 years, and they are worth 112. If they had 30 years to run, they would stand at not less than 125. A perfectly safe First Mortgage Bond like the Union Pacific should approach this rate. The demand for European invest ment is already considerable, and on the completion of the work will doubtless carry the price to a large pre-

## SECURITY OF THE BONDS.

It needs no argument to show that a First Mortgage of \$26,500 per mile upon what for a long time must be the only railroad connecting the Atlantic and Pacific States is PERFECTLY SECURE. The entire amount of the mortgage will be about \$80,000,000, and the interest \$1,800,000 per annum in gold. The present currency cost of this interest is less than \$2,500,000 per annum, while the gross earnings for the year 1868, FROM WAY BUSINESS only, OR AN AVERAGE OF LESS THAN 760 MILES OF ROAD IN OPERATION, WERE MORE THAN

It is estimated that this business must make the earnings of the road from FIFTEEN TO TWENTY MILLIONS A YEAR.

As the supply of these Bonds will soon cease, parties who desire to invest in them will find it for their interest to do so at once. The price for the present is par and accrued interest from Jan. 1, in currency.
