The Republican party hopes to give them the great badge of liberty, the ballot, they come up to that full stature of a perfect | excited in this country by the spectacle of manhood they will already have received, in brave people struggling for liberty. ## SECRETARY BORIE.

The most bitter, unscrupulous and unprincipled newspapers of the defeated Democracy have singled out, as the special object of their abuse, President Grant's Secretary of the in this work are among those best fitted by Navy, Hon. Adolph E. Borie. Uader the circumstances, this is to be regarded as very flattering to that gentleman. It is a proof that fact of his being an educated, intelligent, and honorable experience, and a man of de cided political views, is quite enough to make him odious to the reckless leaders of a party Winsor, Enoch Lewis, Dr. John L. ### -----THE RUSSIAN MISSION.

The nomination of Ex-Governor Andrew G. Curtin, as Minister to Russia, is a firstfor this important position that would have Evening Telegraph has also put on a new Tinion and especially with those portions of i in which Pennsylvania was particularly con cerned, that the compliment conveyed in President Guant's voluntary nomination, is a

compliment to the whole loyal people of the I State. With the exception of the personal animosity of a single Senator, which is as well understood in Washington as it is in Pennsylvania, there will undoubtedly be as an hearty endorsement of Governor Oartin's nomination in the Senate, as there is in his own State. The American Government has been badly represented at St. Petersburg for several years past, by Mr. Cassius M., Clay, and it 19 a great relief to have him recalled. Governor Curtin is a gentleman whose attractive, affable manners, large experience in public affairs and undeviating devotion to the interests and the honor of his country, emicently fit him to represent that country at the Russian Court. President Grant has done a very graceful thing in tendering this position, unsolicited, to Pennsylvania's favorite War Governor, and it is a compliment which the Stae at large will recognize and appreciate.

If the Cubans redeem their island from Spanish rule they will owe their success as much to Spanish stupidity as to their own heroic valor. The course of the Provisional government in Cuba has been characterized by a series of unpardonable blunders from first to last. It was a fatal mistake to refuse to the Cubans the liberal measures which were STECK & CO'S AND HAINES BROSY. To President Grant belongs the honor of this full and practical recognition of the great principle of human equality which is, hence-forth, to stand as the completion of the foun-dations of all true Republics. The effect of sending such a repre-schiative to Hayti as Mr. Bassett will be wholesome, both there and here. It is a practical token of good will to a race which has been debased by two centuries of American vessel and seized two Cuban passengers, setting at defi-ance the principle of international law which was clearly defined by the famous Slidell and Mason case. This is not quite as serious a matter as the actual invasion of the terri-tory of a friendly power, but it may serve to hasten the action of our government in re-cognizing the rebels, and thus bring the whole moral power of the United States to bear
