Monday, April 26, 1869. THE PESTIVAL TO DAY. Philadelphia is all alive to-day with the grand demonstration of the Odd Fellows, who celebrate the semi-centennial anniversary of their Order, with a degree of splendid pomp which gives convincing proof of the wonderful growth and vigor of this great or. ganization. There is nothing so splendid in American ceremonials as the splendor of great masses of orderly, decent, intelligent American citizens. The grandest pageant A merica has ever seen was the review of May 23d and 24th, 1865, when the great armies of the Republic swept through the streets of Washington, flushed with victory and rejoicing over a restored Union and a crushed Rebellion. But although that famous pageant

had all the brilliant insignia of war about it, its great significance came from the fact that it brought together the great mass of citizen soldiery, the men who had never divested themselves of their American citizenship, and who, a few weeks later, melted away again from an invincible army into the quiet industrial pursuits of private life. The Odd Fellows, to-day, hold their Grand Review, and the pageant has the same fine moral features as those which attracted the eyes of the world, four be banished forever from all decent American years ago, to the National Capital. It is a theatres. great demonstration of organized citizenship. It brings before the people one of the

great results which have been worked out in the progress of our American growth. It is a grand illustration of the many blessings which an advancing civilization has conferred upon the people of this free land, and this semi centennial celebration of the foundation of this great beneficial order is therefore properly made an occasion of marked interest, not only to its own members, but to the whole people. Thomas Wildey organized the first lodge of Odd Fellows in the United States, in Baltimore, on the 26th of April, 1819; and from that little beginning, the body has grown to its present huge proportions of wide-spread influence. with 245,036 members, in the United States, of which 526 lodges and 66,235 members are in Pennsylvania. Since the foundation of the Order in this country, it has received 606,327 members, and expended upon the several objects of its organization \$20,153,592. During the year ending June 30th, 1868, the total receipts of the Order have amounted to \$2,110,951 66, and the total amount expended for the relief of members, in the same year, has reached \$931 556 91 With: pended for the relief of members, in the same year, has reached \$951,556 21. The origin of Odd Fellowship, stripping it of those fabulous fancies which carry it back to the days of Nero and Titus, is to be found in the latter part of the eighteenth century, when convivial associations of laborers and mechanics were formed in London, calling themselves "Ancient and Honorable Loyal Odd Fellows." They met at taverns, and enjoyed themselves with mild carouses. A custom grew up for each member to contribute a penny a week toward fund for the relief of their poorest members. to defray funeral expenses members. to defray funeral expenses members, to defray funeral expenses and to provide for widows and orphans. In 1809, efforts were made to abolish its convivial character and to effect other reforms, but these innovations were resisted by the convivial majority, and, in 1813, several of the lodges seceded from their boon com-

The Order provides for its own household, without interfering with the rights of other men. The cable informs us that a rumor prevails in England to the effect that the British Gov. ernment will recognize the Cuban rebels as belligerents, and permit them to procure ma-

terial of war in British ports. The object of this movement is said to be to maintain an appearance of consistency by following the 100 THE I. O. OF O. The theory is ingenious, WHITE VESTS FROM \$2 to \$5. but, nevertheless, we question the truth of WHITE VESTS FROM \$2 to \$5. the story. England would gain nothing by such apparent consistency, for the two cases are very different, and recognition of the Cuban rebels would not convince us of the righteousness of the policy which sent the Alabama and other pirates to prey upon our commerce. Nor would it harden the hearts of the Cubans against the United States. If we have not recognized them, we have at least given them hearty sympathy, and, what and we are sending them men and money

It is now evident that a healthy re-action has set in, after a rather long "spell" of a vulgar madness. The French opera repertoire, of the gay as well as the serious kind, contains many fine works that are not immoral or indecent, and a manager who would undertake to present these to the American public in good style, would be sure to make money. Who Killed Yancey!

A correspondent in Harrisonburg, Va., writes:
A few days ago I overheard a conversation in relation to the death of Wm. L. Yancey, of South Carolina, which goes to prove an assertion that I have previously heard, namely, that he was killed by Hill, of Georgia. One of the speakers said that he was intimately acquainted with a man by the name of Shankes, a stenographer who reported the proceedings of the Rebel Congress. On one occasion Shanke came to his house in a state of intoxication, and said that he had the notes of the proceedings of the Rebel Congress, and meant shortly to publish them in a book, when some startling developments would be made. On being asked about the death of Yancey, he declined to answer on the ground that it would injure the sale of his book, "but," he said, "when the proceedings of the secret session are published, you will know all about it, and I will now say that he did not die a natural death." The reporter died a few weeks later of delerium trements, Who Killed Yancey! that he did not die a natural death." The reporter died a few weeks later of delerium tremens, and the book was never published. Auother gentleman now said that he knew that Yancey was killed by Hill, having been acquainted with
