PORTY-FIRST CONGRESS-First Scs-CLOSE OF YESTERDAY'S PROCEEDINGS. unfinished business.
Mr. Scott resumed his argument to show that the power of romoval from office is within the jurisdiction of Congress, and may be regulated by legislation. The Republican party was combitted to that view by the Tenure-of-Office act, mitted to that view by the Tenure-of-Office act,

M. Mayeard Sparred Spa source of that corruption was not to be found in the exercise of arbitrary power of removal by the Executive, but in the eystem of appointment of public officers at random from personal or political favoritism, or upon the principle that to the victors belong the spoils. Whilst that system should be continued, it would be a question if a law like the tenure of office act would not do more harm by preventing salutary removals by a good President than it would do good by preventing improper removals by a bad President. When the body politic was daily swallowing poison it was well to have at hand, ready to act promptly. was well to have at hand, ready to act promptly, a powerful emetic, like the absolute power of removal from office, and, therefore, he might be willing to vote for repeal if he believed that the mejority of the Senate was in favor of keeplag the law on the statue-book in its present form. It seemed, however, to be generally understood that if, the law were not repealed it would have to be modified at the next session of Congress.

For this reason, paradoxical as it might seem, he would now vote against repeal, because he othe root of the evil, and at least attempt a true eform by establishing a system of examination, ppointment for merit, and removal only for anse, thus giving respectability and permanency the public service. He did not expect to bring out the millennium by an act of Congress, but about the millennium by an act of Congress, but the did hope that at the next session one step at least would be taken in the right direction. With this hope he would vote to suspend the law in order to facilitate the action of President Grant in removing unworthy public officers.

He had heard with regret rumors that the President felt sensitive on the subject, and would not send any nominations to the Senate until the fenure of Office act should be repealed. These

and active minister, and under his charge new life and vigor seem to have been thoroughly in finsed into the proceedings of the church.

New Fire Engine.—The Independence Fire Company, of Camden, have housed a new and splendid steamer, which is a valuable addition to the department. Its experiments have been perfectly satisfactory, and it is represented as being a finely bullt and powerful machine: It was made by the Gould Manufacturing Company, of Newark, N. J.

Instituted.—A new lodge of Knights of Pythias has just been instituted in Camden, under the name and title of Cerinthian Lodge, No. 19. It is said to have been organized under very favorable circumstances.

The following is the amount of coal transported over the Philadelphia and Reading Railroad during the week ending Thursday, March 18, 1869:

MEDICAL Aver's Sarsaparilla FOR PURIFYING THE BLOOD.

cellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Serofulous dis-

cles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by cruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, eure, by the use of this SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringucorm, Sore Eyes, Sore Ears, and other cruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsta; Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the yarious Ulcerous affections of the muscular limit hervous systems.

Syphilis or Veneraal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by my medicine. But long continued use of this medicine will cure the complaint. Leucorrhea or Whites, Ulcrine Ulcerations, and Fennale Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflormmation of the Liver, and Jaundlee, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

IODIZED SYRUP OF HORSE-RADISH.

PREPARED BY GRIMAULT & CO.: PARIS.

This syrup contains Iodine combined with the juice of water cress. As rec-radish, and scurvy-grass, in which iodine and sulphur exist naturally, and for this reason is an excellent substitute for cod liver oil, which is generally supposed to owe its efficacy to the presence of iodine. The lodized Syrup of Horse-radish invariably produce: most satisfactory results administered to children suffering from lymphatism, rachitism, congestion of the glands of the neck, or the vario's eruptions on the face so fiequent during infancy. It is also the best remedy for the first stage of consumption. Being at once tonic and depurative, it exists the appetite, promotes digestion, and restores to the tissues their natural firmness and vigot. and visor.
