

CITY BULLETIN.

THE POLICE DEPARTMENT.—There was an unusual number of seekers after police appointments and their friends at the Police Department this morning. This rush is caused by the expiration of the term of office of the present police officers, and the beginning of a new month, to-morrow, many changes will be made. It is believed that three or four of the present officers are to be removed, and the places vacated are to be filled by new appointments. The officers who have served as members of the police force for long periods, and have been among the most faithful and energetic in the discharge of their duty, are the selection of men for police officers, the Mayor was very careful at first, and by his tardiness in making appointments and by his strict inquiries he caused considerable dissatisfaction among the faithful Democrats. Recently he has been severely rebuked, and he has either relaxed his stringent rules, or the character of some of the men who have been appointed lately will not bear much scrutiny. These individuals who are now to draw money from the City Treasury do very well to show up Democratic votes by calling on the boxes, keeping Republicans away from the polls, and other means, but they are not the kind of persons whom our citizens like to have to guard their property. Two or three fellows who strut about with police badges on their coats have been under arrest for beating and nearly killing policemen under the administration of Mayor McDowell. During the next three days the following appointments of policemen have been made: First District—Peter Dick, John W. Maguire, Frederick Steinmeyer. Second District—Thomas M. Reeves, Edward Murphy, Benjamin White, Charles Walters, John Burns. Third District—John McCormick. Fourth District—James Connelly, James McMahon. Sixth District—Thomas Evans. Ninth District—Peter J. Bunn. Twelfth District—John Lukens. Fourteenth District—Thomas McFarland. Sixteenth District—James Riley, John McGonigle, Patrick J. Sherlock, Wm. Tatum, J. Donohue. Eighteenth District—Patrick Maxwell. Reserve Corps—Samuel Hunter. Roundsmen—Albert H. Randall, Dennis Mulren. These appointments, with a few exceptions, are all made to fill vacancies caused by the removal of old policemen. James McGuckin, who it was announced a few days ago had been appointed a special policeman of the Tenth District, has been transferred to the Reserve Corps. McGuckin was Judge of the Election in the Sixth District, Seventeenth Ward, last October, and figured quite conspicuously in the evidence elicited in the Third District Congressional and the city and county contested election cases.

COMPLIMENT TO A PHILADELPHIAN.—The following letter from Samuel F. Morse to N. J. Snyder, Esq., operator on the Western Union Telegraph line, and in this city, has been received, with a fac simile of the medal issued by the Exposition at Paris, in 1867, as a token of his admiration of Mr. Snyder's skill in telegraphy. "New York, April 27, 1869.—My Dear Sir: The necessity of exclusive attention to the preparation of my report on the telegraphic apparatus of the Exposition of 1867, and my position as United States Commissioner, I have just sent to the Department of State, has prevented me from earlier acknowledging my indebtedness to you, and also to Walter Phillips, Esq., of Providence, R. I., for the receipt of the 'Speed of Transmission' by the Morse system, which was accomplished early in 1868. "Your great skill in recording 2,820 words in one hour, and Mr. Phillips' in recording 7,751 in the same time, are feats which, so far as I know, are unexampled in the annals of telegraphy. "I accept from me the accompanying medal (a souvenir of the great Exposition of 1867) as a small token of my admiration of your masterly performance. In the report above mentioned I have noted these results as worthy of special record. "Accept the assurance of the sincere respect and esteem of your obedient servant, "Samuel F. Morse. "To N. J. Snyder, Esq., Philadelphia."

THE MIDDLETOWN MISSION.—We give the following statement of the work done by this noble charity, in the hope that it may induce more of our citizens to come forward and contribute generously to the support of the good work. The Mission has been in operation for ten months. During that time six hundred girls have attended its meetings, which have been held once every week at 10 o'clock, P. M. One hundred of the poor creatures have sought the shelter of the home, and have been under its kindly influence for a greater or less time. Forty-five have forsaken their horrible life forever, and have been placed in Christian families or restored to their homes. Those who desire to contribute to the Mission can send their offerings to any of the following gentlemen: Reva. R. Heber Newton, J. Wheaton Smith, Richard Humphreys, Geo. Brighthouse, or to Messrs. Geo. H. Stuart, H. D. Sherrill, L. Montgomery Bond, D. E. Willard, Samuel Corey, or Wm. A. Farr.

STRUCK BY LIGHTNING.—During the thunder storm of yesterday the house of A. Terry, Sr., Esq., 2133 Spring Garden street, was struck by lightning. The wind entered at a window above the verandah, then story back, and passing down through the floor into the bath-room, seemingly spent itself in the projecting lead-pipe of the shower-bath, making it the cooling and scattering small aperture like bullet holes, and scattering plaster in every direction. Mrs. Terry, who was sitting in the verandah, made a narrow escape, receiving a severe shock. The peculiar burning and sulphurous smell which is the usual concomitant of lightning thoroughly impregnated her garments and person. A large tree near the Eighteenth District Police Station was shattered by lightning yesterday. A stable at Edgemoor and Berks streets was also struck by lightning during the storm yesterday morning. No serious damage was done.

THE INSURANCES OF THE RINK.—The following is a list of the insurances on the Philadelphia Skating Rink, of Twenty-first and Race streets, which was destroyed by the last night. United States of Baltimore..... \$3,000 Maryland..... do..... 3,000 Monumental..... do..... 3,000 Associated Firemen..... do..... 2,500 Glen's Falls..... do..... 2,500 Hope, of New York..... do..... 2,500 Phoenix, Philadelphia..... do..... 2,000 Atlantic..... do..... 2,000 Spring Garden..... do..... 6,000 Total..... \$30,000 On the west side of the rink, which was insured for \$2,700 in the Commonwealth, of New York. The rink building was valued at \$100,000.

A DESERTED INFANT.—Policeman Goodwin, of the Sixth District, found a large basket on the pavement, on Chestnut street below Eleventh street, last evening, about 9 o'clock. Upon raising the lid, a pretty female baby, apparently about five weeks old, was observed. The deserted infant was well provided with new clothing. In the basket was the following note: "To the Matron of the Almshouse: Please take care of this dear little one. She will be recalled, and you will be well paid for your care of her. Necessity compels this course. Do not let her be taken up by any person, for when I call for her I will give proof that she is mine. Take care of this note, and when I call I will hand you a certificate of this. MRS. A. ANDREWS. "P. S.—Her name is Foundella."

THE INDUSTRIAL LEAGUE.—The following note explains itself: "PHILADELPHIA, April 30, 1869.—Editor Daily Evening Bulletin:—Sir: The report of the Industrial League of Pennsylvania, published in your edition of yesterday, declares that the Colleges of Pennsylvania are not known to teach any other system of political economy than that promulgated by the Free Trade League. "Immediately after the reading of the report, Mr. Fraley stated that the University of Pennsylvania is an exception, as it uses a text book compiled from the works of Henry C. Carey. This material correction of the statements of the report does not appear in the proceedings, and will be obliged to you for its publication. "Very truly yours, "Cyrus E. Elder, Secretary."

THE SOLDIERS' HOME, corner of Sixteenth and Filbert streets, is in want of linens and bandages, for the sick and wounded soldiers in its hospital, and we have been requested to call on the benevolent ladies of the city to supply them.

REGULAR ACCIDENT.—A few evenings ago a gentleman residing in Fifteenth street, above Master, met with a singular accident, which may result in serious injury. He was awakened at a late hour by a strangling sensation in his throat, when he discovered that a large gold plate upon which was attached two false teeth slipped from its proper position and fallen into his stomach. It has since passed down into his stomach, where it now remains. He is attended by one of the first surgeons of our city, who has fears that the result will prove fatal.

SHOPLIFTING.—A man and a woman entered the dry goods store of Mr. Wang, No. 704 North Second street, yesterday afternoon. The man asked for some buttons, and while the attendant was waiting upon him, the woman helped herself to several articles, which she placed in a basket. The loss was discovered, and the couple was pursued. The man succeeded in escaping, but his companion was captured. She gave her name as Ellen Blood, and after a hearing before Alderman Kerr, was committed for trial.

ATTEMPT TO ROB.—At a late hour on Wednesday evening last an attempt was made to enter the residence of Mr. Bell, on Thirteenth street, below Jefferson. The thief was discovered on the roof of the house by a citizen, who fired at him twice without effect. He succeeded in making his escape into the street, where he was again fired at twice by a policeman, both of which shots failed to hit him. He was not captured.

REASONED.—Lemuel T. Selby, Sergeant of Police of the Second District, resigned this morning. He served as a policeman under Mayor Conrad, and in the early part of the administration of Mayor Henry he was appointed Sergeant. In that capacity he has served until to-day, always discharging his duties in a manner entirely satisfactory to the citizens of the district.

A GOOD APPOINTMENT.—John Gallagher, Jr., has been appointed Volger in the United States Custom House. Mr. Gallagher has an extensive acquaintance with our merchants, and this appointment will give entire satisfaction to those who will have business relations with him.

SUPERVISORS APPOINTED.—The Mayor has appointed as Supervisors to fill vacancies caused by resignations, Ephraim Shaw for the Seventh and Eighth Wards, and Robert W. Libberton for the Ninth and Tenth Wards. Two Districts yet remain vacant.

A BAD FELLOW.—John Rutter, who lives at Front and Millin streets, went home yesterday, beat his wife and children, and then smashed the furniture in the house. He was arrested, and after a hearing before Ald. Collins, was sent to prison.

MARKET THIEF.—Edward Dunmore was arrested this morning for stealing articles in the market at Second and South streets. In the only evidence elicited in the Third District Congressional and the city and county contested election cases.

FIRE AT HESTONVILLE.—A fire occurred at the house of Thomas Heston, at Fifty-third and Pear streets, in Hestonville, on Wednesday afternoon last. The loss sustained was about \$500.

THE MORE THE MERRIER.—People used to talk about high prices as something insupportable from his store. Oak Hall has done much to do away with that foolish prejudice by giving a live example of the Largest Clothing House in the State selling goods at the lowest prices. An immense quantity of goods, such as the most business and so requiring the largest accommodations, are the ones who can do so well the cheapest. In this is in every thing. The merriest place in town is Wanamaker & Brown's, southeast corner of Sixth and Market streets.

CHEQUER.—The "I. Zingari" eleven will play a match game with the Young America Club tomorrow, on the ground of the latter club, play to begin at 10 o'clock. A fine display of the beauties of the game may be seen, weather permitting.

"PAPER WINGS," an original comedy in three acts, by Watts Phillips, Esq.; also, "A Cup of Tea," a comedietta in one act, to be had of A. Winch, 605 Chestnut street.

WATKINS, JEWELRY, & CO. Musical Boxes and Fancy Goods. SOLE AGENTS FOR THE NARRIN WATSON.

HOW TO ADVERTISE. The following conversation occurred between the editor of this paper and H. T. Heimbold, druggist, 624 Broadway. Editor.—"Doctor, I understand that you advertise in more than two thousand newspapers." Doctor.—"Yes, sir. Of the four thousand papers published in the United States, I advertise in two thousand seven hundred."

Editor.—"It is really astonishing, doctor, how you can make it pay, and how you manage to keep the account of all of them, keeping your advertisements in the positions agreed upon, and making the necessary changes, etc." Doctor.—"Well, sir, I will explain the matter, and enter into a few details which may interest you. Some eighteen years ago I had a small drug store in the city of Philadelphia, and at that time manufactured my fluid extracts. They had but a limited sale, and I required considerable effort to bring them to the notice of physicians. I was tolerably successful ultimately, and they were very generally prescribed by medical practitioners. At this time extracts were sold in bulk, and I was in the hands of practitioners and 'high-toned druggists' to adapt. I was aware of the singular prejudice existing in the minds of practitioners and 'high-toned druggists' against advertising remedies, and in truth, I then had a fine illustration, when one bright morning, while I was sitting in my store waiting for customers, the Rev. Mr. O'Brien, of Philadelphia, happened in, and said, 'Doctor, you have a nice little store, and seem to be doing a fair business; which I replied in the affirmative. He then remarked, 'Doctor, this is a business I think would suit me. I presume I could employ a competent druggist, and I think I could employ a man doing as well as you are doing, and thus make it pay. What think you?' The idea at once flashed across my mind to sell out, and I said, 'I do not suppose he would have any difficulty in carrying out his proposition. He then inquired the amount I would sell out for, whereupon I named a sum, and he accepted the offer. The negotiation was no sooner concluded than I began to look out for a new place, and in a few days I had a small office, at 810 Chestnut street, Philadelphia, which I rented, opened, and made ready for business in a few days. I had a nice little store, and a few more customers than the small capital left, I determined to know, and that quickly it merits and value: for even at that early date I was no hand to follow, and I concluded to know a doctor, and I manufactured a small stock and sold all my surplus cash—amounting to about \$2,000—in that short period. My experimental program worked admirably, and from that time I continued to succeed, and to make a contract for advertising, so to speaking proportion. On these principles I have managed to enlarge and expand my business, until it has assumed its present magnitude."

Editor.—"But, doctor, how do you manage about the making of contracts, the payments to publishers, etc." Doctor.—"Oh! that is a simple matter. When I have funds to spare I invest them in extending my business, and in business, just as a man does who purchases real estate or cultivates a farm; and I consider the investment equally good, in every respect. No day I over attempt to make contracts, and I have never had a man who has said to me, 'I am a good farmer, would think of cultivating his soil without the funds to pay for cultivation.'"

Editor.—"But, doctor, you have not yet exactly answered my question: what I wish to know more particularly is, how you make your contracts, and how you know that profits are derived from the different sources?" Doctor.—"Well, these are questions frequently asked of me in my place of business, on the street, or wherever I may happen to be. It is one of the first questions asked by business men, and moreover, I seldom open my correspondence without finding two or three letters relative to the same subject, some going so far as to ask my views of the value, as advertising matter, and some inquiring as to the terms. These writers always receive civil replies. But, while we are on this theme, Mr. Editor, permit me to relate a little incident that occurred to me, and which I frequently refer to, in order to show you, and to my acquaintance, that it is really a business, to commence: I chanced to be in the city of Washington, on my way South, and, as usual, was in the habit of stopping at the Hotel de France. I was about five P. M. when I arrived. I did not wait until after dinner: I wanted to know the proprietor of the leading paper in the capital, and to make a contract for advertising, so to speaking, I proceeded. I was out riding, I was informed, and would not return to his office again that day. I inquired for his residence, and, this ascertained, I determined to see him that night, and I did so, early on the morning of the following day. Dinner being over, I started out in search of Mr. Wallace, now Mr. Wallace, of the Washington Evening Star. If you are of my acquaintance, but to the interview. Finding Mr. Wallace at home, I presented my card, and related my business. His reply was polite, but guarded, and to the point, in something like these words: 'This is not my office, sir; I can be found there from 10 A. M. to 3 P. M., and my clerks attend to advertising.' 'Well, what do you mean, sir, in the way of advertising?' 'I have no objection, if you will, to be immediately named a price, and if you will accommodate me.' 'Well, what do you mean, sir, in the way of advertising?' 'I have no objection, if you will, to be immediately named a price, and if you will accommodate me.' 'Well, what do you mean, sir, in the way of advertising?' 'I have no objection, if you will, to be immediately named a price, and if you will accommodate me.'

Editor.—"Doctor, do you mean to state that you purchase the liberal course with all the papers in which you advertise, and are you acquainted with the publishers of twenty-seven hundred papers?" Doctor.—"With the proprietors of all the leading papers, and the majority of the others, I enjoy a personal acquaintance, and in each paper as the New York Herald, Weekly Tribune, and Independent, I have some times paid from fifteen hundred to three thousand dollars for the single insertion of an advertisement, knowing that in such cases the amount of space occupied, and the importance of the transaction, would necessitate an interview. On one occasion I offered the sum of FIVE THOUSAND DOLLARS for a page in the New York Herald, on account of press of matter, notwithstanding it was double the usual advertising value. This was at the time of the fall of Richmond. To conclude, I always prefer dealing directly with publishers; friendly relations once established, I have no fear of accepting their best rates."

Editor.—"Well, doctor, I guess I shall have to follow your advice, and see Mr. Wallace. I am pleased with the interview, and when you inquire as to the value of the value of the Hour Journal, as an advertising medium, you must freely give the result of your experience with that paper." Doctor.—"This I promise to do with great pleasure." P. S.—Editor proceeds to his sanctum, puts in print the entire conversation, and, fearing that the doctor may take umbrage at his action, takes the precaution to mail him a marked paper.

THE FAMILY DOCTOR. A Complete Dictionary of Domestic Medicine and Surgery. Especially Adapted for Family Use. BY A LONDON DISPENSARY SURGEON. Illustrated with upwards of One Thousand Illustrations, crown 8vo. cloth, 750 pages and an Appendix. \$3 00; half morocco, \$4 00. AGENTS WANTED. Apply to GEO. GEBBIE, No. 730 SANBOM STREET.
