few years, more than overbalance the depreda-tions committed by the Alabama on American V. Geary:
PHILADELPHIA, May 7, 1869.— Your Excellency: The undersigned, a committee appointed at a meeting of Government employes for the purpose of making a united effort to gain our rights under the eight-hour law, as really intended by Conress, would, in behalf of those we represent and by their instructions, respectfully petition you to use all the influence and power at your command that may affect the President and officers of his Cabinet to a consideration of the subject of the reduction of pay under the eight-hour law, agreeable to the wishes of the workingman, and Washington, May 11.—The work of removal in the Treasury Department still continues, and created day numbers are dismissed. The Sixth However much we may desire to disguise the fact, the decision against the government employes has aiready exhibited a tendency toward the defeat of the Republican party in our fall thus for escaped the political guillotine. It is to be reconstructed, however, during the present week, and about fifty clerks will be dismissed, mostly for political reasons. A still further reduction of women clerks is to be made this week the defeat of the Republican party in our fall campaign, and we fear if something definite is not soon done for the workingmen of the party, the Gubernatorial chair, the chambers of the Legislature; with other high offices of the State, and in this city, will be filled by the so-called Democracy, and the principles for which we have so long fought will fail for the want of a proper appreciation of the interests of labor.

We would also beg leave to call your attention to "Foy's House Bill, No. 2,088," now in your hands presented at the last session of the Legishands, presented at the last session of the Legis-lature, and passed by both branches, which we consider of vital importance to the workingman at this time. It is "An act to authorize mechan-

ics, journeymen, tradesmen and laborers to form societies and associations for their mutual aid, benefit and protection." Hoping for your support, and receiving which we pledge ourselves to you in the coming contest, we are your Excellency's humble servants, W. Steele Hoffner, Nathan D. Rooms, CHARLES R. MACAULEY, JACOB L. REIFF, GEORGE W. CAMPBELL,

Committee on Correspondence. Attest—Jacob L. Reiff,
Corresponding Secretary,

His Excellency John W. Geary, Governor State of Pennsylvania, Harrisburg, Pa.

EXECUTIVE CHAMBER, HARRISBURG, May 8, 1869.—Jacob L. Reiff, Corresponding Secretary Committee of Government Employés: DEAR SIE: Your favor of the 7th inst. is just received. I nave the pleasure to inform you that House bill No. 2,088, entitled "An act to authorize me-No. 2,088, entitled "An act to authorize mechanics, journeymen and laborers to form societies and associations for their mutual benefit and protection," has already obtained my sanction.

In regard to the eight-hour law, concerning which you write, I have always entertained but one opinion. It is impossible to suppose, that, when the employes of the Government petitioned for a reduction of the number of hours which should constitute a day's work, they intended to reduce the means for the support themselves—and their families. Their plain meaning and intent were, that the additional hours they asked for rest, recreation, and improvement, would be so far physically beneficial to them that they could render to the Government, by eight hours' labor, a full equivalent for the same pay they had been receiving for the work of ten hours. And there is one opinion. It is impossible to suppose, that, when the employes of the Government petitioned for a reduction of the number of hours which should constitute a day's work, they intended to reduce the means for the support themselves—and their families. Their plain meaning and intent were, that the additional hours they asked for rest, recreation, and improvement, would be so far physically beneficial to them that they could render to the Government, by eight hours' labor, a full equivalent for the same pay they had been receiving for the work of ten hours. And there is no doubt that such was the understanding of the originators and framers of the eight-hour law. Not one of them, in my opinion, supposed his action would take from the Government employes one-fifth of their daily pay.

Whatever may be the opinion of legal gentlemen, or others not materially interested in the solution of this question, I repeat that it is my confident belief that the law was asked for and adopted expressly for the purpose of reducing the number of hours of daily labor, without lossening, in the slightest degree, the pecuniary compressition of the employes of the employer. The form the total manufacture of the employer of the employ

the number of hours of daily labor, without lessening, in the slightest degree, the pecuniary compensation of the employes.

You may, therefore, rely upon my support of this view of the subject at all times, and whereever my influence may extend.

Very respectfully yours,

John W. Geary.

Americans in Cuba. WASHINGTON, May 11.—The condition of affairs in Cuba, and the manner in which the American residents are treated by the Spanish authorities, are such that our Navy Department has decided to send two more war vessels to Admiral Hoff. The Galena, which is at the Norfolk Navy-Yard, will leave in a very few days, having received her outfit, and the Seminole, now at Hampton Roads, will follow soon after.
