water were thrown upon the flames, they were soon got under control, and before 10 o'clock an occasional outburst alone showed that the configgration had not been unterly quenched. At 10 o'clock there were about twenty itremen inside of the burning building.

Upon the roof of the house on the south side of No. 14 were other firemen with hose, seeking for any places where the flames were not quenched. These latter observed the hanging chimney to be in a very insecure condition and already tottering, and they shouted to warn their comrades of their danger. They had scarcely called out to those below them when the noise of their volces was drowned by the crash of falling bricks and timber, and the burning house became a mass of confused ruins. The huge chimney swayed and fell inwarde, and the immense weight of the bricks which composed it falling upon the roof and floors of the building, crushed them as if they were made of paper, and carrying the walls with them they were piled up into one confused heap of bricks and charred and smouldering timbers, from which tongues of fire every now and then flamed upwards. Nearly every man who was in the building at the time of the falling of the walls was precipitated downward into the cellar and hidden from sight and hearing by the huge pile of ruins. The entire front building fell in, there being scarcely a brick left upon another above the first course of bricks upon the ground floor.

front building fell in, there being scarcely a brick left upon another above the first course of bricks upon the ground floor.

The noise of the falling building, the shower of sparks that ascended from the burning tiaber and the avalanche of bricks which poured down into the narrow alley for a few moments, drove the firemen and policemen from the immediate vicinity, but they soon returned and began to labor among the debris for the recovery of the bodies of the dead and wounded. At first it was anticipated that scarcely a man could have escaped with his life; but as the masses of each were delved among and one after another of the missing men were exhumed alive, it was found that the extent of the casualties had not been so great as was first feared. It was but slow progress that was made in digging through the ruins, and not until 5 o'clock on Sunday morning that the last body was taken out.

At the moment before the failing of the chimney, Mr. William C. Ross, Assistant Chief Engineer of the Fire Department, was standing upon one of the upper rungs of a ladder which was placed against the house on the south side of No. 14. Seeing that the chimney was about to fall he descended the ladder as quickly as possible and ran to the opposite side of McClellan's alley, immediately in front of the burning building. He stopped with his body close against an iron railing, surmounted by sharp points, which ex-

ble and ran to the opposite side of McClellan's alley, immediately in front of the burning building. He stopped with his body close against an iron railing, curmounted by sharp points, which extended along the side walls of houses which front on Baltimore street. At this moment the chimney fell, and the front walls falling in an immense pile of bricks into the alley, Mr. Ross was thrown with truncindous force against this railing and one of the sharp points penetrated his left breast about an inch below the nipple. The bricks and timber which fell upon his limbs and the lower part of his body crushed him severely and held him a fast prisoner until rescued by some of the firemen. He was carried into a tavern near by, that being the nearest place where he could be placed, and the aid of Doctors Theobad, Warren and Bull procured. At a late hour last night he was in a precarious condition, but not suffering greatly, a stupor seeming to have set in.

James Mckinde was on the second floor of the building when it fell in. He was thrown to the cellar and his neck broken by the violence of the fall. His body was not recovered until about the cellar and his neck broken by the violence of the fall. His body was not recovered until about the cellar and his neck broken by the violence of the fall.

of the fall. His body was not recovered until about five o'clock on Sunday morning.

THE DAMAGE TO PROPERTY.

The building in which the fire caught is an entire ruin, together with all its contents, the stock and working materials of both cooper shop and its contents is placed at \$7,000 in all, on which neither Mr. Boyd nor Mr. Cook are said to have any insurance.

### CITY BULLETIN.

WANT TO BE POLICEMEN.—The Legislature baving adjourned, and therefore all fears of the passage of a Metropolitan Police bill being at an end, the rush of "patriots" who want to be policemen, to the office of the Mayor has again became quite large. For several days past the public reception room has been pretty well filled with these individuals who desire to wear the municipal star and to pocket the cash of the tax-payers. If countenances are any indication of character, the most of these office-seekers are not character, the most of these omee-seems are not the kind of persons a citizen would like to have to protect him from assault and robbery. Thus far the Mayor has not intimated his intention of making any immediate changes. This dolay cannot be understood by the fellows who got sore throats by shouting for 'Din Fox' last October. Weeks ago it was hinted that no appointments except to fill vacancies would be made until after the adjournment of the Legislature. This had the effect of keeping away from ture. This had the effect of keeping away from the office the applicants for places, and the Mayor and his clerks enjoyed a season of comparative quietness, and those having business at the office were able to transact it without any trouble. Now, things have resumed the same condition that they were in the first few weeks of the present administration. It is almost impossible to get within balling distance of the clerks, and the time of the Mayor is principally occupied in receiving visits from prominent Democratic politicians, who desire to get places for their friends. The Johnson men who have been defriends. The Johnson men who have been decapitated by Collector Henry D. Moore are also swarming about the Mayor's office, urging their claims for consideration in the appointments

which are expected soon to be made. Mysterious. - A man was found concealed under a pile of boards in a lumber yard at Beach and Poplar streets. at a late hour on Saturday night. He was very drunk, or pretended to be so. He had no coat, vest or hat on, and the re-mainder of his clothing was covered with blood, but no cuts or other marks of violence could be found on his person. When Policeman Shar pley took hold of him he, exclaimed, "I didn't do it," and when asked what he meant he rapiled it," and when asked what he meant he replied nothing. No explanation in regard to his condition could be got from him. He was seat to prison by Alderman Toland to await further degelopments. The man gave his name as John Bonner, and his residence at Salmon and Annetreets.

STOLEN CIGARS AND BUTTER .- Two men were observed acting in a suspicious manner, on Hamilton street, near Eighteenth, at an early hour this morning. A policeman followed them, but they ran and succeeded in escaping. Twenty-nine boxes of cigars and nineteen lumps of butter, supposed to have been stolen, were afterwards found on Hamilton street, close to a fence, where the men were first seen. The cigars and butter are at the Ninth District Police Station, awaiting an owner.

DEATH IN A POLICE STATION.—Benjamin Story got very drunk yesterday. He was found in the street, and was taken to the Second District Police Station in a push cart. This morning he had a hearing before Alderman Tittermary, and was committed. He was again put into the cell to await the appearance of the prison van, and was soon afterwards found dead.

Shight Fire.—A frame house, No. 1012 East York street, was discovered to be on fire about hall-past five o'clock yesterday afternoon. The flames, which had originated from sparks from a neighboring foundry, were extinguished by Policeman Welsh, of the Eighteenth District, before any serious damage had here done. any serious damage had been done.

Shooting.-Thomas Linn and Joseph Yeager got into a quarrel in Pine Alley, last night. Pistols were drawn and fired, but the shots did not take effect. Both men were arrested. This morning they had a hearing before Alderman Tittermary, and were sent to prison.

ATTEMPTED ROBBERY.—An attempt was made to rob the tailor store of Fred. Merger, No. 828 South Second street, this morning. About soy-enteen holes were bored in a back door, but the were frightened away before they had effected an entrance

JOVENILE MARKET THEE.—Henry Gladding, aged 14 years, was found in the market house, Second street, below Poplar, early this morning. He had a bunch of keys, and was engaged in opening different stalls. He was sent to prison by Ald. Toland.

House Robbery .- The house of Mrs. Thomas No. 1114 Spring Garden street, was entered this morning about 4 o'clock, by means of a falce key, and was robbed of knives, forks, spoons and napkin rings valued at \$50.

AN OWNER WANTED \_Twenty-five fathoms of Manilla rope, supposed to have been stolen, were found on Delaware avenue this morning, by the Harbor Police, and is awaiting an owner at the Station House, Front and Noble streets.

PRUSS CLUB.—The regular stated meeting of Press Club of Philadelphia will be held to-morrow afternoon, at the rooms No. 607 Walnut street. The cssayist appointed for the occasion is Mr. Frank Sheppard, of the Public Ledger.

ACCIDENT.—William H. Gillespie, aged seven years, residing at Twenty-fifth and Factory streets, fell in that neighborhood and had a leg broken this morning. He was taken to the

### The Condition of Bishop Duggan.

(From the Chicago Tribune of April 17.)
On Wednesday evening Bishop Duggan, whose condition had by no means improved, was removed by his friends from his residence and taken to St. Louis, where it is hoped his health

may be restored.

It may not be out of place to say that the affairs of the diocese are in rather an anomalous condition. The Bishopric of Chicago is a corpodition. condition. The Bishopric of Chicago is a corporation created by an act of the Legislature. There is no ecclesiastical authority to appoint an administrator to manage the affairs of that corporation, so there can be legal transfer of property or other like business performed. No Bishop of Chicago can be appointed during the lifetime of Bishop Duggan, unless he resign, and he is not in a condition to do so, even if willing. This circumstance adds additional embarrassment to the affair.

FIRE-PROOF SAFES. CHAMPION SAFES

> UNSUCCESSFUL BURGLARY. LETTER OF MESSES. DAVID DOWS & CO.

New York, April 10, 1869. HERRING, FARREL & SHERMAN, No. 251 Broad-GENTS: On the night of the 22d ult., our store, No: 20 South street, was entered, and a desperate

attempt made by burglars upon one of your safes in our counting-room. The key to the saie in which we kept our securities was locked inside of our fire-proof booksafe, the doors of which were literally cut to pieces; from this they obtained the key to the other safe and opened it. Fortunately we had one of your Burglar-Proof Bankers' Chests inside, in which our valuables were deposited. This they went to work at with a will, and evidently used up all their time and tools in vain attempts to force it. The night was dark and stormy, and the fact of their knownig where our key was kept shows that their plans were well ma-tured. They tried wedging the door and body of the Chest, and the faithful safe bears evidence of the labor and skill devoted to the work. All was useless, and it is with great satisfaction we report

that upon opening it we found our securities all safe, and can therefore cheerfully indorse the Burglar-Proof work recommended by you. You will please send the new safe purchased by us to our counting-house, and take the old one to show that some safes are still manufactured DAVID DOWS & Co.
