NEW ORLEANS, April 10, 1669.—Some time sisce a fillibustering expedition was planned here in order to genforce the Cubans with men and arms. The Spanish Consul in this city, after getting, wind of this movement, asked Captain-General Dulce to send over from Cuba some adroit spies. Nearly every steamer from Cuba brought some of them, but they did not fare batter itan the Consul, the volunteers and Cubana keeping a strict watch over them. It will be remembered that sometime ago General Sleedman visited Havana, that he was arrested there and released afterward. This trip was undertaken for the purpose of reconnoiterwas undertaken for the purpose of reconnoiter-ing and putting himself in connection with the Cuban patriots. Shortly after his return here, in the upper room of Hawkins' saloon, a bar-room of the haute-volte, a secret meeting was held, at which the Executive Committee of the Cuban refagees, the Mexican Consul, Senor Diaz; General Steedman, General Harry J. Hays, late Chief of the Louisians Confederate Artillery; Colonel Nixon, late Colonel in the Confederate Army, and proprietor of the Crescent newspaper, and many other influential and opulent citizens of this city met. General Steedman reported on what he had observed at Havana, after which a plan for an expedition was made. Since then the corps organized numbers over a thousand men, camping on different plantations in the neighborhood of the city. The chiefe have further pur-chased 2,000 rifles and two fall batteries of artil-icry, and also hired a very fast steamer, a former

blockade runner, to bring them to that northern coast of Cuba. This steamer is reported since to have left for Cuba. The expedition will be joined by nearly all members of the Democratic Ex-Union Soldiers' and Sailors' Club (organized during the election to remain the formation and the stand campaign), whose President was General Scea-man. They hope to be able to baffle by their steamer every pursuit, though in case of need, they are firmly resolved to give battle to any Spanish man of-war which they may encounter. There is plenty of money among the fillousters, for the rich planters arrived from Cuba and the Mexican Consul, Mr. Diaz, have provided ample funds for carrying out the expedition, General Steedman having also contributed \$5,000. Senor Diaz, in the negotiations with the Cabans, serves Diaz, in the negotiations with the Cubans, serves as interpreter and negotiator, while the latter occupies bimeelf with the organization of the corps only, which will consist of two divisions, commanded by Gen. Hays and Col. Nixon, while Gen. Steedman will be Commander-in-Chief. A splendid Cuban flag made of silk, by the wife of Senor Diaz, was presented to the officers of the corps in Senor Diaz's honse. It may be well imagined that pure love of lib-erty has not solely caused the members of the corps, and especially the officers, to take part in the expedition. The teaders of the expedition have been promised high offices, and the other filtibusters are to be compensated according to rank and their merits. Senor Diaz has just now returned from Washington, bringing tavorable news and much money with him, the latter for that expedition which is to start at the same time from Mobile for Cuba. That the enterprise will meet with difficulties in this port is hardly to be believed, the Custom-hones officials being all in favor of the Custom who have scented battle-fields, and who are not-lutimidated by Spanish troops or Spanish sur-

Official information received from London con-firms my deepatch of two days ago to the office: that Secretary Fish had demanded of Kigland an explanation regardlow the seizare and condemna-tion of the brig Mary Lowell. There is no conden-placed before the English Premier, but at the same time it should be stated that no fears are-entertained in official circles here that any new cause of trouble between the governments will arise therefrom. It is understood here that the English government agrees with our own in Cause of irouble, between the governments will arise therefrom. It is understood here that the regarding the conduct of the Spaniards fift this matter is completely indefensible, and fur-ther, that it has already requested an explanation of the whole proceeding. In windleation of its own honor and dignity, should spain referse to furnish an explanation to England, there is, rea-son to believe the latter will firmly insist upon the envrender of the brig Mary Lowell. What-ever mr.y be the sympathy of England for the "Spaniards in their struggle to preserve Guba in their possession, she will not suffer a flagrant violation of international law to pass unex-plained and unsatisfied. It is said 'Mr. Fish' has assurances from Minister Johnson that steps have already been taken by England folding to the surrender of the brig in question. On the other band it is stated on good authority that this power, without openly declaring herselt on the side of. Spain, to aid the latter to ountry in keeping the rebellions Chans in subjection. is even asserted that a secret understanding has already been entered into on the part of England and France to send a powerful fleet to the West Indies to assist in preventing supplies from reaching the Cubans, and thus enabling Spain to starve out ber rebellious subjects. The two statements seem hardly reconcilable, but I give them as they reach me, without vouching for their truthfulness. If England really has any such dangerons designs me, without vouching for their trustationers. It England really has any such dangerous designs, it is not easy to explain why she should express hereelf so ready to pick a quarter with Spale about the Mary Lowell affair.
