The order made yesterday, constituting the Chief and two Lieutenauts a board to inquire into the qualifications of all applicants, is merely the adoption of a regulation established by Mayor Henry, and which was found to work with so much advantage during his administration, and that of Mayor McMichael. The robbers next got into the store of Thomas Kenworthy, dealer in cotton and woolen rage, adjoining. In this establishment the fire-proof safe was forced open with a wedge. Nothing is missing except six cigars valued at two

CITY NOTICES.

\$1,000 REWARD FOR THE COUNTERFEITER OF HELMBOLD'S FLUID EXTRACT BUCHU.

HOW TO DETECT IT.
The genuine has the name blown in the bottles, while the counterfeit has not.
And the contents are not at all similar to the genuine. In fact it is a most miserable imitation in this respect, and possesses no medicinal qualities whatever, but seems to be filled with some simple decoction. 17 Bottles of the Spurious have been returned by Patients, and I will appreciate the kindness of dealers if they will examine their stock at once and report.

GREAT INJUSTICE IS DONE

of dealers I they will examine their stock at once and seport.

GREAT INJUSTICE IS DONE
TO PATIENTS.

I look to druggists for protection. Patients that have been using the genuine readily detect the spurious.
BEAR IN MIND THE GENUINE

has the following plainly blown in three sides of the bottle:

H. T. HELMBOLD'S GENUINE FLUID EXTRACTS, PHILADELPHIA.

THE COUNTERFEIT HAS NOT.

Notwithstanding I have spared no expense in getting up steel engraved wrappers and labels for the protection of my business, the counterfeit of these are calculated to deceive. Information derived, leading to detection, will be rewarded with the amount of one coived by H. T. HELMBOLD.

104 South Tenth Street, Philadelphia, and P. S.—Since the insertion of the above the following Druggists have kindly reported and returned the spurious article, and been supplied with the genuine:

A MOST striking proof of the progressive spirit. A MOST striking proof of the progressive spirit of the times may be seen in the marvelous perfection of that remarkable divention, the American Button Hole and Sawing Machine, when compared with may of the old mechanisms in this line. The rapid development of improvement as seen in this new and splendid machine, and the astounding degree of excellence attained, are indeed, almost incredible. And what is most gratifying in this connection is the fact that this is altogether a Philadelphia institution, the Company being located here, with their factory at Twentieth and Washington avenue, and Salesbooms S. W. Coe ov Eleyenti and Carsinut are we commend this extraordinary machine to the notice of all who are interested in such matters; and to those who design purchasing family machines we say, by all means examine the American.

OF THE

UNION PACIFIC

RAILROAD

ARE NOW COMPLETED

As 500 miles of the western portion of the line, beginning at Sacramento, are also done, but

200 MILES REMAIN

To be Finished, to Open the Grand Through Line to the Pacific. This Opening will certainly take place early this season.

Resides a donation from the Government of 19.800 acres of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about \$26,500 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. Whether subsidies lare given to any other companies or not, the Government will comply with all its contracts with the Union Pacific Railroad Company. Nearly the whole amount of bonds to which the Company will be entitled have already been delivered.

FIRST MORTGAGE BONDS

AT PAR

AND ACCRUED INTEREST.

By its charter, the Company is permitted to Issue It OWN FIRST MORTGAGE BONDS to the same amount as he Government Bonds, and no more. These Bonds are a First Mortgage upon the entire road and all its equip

THEY HAVE THIRTY YEARS TO RUN, AT SIX PER CENT., and both

PRINCIPAL AND INTEREST

PAYABLE IN GOLD.

Such securities are generally valuable in proportion to the length of time they have to run. The longest six per cent. gold interest bonds of the U.S. (the '81's) will be due in 12 years, and they are worth 112. If they had 20 years to run, they would stand at not less than 125. A perfectly eafe First Mortgage Bond like the Union Pacific should approach this rate. The demand for European invest ment is already considerable, and on the completion of the work will doubtiess carry the price to a large pre-

SECURITY OF THE BONDS.

It needs no argument to show that a First Mortgage of \$26,500 per mile upon what for a long time must be the only railroad connecting the Atlantic and Pacific States is PERFECULY SECURE. The entire amount of the mortgage will be about \$30,000,000, and the interest \$1,800,000 per annum in gold. The present currency cost of this interest is less than \$2,500,000 per annum, while the gross earnings for the year 1868, FROM WAY BUSINESS only. on AN AVERAGE OF LESS THAN 700 MILES OF ROAD IN OPERATION, WERE MORE THAN

EIVE MILLION DOLLARS.

The details of which are as follows:

Freight. 2,040,233 19 Express...... 51,423 08 Mails 136,235 59 Miscellaneous..... 91.626 27 Contractors' men..... 201,179 09 material..... 968,430 83

This large amount is only an indication of the immense traffic that must go over the through line in a few months, when the great tide of Pacific coast travel and trade wil begin. It is estimated that this business must make the earnings of the road from FIFTEEN TO TWENTY MILLIONS A YEAR.

As the supply of these Bonds will soon cease, parties who desire to invest in them will find it for their interest to do so at once. The price for the present is par and ac crued interest from Jan. 1, in currency.

A NEW PAMPHLET AND MAP WAS ISSUED OCT. let, containing a report of the progress of the work to that date, and a more complete statement in relation to the value of the bonds can be given in an advertisement which will be sent free on application.
